**Manual abstract:**

When you use the Apple 10W USB Power Adapter to charge iPad, make sure that the power adapter is fully assembled before you plug it into a power outlet. Then insert the Apple 10W USB Power Adapter firmly into the power outlet. Do not connect or disconnect the Apple 10W USB Power Adapter with wet hands.

The Apple 10W USB Power Adapter may become warm during normal use. @@@@ The adapter case has become damaged. You suspect the adapter needs service or repair. You want to clean the adapter. @ Use only compatible receivers, earbuds, headphones, or earpieces with your device. Turn on the audio and check the volume before inserting anything in your ear. You can adapt over time to a higher volume of sound that may sound normal but can be damaging to your hearing.

If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the less time is required before your hearing could be affected. Hearing experts suggest that to protect your hearing: Limit the amount of time you use the receiver, earbuds, headphones, or earpieces at high volume. Read all safety information below and operating instructions before using iPad to avoid injury. For detailed operating instructions, read the iPad User Guide on your iPad by visiting help.

**Carrying and Handling iPad** iPad contains sensitive components. Do not drop, disassemble, open, crush, bend, deform, puncture, shred, microwave, incinerate, paint, or insert foreign objects into iPad. **Avoiding Water and Wet Locations** Do not use iPad in rain, or near washbasins or other wet locations. Take care not to spill any food or liquid on iPad. In case iPad gets wet, unplug all cables, turn off iPad (press and hold the Sleep/Wake button, and then slide the onscreen slider) before cleaning, and allow it to dry thoroughly before turning it on again. Do not attempt to dry iPad with an external heat source, such as a microwave oven or hair dryer. An iPad that has been damaged as a result of exposure to liquids is not serviceable. Repairing or Modifying iPad Never attempt to repair or modify iPad yourself. Disassembling iPad may cause damage that is not covered under the warranty. iPad does not contain any user-serviceable parts, except for the SIM card and SIM tray on iPad Wi-Fi + 3G.

Service should only be provided by an Apple Authorized Service Provider. If iPad has been in contact with liquids, punctured, or subjected to a severe fall, do not use it until you take it to an Apple Authorized Service Provider. For service information, choose iPad Help from the Help menu in iTunes or go to:

www.apple.com/support/ipad/service Avoid turning up the volume to block out noisy Turn the volume down if you can't hear people speaking near you.

For information about how to set a maximum volume limit on iPad, see the iPad User Guide. **Driving and Riding Safely** Use of iPad alone or with headphones (even if used only in one ear) while driving a vehicle or riding a bicycle is not recommended and is illegal in some areas. Check and obey the laws and regulations on the use of mobile devices like iPad in the areas where you drive or ride. Be careful and attentive while driving or riding a bicycle. If you decide to use iPad while driving, keep in mind the following guidelines: Give full attention to driving or riding and to the road.

Using a mobile device while driving or riding may be distracting. If you find it disruptive or distracting while operating any type of vehicle, riding a bicycle, or performing any activity that requires your full attention, pull off the road and park if driving conditions require. Do not email, take notes, look up phone numbers, or perform any other activities that require your attention while driving. Composing or reading emails, jotting down a to-do list, or flipping through your address book takes attention away from your primary responsibility, driving safely. **Navigating Safely** If your iPad has applications that provide maps, digital compass headings, directions or location-based navigation assistance, these applications should only be used for basic navigation assistance and should not be relied on to determine precise locations, proximity, distance, or direction.

Maps, digital compass, directions, and location-based applications provided by Apple depend on data collected and services provided by third parties. These data services are subject to change and may not be available in all geographic areas, resulting in maps, digital compass headings, directions, or location-based information that may be unavailable, inaccurate, or incomplete. iPad contains an internal digital compass located in the upper right corner of iPad.

The accuracy of digital compass headings may be negatively affected by magnetic or other environmental interference. Never rely solely on the digital compass for determining direction.

Compare the information provided on iPad to your surroundings and defer to posted signs to resolve any discrepancies. **For Vehicles Equipped with an Air Bag** An air bag inflates with great force. Do not store iPad or any of its accessories in the area over the air bag or in the air bag deployment area.

**Seizures, Blackouts, and Eyestrain** A small percentage of people may be susceptible to blackouts or seizures (even if they have never had one before) when exposed to flashing lights or light patterns such as when playing games or watching video. If you have experienced seizures or blackouts or have a family history of such occurrences, you should consult a physician before playing games or watching videos on your iPad. Discontinue use of iPad and consult a physician if you experience headaches, blackouts, seizures, convulsion, eye or muscle twitching, loss of awareness, involuntary movement, or disorientation. To reduce risk of headaches, blackouts, seizures, and eyestrain, avoid prolonged use, hold iPad some distance from your eyes, use iPad in a well-lit room, and take frequent breaks. **Glass Parts** The outside cover of the iPad screen is made of glass. This glass could break if iPad is dropped on a hard surface or receives a substantial impact.

If the glass chips or cracks, do not touch or attempt to remove the broken glass and stop using iPad. Glass cracked due to misuse or abuse is not covered under the warranty. Stop using iPad until the glass is replaced by Apple or an Apple Authorized Service Provider. **Choking Hazards** iPad contains small parts, which may present a choking hazard to small children.
