System requirements > > > at least 750 KB of application memory BlackBerry® Device Software version 4.5 or later a wireless service plan that supports instant messaging Fixed issues This section lists fixed issues for the AIM® service for BlackBerry® devices 2.

5. Conversations After reading a new message from a Buddy, the new item indicator might have remained on your BlackBerry device and the LED indicator might have continued to blink. If you have a device with BlackBerry® Device Software 5.0 or later, you might not have been able to see messages that you typed in the conversation field. General After inviting a Buddy, you might have seen a duplicate Buddy in the Buddy List.

If you took a picture in the Camera application, you might not have been able to send the picture to a Buddy by using the menu on the preview screen. If you highlighted a Buddy, "No Name" appeared in menu items such as Email <Buddy's name> instead of the Buddy's name. If you opened the menu on the Buddy List® screen, the My Info option appeared twice. If you linked a Buddy with the Contacts application, there was no menu option to remove the link. Known issues This section lists known issues for the AIM® service for BlackBerry® devices 2.5. Conversations If you receive a message from a person who is not on your Buddy List®, if you respond to the message, a new conversation is started. If you have a BlackBerry device with BlackBerry® Device Software 4.7.1 or earlier, you might not be able to see messages that you type in the conversation field.
