Manual abstract:

We make you look as good as you sound. We strive to take car audio to an extreme the world has never seen, and a world that never stops evolving. Audiobahn was established in 1997 with one long-term goal in mind, "Build it Bigger, Badder, & Better, and the people will take notice!" We back this statement with an engineering team that has brought home several Innovations, Design & Engineering Showcase Awards, and a marketing team from around the world that spends countless hours developing our no compromise products to satisfy the most discriminating enthusiasts. Our global manufacturing facilities feature ISO9002 ratings (the highest level of quality control awarded in the electronics manufacturing industry), fully robotic assembly lines and a state of the art, California based R & D laboratory. Due to overwhelming response from our competitors, and our goal to participate in even more events this year, we created *"TEAM AUDIOBAHN." This organization is designed to create a support network along with shirts and perks for team members. "TEAM AUDIOBAHN" is not only for the diehard competitor, but also for anyone that loves car audio as much as we do. With four levels of play, one is right for you to get started in the Audiobahn family. Our Technical Department and entire staff look to strive above and beyond the rest of the pack by going that extra mile to help you out. Whether you happen to be a veteran competitor, or a beginner car audio enthusiast who does not know a voice coil from a spider. We are all her to help you get the best system you can with what you have. @@We make you look as good as you sound. @@Here at Audiobahn Inc. @@@@For maximum performance we recommend you have your Audiobahn product installed by an Authorized Audiobahn Dealer, as we provide specialized training through our Audiobahn Installer Training Programs. Please read your warranty, keep your receipt, and original carton for possible future use.

To get a free brochure on Audiobahn products in the US call (714) 988-0400 or e-mail us at sales@audiobahn.com. WARNING Continuous exposure to sound pressure levels over 100dB may cause permanent hearing loss. High powered autosound systems may produce sound pressure levels well over 135dB. Need we say more! Use common sense.

If after reading this manual you still have questions regarding your product, we recommend that you see your nearest Audiobahn Dealer. A list of Authorized Audiobahn Dealers can be found on our web page. If you need further assistance, feel free to call us at (800) 488-8595 and ask for the Technical Department.

Be sure to have the model number, date of purchase, and invoice number available when you call. The model number can be located on the outside of the carton. Record this in the space provided below along with the date of purchase. It is a good idea to keep your receipt with this as you will need it in the case of needing a warranty, repair service or exchange. Model Number: _____ Date of Purchase: _____ 3 Audiobahn's classic six-leg cast basket model has evolved into a fresh and innovative design for today's cutting-edge installation projects. Wholly manufactured with heavyweight high-pressure cast aluminum, three durable stabilizers provide added durability employing bolt-tight construction linking them to the six legs and the specially slotted T-YOKE allows for more efficient heat dissipation. But what's most eye-catching about the six-leg family of subwoofers is its exclusive Crown, which hovers over the woofer's cone, providing protection in cramped installation environments and allowing ample space for cone excursion.

This new feature adds an edgy appeal that fits the image Audiobahn has maintained since its inception in 1997. @@@@This greatly improves the clarity of the speakers frequency response. @@Vas is just a parameter used when calculating a box. @@Ft. @@@Do not use the power amplifier unmounted. Attach the system securely to the automobile to prevent damage, particularly in the event of an accident. Do not mount the system so that the wire connections are unprotected or are subject to pinching or damage from nearby objects. The +12V DC power wire must be fused at the battery positive terminal connection. Before making or breaking power connections at the system power terminals, disconnect the +12V wire at the battery end. Confirm your radio/head unit and/or other equipment is turned off while connecting the input jacks and speaker terminals. If you need to replace the power fuse, replace it only with a fuse identical to that supplied with the system. Using a fuse of a different type or rating may result in damage to this system which is not covered by the warranty. Disclaimer Specifications are subject to change with out notice. For the most updated Specifications call Audiobahn, your local Authorized Audiobahn Dealer, or check the Audiobahn web site.

www.audiobahn.com 11 Warranty Audiobahn Consumer Product Warranty Policy Audiobahn products are manufactured with the highest quality components and some of the most advanced technology available.
