Manual abstract:

Failure to heed them can result in serious injury or death. **WARNING** This symbol means important instructions. Failure to heed them can result in injury or material property damage. **DO NOT OPERATE ANY FUNCTION THAT TAKES YOUR ATTENTION AWAY FROM SAFELY DRIVING YOUR VEHICLE.** Any function that requires your prolonged attention should only be performed after coming to a complete stop. Always stop the vehicle in a safe location before performing these functions. Doing so may result in an accident, fire or electric shock. **USE THIS PRODUCT FOR MOBILE 12V APPLICATIONS.** Use for other than its designed application may result in fire, electric shock or other injury. **KEEP SMALL OBJECTS SUCH AS BATTERY OUT OF THE REACH OF CHILDREN.**

Swallowing them may result in serious injury. Failure to do so may cause personal injury or damage to the product. Return it to your authorized Alpine dealer or the nearest Alpine Service Center for repairing. When inserting the batteries, be sure to observe proper polarity (+ and -) as instructed. Rupture or chemical leakage from the battery may cause fire or personal injury.

4-EN PRECAUTIONS Temperature Be sure the temperature inside the vehicle is between +45°C (+113°F) and 0°C (+32°F) before turning your unit on. @@@@ also have your vehicle's voltage regulator checked. @@@@Installation Location Make sure the TUE-T200DVB will not be exposed to: •Direct sun and heat •High humidity •Excessive dust •Excessive vibrations **SAFETY Video Output (front)** In order to ensure vehicle safety, the driver side screen must be connected to the front video output connector. This will ensure the driver won't be able to watch TV while the vehicle is moving, if the blue handbrake wire is properly connected. The driver will be able to watch TV once the handbrake is pulled.

The rear passenger screens, connected to the rear video output connectors, do not fall under this restriction. **EN 5-EN Controls on remote control** 9 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 **Teletext menu buttons** Navigate the Teletext shortcut menu by pressing these buttons In TV mode the yellow/blue button can be pressed to select the next/previous favourite service. **10 Power button** Press the button to turn the DVB-T tuner unit on/off. **11 CH+ / CH- buttons** Press these buttons to select the next/prev. preset service. **12 VOL+ / VOL- buttons** Press these buttons to adjust the volume output level. **13 Menu button** Press the button to enter the main menu. **1 A/V button** Press the button and the source will change as shown below: DVB-T Radio A/V 1 A/V 2 **14 OK button** Press the button to select a highlighted menu item or to confirm a number input. **15 Scan button** Press the button to start the auto scan procedure. **16 Mute button** Press the button to switch on/off the audio output.

17 TXT button Press the button to enter the Teletext menu. **18 EPG button** Press the button to enter the Electronic Program Guide menu. **2 Number buttons** Preset services and Teletext pages can be directly accessed by using the number buttons. **Exit button** Press the button to return from a menu. **Buttons** Press the up/down buttons to navigate the OSD or to load the next/previous Teletext page. **Buttons** Press the left/right buttons to navigate the OSD or to skip the next/previous 100 Teletext pages. **Audio button** Press the button to enter the audio setup menu. **Back button** Press the button return to the previously selected service. **3 4 5 6 7 8 6-EN Getting Started EN Settings in the main menu** •Press MENU key on the remote control to view the main menu on the screen. The sub-menu will be shown on the screen.

□ Press EXIT to return to the main menu. **7-EN Installation** •The installation menu lets you add , delete and auto scan terrestrial carriers. □ Auto Scan In this menu you can select your country and scan mode to do a fast or slow scan. Press OK to start auto scan after having selected the scanning mode. **8-EN Installation EN • Carrier Info** In this menu you can see the carrier parameters.

@@@@@ - left/right buttons: Skip the next/previous 100 pages. @@@@@@ caution **HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.** The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done. **USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.** Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure. **ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.** Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges.

This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole. **DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.** Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

en Warning MAKE THE CORRECT CONNECTIONS. Failure to make the proper connections may result in fire or product damage. **USE ONLY IN CARS WITH A 12 or 24 VOLT NEGATIVE GROUND.** (Check with your dealer if you are not sure. Never cut away cable insulation to supply power to other equipment.

Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock. **DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.** Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.
