Introduction Dear Customer, Congratulations on your purchase of the worlds finest brand of car audio products. Here at Audiobahn Inc. we are devoted to making our musical reproduction the vert best, and we are pleased you have chosen our product. Through years of engineering expertise, hand craftsmanship, and critical testing procedures, we have created a wide range of products that reproduce music with all the clarity and richness you deserve. For maximum performance we recommend you have your Audiobahn product installed by an Authorized Audiobahn Dealer, as we provide specialized training through our Audiobahn Installer Training Programs. Please read your warranty, keep your receipt, and original carton for possible future use.*

@@@@Need we say more! @@@A list of Authorized Audiobahn Dealers can be found on our web page. @@@@The model number can be located on the outside of the carton. @@@@If wiring in stereo mode, you will have a 4 ohm stereo load. @@@@When mounting in a trunk or back of any vehicle, you will tend to get much better performance and better low end frequency response when you face the box towards the back of the vehicle. MOUNTING Mounting or securing the box is a good idea. This will prevent the box from sliding around. If it does move around, it can hit obstacles, and wires can come loose and damage the system. It is also good to have it secured in case of an accident so it is not thrown into any passengers. You can mount the box by attaching brackets and fastening it with screws or bolts straight to the frame or other solid piece in the car. You can also use velcro strips.

Attach the sticky side of the velcro to bottom of the box, and the carpet in the vehicle should hold it in place. Warranty Continued How to receive warranty service: Contact your local Authorized Audiobahn Dealer, or call Audiobahn at (800) 488-8595 between the hours of 9:00 AM and 5:00 PM PST. If you are having problems with your system, we recommend you check the product carefully and thoroughly to confirm that the product truly has a manufacturer defect; as opposed to abuse, or other components in the system causing the failure. This might include having an Authorized Audiobahn Dealer look at the product to confirm the source of the problem. Any product found to have a manufacturer defect will be replaced with a new piece of the same or similar model, or repaired at the discretion of Audiobahn. @@@@Please note: All shipping and handling (to and from) charges will be the sole responsibility of the consumer.
