Manual abstract:

Read these instructions to set up your mouse with a new Mac, replace your USB mouse, pair your mouse with a different Mac, and replace the batteries. To use your Apple Magic Mouse and its full range of features, update your Mac to Mac OS X version 10. To update to the latest version of Mac OS X, choose Apple (K) > Software Update from the menu bar, and follow the onscreen instructions. When installation is complete and you restart your Mac, use Software Update again to make sure all of the available updates are installed. **@@@** If your mouse isn't paired with a Mac, the light blinks, indicating your mouse is in discovery mode and ready to pair (pairing means your mouse and Mac are wirelessly connected to each other and ready to communicate). **^^** If you don't pair your mouse with your Mac within 3 minutes, the light and mouse turn off to preserve battery life. Slide the On/off switch on the bottom of your mouse to turn it on again, allowing you to pair it with your Mac. **@@@** skip the instructions for connecting a USB mouse. **@@** To pair your mouse with a new Mac: 1 Slide the On/off switch on the bottom of your mouse to turn it on (see page 4). 2 Turn on your Mac and follow the onscreen instructions in Setup Assistant.

3 Once your mouse is paired with your Mac, use Software Update again to make sure you have the latest software installed (see page 3). **@@@@@@@** To pair with a different Mac: 1 Choose Apple (K) > System Preferences, and then click Bluetooth. To pair your mouse again, see "Replacing a USB Mouse" on page 5. Your Apple Magic Mouse has a seamless MultiTouch surface you can use to right-click, leftclick, scroll, and swipe. To set up Multi-Touch gestures and customize the way your mouse works, choose Apple (K) > System Preferences, and then click Mouse.

Your Apple Magic Mouse comes with two AA batteries installed. You can use alkaline, lithium, or rechargeable AA batteries in your mouse. Dispose of batteries according to your local environmental laws and guidelines. You may have to click your Apple Magic Mouse once to reconnect it with your Mac.

WARNING: Replace both batteries at the same time.

@@@@@ Keep batteries out of the reach of children. **@@** the battery level indicator is in the lower-left corner. **@@@@@@@** This device complies with part 15 of the FCC rules. **@@@@@@@** These specifications are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. You can determine whether your computer system is causing interference by turning it off. **@@@@@** Move the computer farther away from the television or radio. **@@@@@** See the service and support information that came with your Apple product. Important: Changes or modifications to this product not Could void the EMC compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components.

It is important that you use compliant peripheral devices and shielded cables (including Ethernet network cables) between system components to reduce the possibility of causing interference to radios, television sets, and other electronic devices. Turn the television or radio antenna until the interference stops.

Responsible party (contact for FCC matters only): Apple Inc. This device complies with RSS 210 of Industry Canada.

@@@@@@@ Com/environment/recycling Battery Disposal Information Dispose of batteries according to your local environmental laws and guidelines. The symbol above means that according to local laws and regulations your product should be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. Some collection points accept products for free. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. .
