Manual abstract:

Do not drop, disassemble, microwave, burn, paint, or insert foreign objects into iPhone. Do not use iPhone if it has been damaged--for example, if iPhone is cracked, punctured, or damaged by water. The front and back covers of iPhone are made of glass. This glass could break if iPhone is dropped on a hard surface, is subjected to a substantial impact, or is crushed, bent, or deformed. If the glass chips or cracks, do not touch or attempt to remove the broken glass.

Stop using iPhone until the glass is replaced by Apple or an Apple Authorized Service Provider. Glass cracked due to misuse or abuse is not covered under the warranty. If you are concerned about scratching or abrasion, use a case, sold separately. Keeping the Outside of iPhone Clean Clean iPhone immediately if it comes into contact with any contaminants that may cause stains--for example, ink, dyes, makeup, dirt, food, oils, and lotions. To clean iPhone, unplug all cables and turn off iPhone (press and hold the On/Off button, and then slide the onscreen slider).

Then use a soft, slightly damp, lint-free cloth. Avoid getting moisture in openings. Don't use window cleaners, household cleaners, aerosol sprays, solvents, alcohol, ammonia, or abrasives to clean iPhone. The front glass surface has an oleophobic coating. To remove fingerprints, simply wipe these surfaces with a soft, lint-free cloth.

The ability of this coating to repel oil will diminish over time with normal usage, and rubbing the screen with an abrasive material will further diminish its effect and may scratch the glass. Avoiding Water and Wet Locations Do not expose iPhone to water or rain, or handle iPhone near wet locations--for example, near washbasins or toilets. Take care not to spill any food or liquid on iPhone. In case iPhone gets wet, unplug all cables, turn off iPhone before cleaning, and allow it to dry thoroughly before turning it on again. Do not attempt to dry iPhone with an external heat source, such as a microwave oven or hair dryer.

Damage to iPhone caused by contact with liquid is not covered under the warranty. Repairing or Modifying iPhone Never attempt to repair or modify iPhone yourself. iPhone does not contain any user-serviceable parts, except (where applicable) for the SIM card and SIM tray. Disassembling iPhone, including the removal of external screws and back cover, may cause damage that is not covered under the warranty. If iPhone has been submerged in water, punctured, or subjected to a severe fall, do not use it until you take it to an Apple Authorized Service Provider. Service should only be provided by Apple or an Apple Authorized Service Provider. If you have questions, contact Apple or an Apple Authorized Service Provider. For service information, go to: www.apple.com/support/iphone/service/faq Battery Replacement Do not attempt to replace the rechargeable battery in iPhone yourself.

The battery should be replaced only by Apple or an Apple Authorized Service Provider. For more information about battery replacement service, go to: www.apple.com/batteries/replacements.html Charging iPhone To charge iPhone, use only the Apple Dock Connector to USB Cable with the following: (i) an Apple USB Power Adapter, (ii) another Apple-branded product or accessory designed to work with iPhone, (iii) a third-party accessory certified to use the Apple "Works with iPhone" or "Made for iPhone" logo, (iv) a high-power USB port on another device that is compliant with the USB 2.0 or 1.1 standard, or (v) a power adapter compliant with one or more of the following standards EN 301489-34, IEC 62684, YD/T 1591-2009, CNS 15285, ITU L.1000, or another applicable mobile phone power adapter interoperability standard. An iPhone Micro USB Adapter (available separately in some areas) or other adapter may be needed to connect iPhone to some compatible power adapters. Note: Only micro USB power adapters in certain regions that comply with applicable mobile phone power adapter interoperability standards are compatible.

Please contact the power adapter manufacturer to find out if your micro USB power adapter complies with these standards. Read all safety instructions for any products and accessories before using with iPhone. Apple is not responsible for the operation of, or any damage caused by, third-party accessories or their compliance with safety and regulatory standards. When you use the Apple USB Power Adapter to charge iPhone, make sure that the power adapter is fully assembled before you plug it into a power outlet. Then insert the Apple USB Power Adapter firmly into the power outlet.

Do not connect or disconnect the Apple USB Power Adapter with wet hands. The Apple USB Power Adapter may become warm during normal use. Always allow adequate ventilation around the Apple USB Power Adapter and use care when handling. Unplug the Apple USB Power Adapter if any of the following conditions exist:

• The power cord or plug has become frayed or damaged.
• The adapter is exposed to rain, liquid, or excessive moisture.
• The adapter case has become damaged.
• You suspect the adapter needs service or repair.
• You want to clean the adapter.
Avoiding Hearing Damage Permanent hearing loss may occur if the receiver, earbuds, headphones, speakerphone, or earpiece are used at high volume. Use only compatible receivers, earbuds, headphones, speakerphones, or earpieces with your device. Turn on the audio and check the volume before inserting anything in your ear. You can adapt over time to a higher volume of sound that may sound normal but can be damaging to your hearing. If you experience ringing in your ears or muffled speech, stop listening and have your hearing checked. The louder the volume, the less time is required before your hearing could be affected. Hearing experts suggest that to protect your hearing:

• Limit the amount of time you use the receiver, earbuds, headphones, speakerphone, or earpieces at high volume.
• Avoid turning up the volume to block out noisy surroundings.
• Turn the volume down if you can't hear people speaking near you. For information about how to set a maximum volume limit on iPhone, see the iPhone User Guide. Emergency Calls You should not rely on wireless devices for essential communications, such as medical emergencies. Use of iPhone to call emergency services may not work in all locations or all operating conditions.

Emergency numbers and services vary by region, and sometimes an emergency call cannot be placed due to network availability or environmental interference. Some cellular networks may not accept an emergency call from iPhone if iPhone is not activated, if iPhone is not compatible with or configured to operate on a particular cellular network, or (when applicable) if iPhone does not have a SIM or if the SIM is PIN-locked. Driving and Riding Safely Use of iPhone while driving a vehicle or riding a bicycle may be distracting. If you find using iPhone disruptive or distracting while driving or riding, pull off the road and park before making or answering a call.

Use of iPhone alone or with headphones (even if used only in one ear) while driving or riding is not recommended and is illegal in some areas. Consider using a compatible hands-free device with iPhone. Use of a hands-free device may be required in some areas. Check and obey the laws and regulations regarding the use of mobile devices like iPhone in the areas where you drive or ride. Navigating Safely Do not rely on iPhone applications that provide maps, digital compass headings, orientation information, traffic information, directions, or location-based navigation to determine precise locations, proximity, orientation, distance, traffic conditions or direction. These applications should only be used for basic navigation assistance. Maps, directions, and location-based applications depend on data services. These data services are subject to change and may not be available in all areas, resulting in maps, digital compass headings, directions, traffic conditions or location-based information that may be unavailable, inaccurate, or incomplete. iPhone contains an internal digital compass located in the upper-right corner of iPhone. The accuracy of digital compass headings may be negatively affected by magnetic or other environmental interference, including interference caused by the close proximity of the magnets contained in the iPhone earbuds. Never rely solely on the digital compass for determining direction.

Compare the information provided on iPhone to your surroundings and defer to posted signs to resolve any discrepancies. Do not use location-based applications while performing activities that require your full attention. Always comply with posted signs and the laws and regulations in the areas where you are using iPhone. For Vehicles Equipped with an Air Bag An air bag inflates with great force. Do not store iPhone or any of its accessories in the area over the air bag or in the air bag deployment area. Seizures, Blackouts, and Eyestrain A small percentage of people may be susceptible to blackouts or seizures (even if they have never had one before) when exposed to flashing lights or light patterns such as when playing games or watching video. If you have experienced seizures or blackouts or have a family history of such occurrences, you should consult a physician before playing games (if available) or watching videos on your iPhone. Discontinue use of iPhone and consult a physician if you experience headaches, blackouts, seizures, convulsion, eye or muscle twitching, loss of awareness, involuntary movement, or disorientation. To reduce risk of headaches, blackouts, seizures, and eyestrain, avoid prolonged use, hold iPhone further away from your eyes, use iPhone in a well-lit room, and take frequent breaks. Choking Hazards iPhone and its accessories may contain small parts, which may present a choking hazard to small children.

Keep such parts away from small children. Repetitive Motion When you perform repetitive activities such as typing or playing games on iPhone, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. Take frequent breaks and if you have discomfort during or after such use, stop use and see a physician. Potentially Explosive Atmospheres Turn off iPhone when in any area with a potentially explosive atmosphere. Do not charge iPhone, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire, resulting in serious injury or even death. Areas with a potentially explosive atmosphere are often, but not always, marked clearly. Potential areas may include: fueling areas (such as gas stations); below deck on boats; fuel or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or particles (such as grain, dust, or metal powders); and any other area where you would normally be advised to turn off your vehicle engine. Using Connectors, Ports, and Buttons Never force a connector into a port or apply excessive pressure to a button, because this may cause damage that is not covered under the warranty. If the connector and port don't join with reasonable ease, they probably don't match.

Check for obstructions and make sure that the connector matches the port and that you have positioned the connector correctly in relation to the port. Accessories and Wireless Performance Not all iPod accessories are fully compatible with iPhone. Turning on Airplane Mode on iPhone may eliminate audio interference between iPhone and an accessory. While Airplane mode is on, you cannot make or receive calls or use features that require wireless communication. Under some conditions, certain accessories may affect iPhone wireless performance.

Reorienting or relocating iPhone and the connected accessory from electronic equipment can negatively affect the operation of other electronic equipment, causing them to malfunction. Although iPhone is designed, tested, and manufactured to comply with regulations governing radio frequency emission in countries such as the United States, Canada, the European Union, and Japan, the wireless transmitters and electrical 2 Your iPhone may be configured to support one or more of the listed frequency bands, depending on carrier technology and network availability. The frequency band used by iPhone varies depending on wireless service provider, wireless technology, and region. iPhone positioned 10 mm (13/32 inch) away from the body. 3 circuits in iPhone may cause interference in other electronic equipment.

Therefore, please take the following precautions: Aircraft Use of iPhone may be prohibited while traveling in aircraft. For more information about using Airplane Mode to turn off the iPhone wireless transmitters, see the iPhone User Guide. Vehicles Radio frequency emissions from iPhone may affect electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. Pacemakers The Health Industry Manufacturers Association recommends that a minimum separation of 15 cm (6 inches) be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. Persons with pacemakers: • Should always keep iPhone more than 15 cm (6 inches) from the pacemaker when the phone is turned on • Should not carry iPhone in a breast pocket • Should use the ear opposite the pacemaker to minimize the potential for interference If you have any reason to suspect that interference is taking place, turn iPhone off immediately. Hearing Aid Compatibility (HAC) iPhone has been tested and rated under the American National Standard Institute (ANSI) C63.19-2007 hearing aid compatibility standard. The ANSI standard measures radio frequency interference for acoustic coupling ("M" rating) and inductive coupling with hearing aids operating in telecoil mode ("T" rating). Phones must be rated M3 or greater and T3 or greater to be hearing aid compatible under FCC rules.

For more information, see the "Hearing Aid Compatibility" section of the iPhone User Guide. For current iPhone hearing aid compatibility ratings, go to: www.apple.com/support/hac iPhone may interfere with some hearing aids. If you experience interference, consult the hearing aid manufacturer or your physician for alternatives or remedies. Compatibility With Other Wireless Technologies This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

Other Medical Devices If you use any other personal medical device, consult the device manufacturer or your physician to determine if it is adequately shielded from radio frequency emissions from iPhone. Health Care Facilities Hospitals and health care facilities may use equipment that is particularly sensitive to external radio frequency emissions. Turn iPhone off when staff or posted signs instruct you to do so. **Blasting Areas and Posted Facilities** To avoid interfering with blasting operations, turn off iPhone when in a "blasting area" or in areas posted "Turn off two-way radio." Obey all signs and instructions. **Certification and Compliance** See iPhone for the certification and compliance marks specific to that device. 1. General. (a) The software (including Boot ROM code and other embedded software), documentation, interfaces, content, fonts and any data that came with your iOS Device ("Original iOS Software"), as may be updated or replaced by feature enhancements, software updates or system restore software provided by Apple ("iOS Software Updates"), whether in read only memory, on any other media or in any other form (the Original iOS Software and iOS Software Updates are collectively referred to as the "iOS Software") are licensed, not sold, to you by Apple Inc. ("Apple") for use only under the terms of this License. Apple and its licensors retain ownership of the iOS Software itself and reserve all rights not expressly granted to you. (b) Apple, at its discretion, may make available future iOS Software Updates for your iOS Device. The iOS Software Updates, if any, may not necessarily include all existing software features or new features that Apple releases for newer or other models of iOS Devices. The terms of this License will govern any iOS Software Updates provided by Apple that replace and/or supplement the Original iOS Software product, unless such iOS Software Update is accompanied by a separate license in which case the terms of that license will govern. 2. Permitted License Uses and Restrictions.

(a) Subject to the terms and conditions of this License, you are granted a limited non-exclusive license to use the iOS Software on a single Apple-branded iOS Device. Except as permitted in Section 2(b) below, and unless as provided in a separate agreement between you and Apple, this License does not allow the iOS Software to exist on more than one Apple-branded iOS Device at a time, and you may not distribute or make the iOS Software available over a network where it could be used by multiple devices at the same time. This License does not allow you to update or restore any iOS Device that you do not control or own, and you may not distribute or make the iOS Software Updates available over a network where they could be used by multiple devices or multiple computers at the same time.

If you download an iOS Software Update to your computer, you may make one copy of the iOS Software Updates stored on your computer in machine-readable form for backup purposes only, provided that the backup copy must include all copyright or other proprietary notices contained on the original. (c) You may not and you agree not to, or to enable others to, copy (except as expressly permitted by this License), decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the iOS Software or any services provided by the iOS Software, or any part thereof (except as and only to the extent any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by licensing terms governing use of open-sourced components included with the iOS Software). Any attempt to do so is a violation of the rights of Apple and its licensors of the iOS Software. (d) By storing content on your iOS Device you are making a digital copy. In some jurisdictions, it is unlawful to make digital copies without prior permission from the rights holder.

The iOS Software may be used to reproduce materials so long as such use is limited to reproduction of non-copyrighted materials, materials in which you own the copyright, or materials you are authorized or legally permitted to reproduce. (e) You agree to use the iOS Software and the Services (as defined in Section 5 below) in compliance with all applicable laws, including local laws of the country or region in which you reside or in which you download or use the iOS Software and Services. (f) Use of and access to certain features of the iOS Software and certain Services (as defined in Section 5) may require you to apply for a unique user name and password combination, known as an Apple ID. In addition, you acknowledge that many features and Services of the iOS Software transmit data and could impact charges to your data plan, and that you are responsible for any such charges. For more information, please consult the User Guide for your iOS Device.

3. Transfer. You may not rent, lease, lend, sell, redistribute, or sublicense the iOS Software. You may, however, make a one-time permanent transfer of all of your license rights to the iOS Software to another party in connection with the transfer of ownership of your iOS Device, provided that: (a) the transfer must include your iOS Device and all of the iOS Software, including all its component parts, original media, printed materials and this License; (b) you do not retain any copies of the iOS Software, full or partial, including copies stored on a computer or other storage device; and (c) the party receiving the iOS Software reads and agrees to accept the terms and conditions of this License. 4. Consent to Use of Data. (a) Diagnostic and Usage Data. If you opt in to diagnostic and usage collection, you agree that Apple and its subsidiaries and agents may collect, maintain, process and use diagnostic, technical, usage and related information, including but not limited to information about your iOS Device, computer, system and application software, and peripherals, that is gathered periodically to facilitate the provision of software updates, product support and other services to you (if any) related to the iOS Software, and to verify compliance with the terms of this License. Apple may use this information, as long as it is collected in a form that does not personally identify you, to provide and improve Apple's products and services. If you have opted in and have Location Services turned on, the location of your device may also be sent to help Apple analyze wireless or cellular performance issues (e.

g. the strength or weakness of a cellular signal in a particular location). To enable Apple's partners and third party developers to improve their software, hardware and services designed for use with Apple products, Apple may also provide any such partner or third party developer with a subset of diagnostic information that is relevant to that partner's or developer's software, hardware and/or services, as long as the diagnostic information is in a form that does not personally identify you. (b) Location Data. Apple and its partners and licensees may provide certain services through your iOS Device that rely upon location information. To provide and improve these services, where available, Apple and its partners and licensees may transmit, collect, maintain, process and use your location data, including the real-time geographic location of your iOS Device, road travel speed information, and location search queries. The location data and queries collected by Apple are collected in a form that does not personally identify you and may be used by Apple and its partners and licensees to provide location-based products and services. By using any location-based services on your iOS Device, you agree and consent to Apple's and its partners' and licensees' transmission, collection, maintenance, processing and use of your location data and queries to provide and improve location-based and road traffic-based products and services. You may withdraw this consent at any time by going to the Location Services setting on your iOS Device and either turning off the global Location Services setting or turning off the individual location settings of each location-aware item on your iOS Device.

Disabling these location features will only impact the location-based functionality of your iOS Device.

It will not affect iOS Device features unrelated to location services. When using third party applications or services on the iOS Device that use or provide location data, you are subject to and should review such third party's terms and privacy policy on use of location data by such third party applications or services. (c) Siri. If your iOS Device supports Siri, which includes the dictation feature, these features allow you to make requests, give commands and dictate text to your device using your voice. When you use Siri, the things you say will be recorded and sent to Apple to process your requests.

Your device will also send Apple other information, such as your first name and nickname; the names, nicknames, and relationship with you (e.g., "my dad") of your address book contacts; and song names in your collection (collectively, your "User Data"). All of this data is used to help Siri understand you better and recognize what you say. It is not linked to other data that Apple may have from your use of other Apple services.

By using Siri, you agree and consent to Apple's and its subsidiaries' and agents' transmission, collection, maintenance, processing, and use of this information, including your voice input and User Data, to provide and improve Siri and other Apple products and services.
