**Manual abstract:**

@@@ @SPECIFICATIONS AND INFORMATION CONTAINED IN THIS MANUAL ARE FURNISHED FOR INFORMATIONAL USE ONLY, AND ARE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE, AND SHOULD NOT BE CONSTRUED AS A COMMITMENT BY ASUS. ASUS ASSUMES NO RESPONSIBILITY OR LIABILITY FOR ANY ERRORS OR INACCURACIES THAT MAY APPEAR IN THIS MANUAL, INCLUDING THE PRODUCTS AND SOFTWARE DESCRIBED IN IT. Copyright © 2014 ASUSTeK COMPUTER INC. All Rights Reserved. LIMITATION OF LIABILITY Circumstances may arise where because of a default on ASUS' part or other liability, you are entitled to recover damages from ASUS. In each such instance, regardless of the basis on which you are entitled to claim damages from ASUS, ASUS is liable for no more than damages for bodily injury (including death) and damage to real property and tangible personal property; or any other actual and direct damages resulted from omission or failure of performing legal duties under this Warranty Statement, up to the listed contract price of each product. ASUS will only be responsible for or indemnify you for loss, damages or claims based in contract, tort or infringement under this Warranty Statement. This limit also applies to ASUS' suppliers and its reseller. It is the maximum for which ASUS, its suppliers, and your reseller are collectively responsible. UNDER NO CIRCUMSTANCES IS ASUS LIABLE FOR ANY OF THE FOLLOWING: (1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES; (2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR (3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS OR SAVINGS), EVEN IF ASUS, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY.

.51 K01G 5 About this manual This manual provides information about the hardware and software features of your ASUS Tablet, organized through the following chapters: Chapter 1: Hardware Setup This chapter details the hardware components of your ASUS Tablet. Chapter 2: Using your ASUS Tablet This chapter shows you how to use the different parts of your ASUS Tablet. Chapter 3: Working with Windows® 8.1 This chapter provides an overview of using Windows® 8.1 in your ASUS Tablet. Chapter 4: Recovering Windows® 8.1 This chapter shows you how to recover the Windows 8.1 system in your ASUS Tablet. Tips This section presents some recommended tips you can refer to for maintaining and fixing common issues with your ASUS Tablet.

Appendices This section includes notices and safety statements for your ASUS Tablet. Conventions used in this manual To highlight key information in this manual, some texts are presented as follows: **IMPORTANT!** This message contains vital information that must be followed to complete a task. **NOTE:** This message contains additional information and tips that can help complete tasks. **WARNING!** This message contains important information that must be followed to keep you safe while performing tasks and prevent damage to your ASUS Tablet's data and components. 6 ASUS Tablet E-Manual Typography **Bold Italic** = = This indicates a menu or an item that must be selected.

This indicates sections that you can refer to in this manual. Safety Precautions Charging your batteries Ensure to fully charge your battery pack before using your ASUS Tablet in battery mode for extended periods. Remember that the power adapter charges the battery pack as long as it is plugged into an AC power source. Be aware that it takes much longer to charge the battery pack when the ASUS Tablet is in use. **IMPORTANT!** Do not leave the ASUS Tablet connected to the power supply once it is fully charged.

ASUS Tablet is not designed to be left connected to the power supply for extended periods of time. Using your ASUS Tablet This ASUS Tablet should only be used in environments with ambient temperatures between 0°C (32°F) and 35°C (95°F). Long time exposure to extremely high or low temperature may quickly deplete and shorten the battery life. To ensure the battery's optimal performance, ensure that it is exposed within the recommended environment temperature. Airplane Precautions Contact your airline provider to learn about related inflight services that can be used and restrictions that must be followed when using your ASUS Tablet in-flight. **IMPORTANT!** You can send your ASUS Tablet through x-ray machines (used on items placed on conveyor belts), but do not expose them from magnetic detectors and wands. K01G 7 Package contents Power adapter Micro USB cable ASU S Ta blet ASUS Tablet Technical documentations and warranty card NOTES: • If any of the items is damaged or missing, contact your retailer. • attery and other small components away from children. 16 ASUS Tablet E-Manual Turning on your ASUS Tablet Press the power button. Swipe down from the Apps screen to return to the Start screen. K01G 21 22 ASUS Tablet E-Manual Chapter 3: Working with Windows® 8.1 Chapter 3: Working with Windows® 8.1 Starting for the first time When you start your computer for the first time, a series of screens appear to guide you in configuring the basic settings of your Windows® 8.1 operating system. To start your ASUS Tablet for the first time: 1. Press the power button on your ASUS Tablet. Wait for a few minutes until the setup screen appears. 2. From the setup screen, pick a language to use on your ASUS Tablet. As other settings appear, select your country or region, app language, keyboard layout, and time zone then tap Next. 3. Carefully read the License Terms, then tap I Accept. 4. Follow the onscreen instructions to configure the following basic items: • Personalize • • • Connect Settings Your account 5. After configuring the basic items, the Windows® 8.1 tutorial appears. Watch this to learn more about Windows® 8.1 functionalities. Windows® 8.1 lock screen The Windows® 8.1 lock screen may appear when your ASUS Tablet enters the Windows® 8.1 operating system. To proceed, swipe up the lock screen on your ASUS Tablet to go to the Start screen. 24 ASUS Tablet E-Manual Windows® UI Windows® 8.1 comes with a tile-based user interface (UI) which allows you to organize and easily access Windows® apps from the Start screen. It also includes the following features that you can use while working on your ASUS Tablet. Start screen The Start screen appears after successfully signing in to your user account. It helps organize all the applications you need in just one place. K01G 25 Windows® Apps These are apps pinned on the Start screen and displayed on tiled-format for easy access. NOTE: Some apps require signing in to your Microsoft account before they are fully launched. Windows apps 26 ASUS Tablet E-Manual Start button Windows 8.1 features the Start button that allows you to switch between the two most recent apps that you opened. To use the Start button, tap Desktop app then tap . K01G 27 Context menu The context menu appears as a box filled with quick-access to some of the programs inside Windows® 8.1 when you tap and hold the Start button. The context menu also includes the following shutdown options for your ASUS Tablet: Sign out, Sleep, Shut down, and Restart. 28 ASUS Tablet E-Manual Customizing your Start screen Windows® 8.1 also enables you to customize your Start screen, allowing you to boot directly to the Desktop mode and customize the arrangement of your apps onscreen. To customize the settings of your Start screen: 1. Launch the Desktop. 2. Tap and hold anywhere on the taskbar except on the Start button, then tap Properties to launch the Taskbar and Navigation properties window. 3. Select the Navigation tab then tick the options you want to use. 4. Tap Apply to save the new settings then tap OK. K01G 29 Working with Windows® apps Use your ASUS Tablet's touch screen panel to launch, customize, and close apps. Launching apps Tap an app to launch it. Customizing apps You can move, resize, unpin, or close apps from the Start screen using the following steps: Moving apps Tap and hold the app tile then drag it to a new location. Resizing apps To resize an app: 1. Tap and hold the app tile for one (1) second, then release it to launch the Customize bar. and select an app tile size. 2. Tap Unpinning apps To unpin an app: 1. Tap and hold the app tile for one (1) second, then release it to launch the Customize bar. 2. Tap 30 ASUS Tablet E-Manual Closing apps Tap and hold the top side of the running app then drag it down to the bottom of the screen to close it. Accessing the Apps screen Aside from the apps already pinned on your Start screen, you can also open other applications through the Apps screen. K01G 31 Launching the Apps screen Swipe the Start screen up to launch the Apps screen. Pinning more apps on the Start screen To pin an app on the Start screen: 1. Tap and hold the app tile for one (1) second, then release it to launch the Customize bar. 2. Tap to pin the selected app on the Start screen. Charms bar The Charms bar is a toolbar that can be triggered on the right side of your screen. It consists of several charms that allow you to share applications and provide quick access for customizing the settings of your ASUS Tablet. Charms bar 32 ASUS Tablet E-Manual Launching the Charms bar Swipe from the right edge of your ASUS Tablet's touch screen panel to launch the Charms bar. Inside the Charms bar Search This charm allows you to look for files, applications, or programs in your ASUS Tablet. Share This charm allows you to share applications via social networking sites or e-mail. Start This charm reverts the display back to the Start screen. From the Start screen, you can also use this to revert back to a recently opened app. Devices This charm allows you to access and share files with the devices attached to your ASUS Tablet such as an external display or printer. Settings This charm allows you to access the PC settings of your ASUS Tablet. K01G 33 Snap feature The Snap feature displays two apps side-by-side, allowing you to work or switch between apps. IMPORTANT! • You can only activate the snap feature in landscape orientation. • Ensure that your ASUS Tablet's screen resolution is set to 1280 x 800 pixels or higher before using the Snap feature. Snap bar Using Snap To activate Snap using the touch screen panel of your ASUS Tablet, you can perform the following steps: 1. Launch the app that you wish to snap. 2. Tap and hold the app's topmost part then drag it to the left or right side of the screen until the snap bar appears. 3. Launch another app. 34 ASUS Tablet E-Manual Connecting to wireless networks Wi-Fi Access e-mails, surf the Internet, and share applications via social networking sites using your ASUS Tablet's Wi-Fi connection. Under Recovery, tap your files. under Refresh your PC without affecting IMPORTANT! @@@@3. Under Recovery, tap Windows. IMPORTANT! @@@@ @@@@ @@@@ @@@@ @@@@ • Always backup your data and make it a point to create a backup data in an external storage drive. • Refrain from using the ASUS Tablet at extremely high temperatures. If you are not going to use your ASUS Tablet for a long period of time (at least a month), we recommend that you take out the battery if the battery is removable. • Disconnect all external devices and ensure you have the following items prior to resetting your ASUS Tablet: - Product key for your operating systems and other installed applications - - Backup data Log in ID and password Internet connection information 42 ASUS Tablet E-Manual Appendices Appendices Federal Communications Commission Statement This device complies with FCC Rules Part 15. Operation is subject to the following two conditions: • This device may not cause harmful interference. • This device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by doing one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Operation on the 5.15-5.25 GHz frequency band is restricted for indoor use only. The FCC requires indoor use for the 5.15-5.25 GHz band to reduce the potential for harmful interference to co-channel Mobile Satellite Systems. It will only transmit on 5.25-5.35 GHz, 5.47-5.725 GHz and 5.725-5.850 GHz bands when associated with an access point (AP). 44 ASUS Tablet E-Manual RF Exposure Information (SAR) This device meets the government's requirements for exposure to radio waves.

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The exposure standard employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the EUT transmitting at the specified power level in different channels. The highest SAR value for the device as reported to the FCC is 1.22 W/kg when placed next to the body. The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

SAR information on this device is on file with the FCC and can be found under the Display Grant section of [www.fcc.gov/oet/ea/fccid](http://www.fcc.gov/oet/ea/fccid) after searching on FCC ID: MSQK01G. Canada, Industry Canada (IC) Notices This Class B digital apparatus complies with Canadian ICES-003, RSS-210, and CAN ICES-3(B)/NMB-3(B). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. The IC ID for this device is 3568A-K01G. Radio Frequency (RF) Exposure Information The radiated output power of the Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized. This device has been evaluated for and shown compliant with the IC Specific Absorption Rate ("SAR") limits when installed in specific host products operated in portable exposure conditions.

Canada's REL (Radio Equipment List) can be found at the following web address: [http://www.](http://www.ic.gc.ca/app/sitt/reletel/srch/nwRdSrCh.do?lang=eng)

[ic.gc.ca/app/sitt/reletel/srch/nwRdSrCh.do?lang=eng](http://www.ic.gc.ca/app/sitt/reletel/srch/nwRdSrCh.do?lang=eng) Additional Canadian information on RF exposure also can be found at the following web address: [http://www.ic.](http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html)

[ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html](http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html) K01G 45 Canada, avis d'Industrie Canada (IC) Cet appareil numérique de classe B est conforme aux normes canadiennes ICES003, RSS-210 et CAN ICES-3(B)/NMB-3(B). Son fonctionnement est soumis aux deux conditions suivantes: (1) cet appareil ne doit pas causer d'interférence et (2) cet appareil doit accepter toute interférence, notamment les interférences qui peuvent affecter son fonctionnement.

L'identifiant IC de cet appareil est 3568A-K01G. Informations concernant l'exposition aux fréquences radio (RF) La puissance de sortie émise par cet appareil sans fil est inférieure à la limite d'exposition aux fréquences radio d'Industrie Canada (IC). Utilisez l'appareil sans fil de façon à minimiser les contacts humains lors du fonctionnement normal. Ce périphérique a été évalué et démontré conforme aux limites SAR (Specific Absorption Rate – Taux d'absorption spécifique) d'IC lorsqu'il est installé dans des produits hôtes particuliers qui fonctionnent dans des conditions d'exposition à des appareils portables. Ce périphérique est homologué pour l'utilisation au Canada. Pour consulter l'entrée correspondant à l'appareil dans la liste d'équipement radio (REL - Radio Equipment List) d'Industrie Canada rendez-vous sur: [http://www.ic.gc.ca/app/ sitt/reletel/srch/nwRdSrCh.do?lang=eng](http://www.ic.gc.ca/app/sitt/reletel/srch/nwRdSrCh.do?lang=eng) Pour des informations supplémentaires concernant l'exposition aux RF au Canada rendez-vous sur: [http://www.](http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html)

[ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html](http://www.ic.gc.ca/eic/site/smt-gst.nsf/eng/sf08792.html) IC Warning Statement The device could automatically discontinue transmission in case of absence of information to transmit, or operational failure. Note that this is not intended to prohibit transmission of control or signaling information or the use of repetitive codes where required by the technology.

The Country Code Selection feature is disabled for products marketed in the US/ Canada. For product available in the USA/Canada markets, only channel 1-11 can be operated. Selection of other channels is not possible. The device for the band 5150-5250 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems; the maximum antenna gain permitted (for device in the bands 5250-5350 MHz and 5470-5725 MHz) to comply with the EIRP limit; and the maximum antenna gain permitted (for devices in the band 5275-5850 MHz) to comply with the EIRP limits specified for point-to-point and non point-to-point operation as appropriate, as stated in section A9.

2(3). In addition, high-power radars are allocated as primary users (meaning they have priority) of the band 5250-5350 MHz and this radar could cause interference and/or damage to LE-LAN devices. 46 ASUS Tablet E-Manual EC Declaration of Conformity This product is compliant with the regulations of the R&TTE Directive 1999/5/EC. The Declaration of Conformity can be downloaded from <http://support.asus.com>.

com. Prevention of Hearing Loss To prevent possible hearing damage, do not listen at high volume levels for long periods. À pleine puissance, l'écoute prolongée du baladeur peut endommager l'oreille de l'utilisateur. For France, headphones/earphones for this device are compliant with the sound pressure level requirement laid down in the applicable EN50332-1:2000 and/or EN50332-2:2003 standard required by French Article L.5232-1.

K01G 47 CE Mark Warning CE marking for devices with wireless LAN/ Bluetooth This equipment complies with the requirements of Directive 1999/5/EC of the European Parliament and Commission from 9 March, 1999 governing Radio and Telecommunications Equipment and mutual recognition of conformity. The highest CE SAR value for the device is 0.754 W/Kg. This equipment may be operated in: AT EE IT NO BE ES IS PL BG FI LI PT CH FR LT RO CY GB LU SE CZ GR LV SI DE HU MT SK DK IE NL TR DFS controls related to radar detection shall not be accessible to the user. 48 ASUS Tablet E-Manual RF

Exposure information (SAR) - CE This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection. @@@@ For next-to-body operation, this device has been tested and meets the ICNRP exposure guidelines and the European Standard EN 62311 and EN 62209-2. SAR is measured with the device directly contacted to the body while transmitting at the highest certified output power level in all frequency bands of the mobile device. Power Safety Requirement Products with electrical current ratings up to 6A and weighing more than 3Kg must use approved power cords greater than or equal to: H05VV-F, 3G, 0.75mm<sup>2</sup> or H05VV-F, 2G, 0.75mm<sup>2</sup>.

ASUS Recycling/Takeback Services ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for detailed recycling information in different regions. Coating notice IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located. K01G 49 Regional notice for Singapore This ASUS product complies with IDA Standards. ASUS Recycling/Takeback Services ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment.
