*In the Set Transition Time field, type the number of seconds that you want to have between the transitions in your presentation. To stop looping the presentation, on your device, press the Menu key. Click Stop Loop. End a presentation 1. During a presentation, on your BlackBerry® device, press the Menu key. 2. Click End Show. 9 User Guide Presentation options for PDF files Presentation options for PDF files Prerequisites: Presenting a file from your BlackBerry device · · The BlackBerry® Presenter software must be installed on your BlackBerry device. The BlackBerry Presenter must be plugged into a power outlet and be connected to an external display. The external display must be turned on. The BlackBerry Presenter is ready to present a file when the LED is flashing red and blue and a splash screen appears on the external display. Present a file from your BlackBerry device memory or a media card You can present a file that is saved in your BlackBerry® device memory or on a media card that is inserted in your BlackBerry device. 1. On your BlackBerry device, on the Home screen, click the BlackBerry Presenter icon. 2. Click a file. 3. After the file opens, press the Menu key. 4. Click Present. 5. In the list, click the BlackBerry® Presenter with the passkey that matches the passkey for your BlackBerry Presenter. You can find the 4digit passkey for your BlackBerry Presenter on the splash screen of the external display or on the bottom of your BlackBerry Presenter.*

[You're reading an excerpt. Click here to read official BLACKBERRY BLACKBERRY PRESENTER user guide](http://yourpdfguides.com/dref/2458329)  
<http://yourpdfguides.com/dref/2458329>

6. In the Enter Numeric Passkey field, type the passkey for your BlackBerry Presenter. 7. Press the Enter key. The LED light on your BlackBerry device turns solid blue. To navigate to another slide, press the Menu key. Click Next Slide or Next Page or Prev Slide or Prev Page.

Freeze a presentation while you navigate to a different slide or page You can navigate to a slide or page that you want to display on your BlackBerry® device without your actions appearing on the external display. 1. During a presentation, on your device, press the Menu key. 2. Click Freeze. 3. Highlight the slide or page that you want to present. 4. Press the Menu key. 5.

Click Unfreeze. 10 User Guide Presentation options for PDF files Hide your presentation on the external display If you are presenting a file from your BlackBerry® device memory or a media card, you can hide your presentation so that the external display is blank, but the presentation still appears on your BlackBerry device. 1. During a presentation, on your BlackBerry device, press the Menu key. 2.

Click Blank Screen. To show the presentation on the external display, on your BlackBerry device, press the Menu key. Click Show Screen. Navigate to a specific slide or page If you know the slide or page number that you want to navigate to, you can navigate quickly to it without interrupting the presentation. 1.

During a presentation, on your BlackBerry® device, press the Menu key. 2. Click Go to Slide or Go to Page. 3. Type the slide number or page number. 4. Press the Enter key. Loop a presentation You can set a presentation to loop continuously. 1. During a presentation, on your BlackBerry® device, press the Menu key.

2. Click Loop. 3. In the Set Transition Time field, type the number of seconds that you want to have between the transitions in your presentation. To stop looping the presentation, on your device, press the Menu key. Click Stop Loop. End a presentation 1. During a presentation, on your BlackBerry® device, press the Menu key. 2. Click End Show.

11 User Guide BlackBerry Presenter options BlackBerry Presenter options Change the display name of your BlackBerry Presenter To perform this task, you must download the BlackBerry® Presenter Manager that is available at [www.blackberry.com/presenter](http://www.blackberry.com/presenter). You can change the BlackBerry® Presenter name that appears on your BlackBerry device and on the splash screen of the external display. 1.

Connect one end of the USB cable to your BlackBerry Presenter. 2. Connect the other end of the USB cable to your computer. 3. On your computer, open the BlackBerry Presenter Manager.

4. Click Change the device name. 5. Type a new name for your BlackBerry Presenter. 6. Click OK. Change the default screen resolution for presentations If you are using a VGA cable to connect your BlackBerry® Presenter to an external display, and if you are presenting a file from your BlackBerry device memory or a media card, you can change the default screen resolution. 1. On your BlackBerry device, on the Home screen, click the BlackBerry Presenter icon. 2.

Press the Menu key. 3. Change the Presenter Resolution field. 4. Press the Menu key. 5. Click Save. Delete presentations from the BlackBerry Presenter To perform this task, your BlackBerry® Presenter must be plugged in, and you cannot be presenting a file using the BlackBerry Presenter. The BlackBerry Presenter saves presentation files after a presentation. You can delete these files so that no one else can access your presentations.

1. On your BlackBerry device, on the Home screen, click the BlackBerry Presenter icon. 2. Press the Menu key. 3.

Click Options. 4. Click Wipe Presenter Memory. 5. In the list, click the BlackBerry Presenter that has the passkey that matches the passkey for your BlackBerry Presenter.

12 User Guide Check for the latest version of the BlackBerry Presenter firmware Check for the latest version of the BlackBerry Presenter firmware To perform this task, you must download the BlackBerry® Presenter Manager that is available at [www.blackberry.com/presenter](http://www.blackberry.com/presenter). 1. 2. 3. 4. Connect one end of the USB cable to your BlackBerry® Presenter. Connect the other end of the USB cable to your computer. On your computer, open the BlackBerry Presenter Manager.

Click Check for Updates. If there are updates, the BlackBerry Presenter Manager downloads the updates to your BlackBerry Presenter. 13 User Guide Troubleshooting Troubleshooting The LED on the BlackBerry Presenter is flashing purple Try performing the following actions: . . . . Unplug the BlackBerry® Presenter and then plug it in again. Verify that the VGA cable or S-video cable is connected to your BlackBerry Presenter correctly. Verify that only one video output cable is connected to your BlackBerry Presenter. @@@@ Use only Research In Motion approved power accessories. @@ Do not disassemble your BlackBerry Presenter. @@@@ Turn off your BlackBerry Presenter in aircrafts. @@@@ Retain these instructions for future use. @@ You are responsible for knowing and complying with the local laws and regulations in the country that you use the BlackBerry Presenter.

Electrical safety Use the power accessories provided with the BlackBerry® Presenter or any other RIM approved charging accessories only from the type of power source indicated on the marking label. Before using any power supply, verify that the mains/outlet voltage matches the input voltage rating printed on the power supply. Do not overload power outlets or extension cords as this might result in a risk of fire or electric shock. To reduce the risk of damage to the cord or the plug, pull the plug rather than the cord when you disconnect the charging accessory from the power outlet or extension cord. Protect the power cord from being walked on or pinched, particularly at power outlets and extension cords, and the point where the power cord connects to the accessory. Unplug charging accessories during lightning storms or when unused for long periods of time. Do not use the BlackBerry Presenter outside or in any area exposed to the elements. See the documentation that came with the BlackBerry Presenter for more information about connecting the power supply. Device disposal The BlackBerry® Presenter should not be placed in household waste bins. Please check local regulations for information about the disposal of electronic products in your area.

Safe use guidelines . . . Do not place heavy objects on the BlackBerry® Presenter. Do not attempt to modify or service the BlackBerry Presenter. Do not attempt to cover or push objects into openings on the BlackBerry Presenter unless instructed to do so in the device documentation supplied by Research In Motion. 17 User Guide Safety and product information Driving safety Do not use the BlackBerry® Presenter while driving. Using the BlackBerry Presenter while driving could put you and others at greater risk of an accident causing serious injury, death, or property loss.

<http://yourpdfguides.com/dref/2458329>

*Accessories Use only those accessories approved by Research In Motion (RIM). Using any accessories not approved by RIM for use with this particular BlackBerry® Presenter model might invalidate any approval or warranty applicable to the BlackBerry Presenter, might result in the non-operation of the BlackBerry Presenter, and might be dangerous. Antenna Use only the supplied integrated antenna. Unauthorized antenna modifications or attachments could damage the BlackBerry® Presenter and might violate U.S.*

*Federal Communications Commission (FCC) regulations. Operating and storage temperatures Situate the BlackBerry® Presenter or BlackBerry Presenter accessories away from heat sources, such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat. If you are not going to use the BlackBerry Presenter for more than 2 weeks, turn off the BlackBerry Presenter power, and follow the operating and storage temperatures listed in the following table: BlackBerry Presenter operating BlackBerry Presenter storage 50 to 113°F (10 to 45°C) -22 to 167°F (-30 to 75°C) Interference with electronic equipment Most modern electronic equipment is shielded from radio frequency (RF) signals. However, certain electronic equipment might not be shielded against the RF signals from the BlackBerry® Presenter. Pacemakers: Consult a physician or the manufacturer of your pacemaker if you have any questions regarding the effect of RF signals on your pacemaker. If you have a pacemaker, verify that you are using the BlackBerry Presenter in accordance with the safety requirements associated with your particular pacemaker, which might include the following requirements: 18 User Guide Safety and product information · · Always keep the BlackBerry Presenter more than 7.88 inches (20 cm) from the pacemaker when the BlackBerry Presenter is turned on. If you have any reason to suspect that interference is taking place, turn off the BlackBerry Presenter immediately. Hearing aids: Some digital wireless devices may interfere with some hearing aids. In the event of such interference, consult your wireless service provider or contact the manufacturer of your hearing aid to discuss alternatives.*

*Other medical devices: If you use any other personal medical device, consult the manufacturer of your device to determine if the device is adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information. Health care facilities: Turn off Bluetooth® technology on the BlackBerry Presenter in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy. Aircraft: Federal Aviation Administration (FAA) and Federal Communications Commission (FCC) regulations prohibit using the radio of wireless devices while in the air.*

*Turn off the BlackBerry Presenter before boarding an aircraft. The effect of using Bluetooth technology on the BlackBerry Presenter in an aircraft is unknown. Such use might affect aircraft instrumentation, communication, and performance, might disrupt the network, might otherwise be dangerous to the operation of the aircraft, and might be illegal. Dangerous areas The BlackBerry® Presenter is not an intrinsically safe device and is not suitable for use in hazardous environments, where such devices are required, including without limitation, in presence of gas fumes, explosive dust situations, operation of nuclear facilities, aircraft navigation or communication services, air traffic control, and life support or weapons systems. Potentially explosive atmospheres:*

*Turn off the BlackBerry Presenter when in any area with a potentially explosive atmosphere, and obey all signs and instructions.*

*Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include fueling areas such as gasoline or petrol stations; below deck on boats; fuel or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or particles, such as grain, dust, or metal powders; and any other area where you would normally be advised to turn off your vehicle engine. Blasting areas: To avoid interfering with blasting operations, unplug the BlackBerry Presenter when in a "blasting area" or in areas posted: "Turn off two-way radio". Obey all signs and instructions. Service Only qualified service personnel should perform repairs to the BlackBerry® Presenter. Disconnect the power supply cables from the computer or electrical outlet and refer the BlackBerry Presenter or charging accessory for service to qualified service personnel if any of the following situations occur: · · · · the power supply cord, plug, or connector is damaged liquid has been spilled or objects have fallen into the BlackBerry Presenter or charging accessory the BlackBerry Presenter or charging accessory has been exposed to rain or water the BlackBerry Presenter or charging accessory becomes very hot to the touch the BlackBerry Presenter or charging accessory has been dropped or damaged in any way 19 User Guide Safety and product information · · the BlackBerry Presenter or charging accessory does not operate normally by following the instructions in the user documentation the BlackBerry Presenter or charging accessory exhibits a distinct change in performance Do not attempt to disassemble the BlackBerry Presenter or any charging accessory. To reduce the risk of fire or electric shock, adjust only those controls that are covered in the user documentation for the BlackBerry Presenter. An improper adjustment of other controls might cause damage and will often require extensive work by a qualified technician to restore the BlackBerry Presenter, charging accessory, or any other accessory to normal operation. Failure to observe all safety instructions contained in the user documentation for the BlackBerry Presenter will void the Limited Warranty and might lead to suspension or denial of services to the offender, legal action, or both.*

*Additional safety guidelines Child safety: Keep your BlackBerry® Presenter out of reach of children. Operating machinery: Keep your BlackBerry Presenter and any cords or cables away from machinery that is in operation. LED aperture: Exposure to flashing lights on the BlackBerry Presenter can cause epileptic seizures or blackouts and might be dangerous to you or others. In the event that you experience, or your use of the BlackBerry Presenter causes in others, any disorientation, loss of awareness, twitching, convulsions, or any involuntary movements, stop using the BlackBerry Presenter immediately and consult a physician.*

If you are susceptible to epileptic seizures or blackouts, consult your physician before using the BlackBerry Presenter. Liquids and foreign objects: Never push foreign objects of any kind into the BlackBerry Presenter or BlackBerry Presenter accessories through openings as this action might cause a short circuit, a fire, or electric shock. Do not attempt to modify or service the BlackBerry Presenter. Do not use the BlackBerry Presenter or BlackBerry Presenter accessories near water (for example, near a bathtub or a sink, in a wet basement, or near a swimming pool). Never spill liquid of any kind on the BlackBerry Presenter or BlackBerry Presenter accessories. CAUTION: Use of controls or adjustments or performance of procedures other than those specified in the product documentation supplied by Research In Motion may result in hazardous radiation exposure.

Stability: Do not place the BlackBerry Presenter or a BlackBerry Presenter accessory on any unstable surface. Take care when using the BlackBerry Presenter with any charging accessories to route the power cord in a way that reduces the risk of injury to others, such as by tripping or choking. Cleaning: Do not use liquid, aerosol cleaners, or solvents on or near the BlackBerry Presenter or a BlackBerry Presenter accessory. Clean only with a soft dry cloth. Disconnect any cables from the computer and unplug any charging accessories from the electrical outlet before cleaning either the BlackBerry Presenter or the power accessory.

Designated areas and dangerous environments: Observe all signs and instructions that require an electrical device or radio frequency device to be switched off in designated areas. Do not use the headset in environments where there is a danger of ignition of flammable gases. Overheating and damage: If this product overheats, if the product has been dropped or damaged, if the product has a damaged cord or plug, or if the product has been dropped in a liquid, discontinue use and contact RIM. Heavy objects: Do not place heavy objects on the BlackBerry Presenter. 20 User Guide Safety and product information

Compliance information Exposure to radio frequency signals The BlackBerry® Presenter radio is a low power radio transmitter and receiver.

When the BlackBerry Presenter radio is turned on, it receives and also sends out radio frequency (RF) signals. The BlackBerry Presenter is designed to comply with Federal Communications Commission (FCC) and Industry Canada (IC) guidelines respecting safety levels of RF exposure for wireless devices, which in turn are consistent with the following safety standards previously set by Canadian, U.S., and international standards bodies: . . . . . ANSI/IEEE C95.1, 1999, American National Standards Institute/Institute of Electrical and Electronics Engineers Standard for Safety Levels with Respect to Human Exposure to Radio Frequency Electromagnetic Fields (3 kHz to 300 GHz) National Council on Radiation Protection and Measurements (NCRP) Report 86, 1986, Biological Effects and Exposure Criteria for Radiofrequency Electromagnetic Fields Health Canada, Safety Code 6, 1999, Limits of Human Exposure to Radiofrequency Electromagnetic Fields in the Frequency Range from 3 kHz to 300 GHz EN 50371, 2002, Generic Standard to demonstrate the compliance of low power electronic and electrical apparatus with the basic restrictions related to human exposure to electromagnetic fields (10 MHz to 300 GHz) International Commission on Non-Ionizing Radiation Protection (ICNIRP), 1998, Guidelines for Limiting Exposure to Time-Varying Electric, Magnetic, and Electromagnetic fields (up to 300 GHz) Official Journal of the European Union (OJEU), 1999, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0 Hz to 300 GHz) FCC compliance statement (United States) FCC Class B Part 15 This device complies with Part 15 of the Federal Communications Commission (FCC) Rules. The FCC ID for this device is L6ARCR10BW. Operation is subject to the following two conditions: · This device may not cause harmful interference. · This device must accept any interference received, including interference that may cause undesired operation. CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instructions, may cause interference harmful to radio communications. There is no guarantee, however, that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 21 User Guide Safety and product information . . . · Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio or TV technician for help. Industry Canada certification This BlackBerry® Presenter complies with Industry Canada RSS-210 standard, under certification number 2503A-RCR10BW. Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.

1.5. Class B compliance This BlackBerry® Presenter complies with the Class B limits for radio noise emissions as set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of Industry Canada. EU regulatory conformance This product is CE marked according to the provisions of the R & TTE Directive (99/5/EC). Research In Motion Limited hereby declares that this BlackBerry® Presenter is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

The Declaration of Conformity made under Directive 1999/5/EC is available for viewing at the following location in the EU community: Research In Motion UK Limited 200 Bath Road Slough, Berkshire SL1 3XE United Kingdom Additional regulatory conformance Specific details about compliance to the following standards and regulatory bodies may be obtained from RIM: · · Radio and Telecommunications Terminal Equipment (R&TTE) Directive 1999/5/EC Underwriters Laboratories (UL) 60950-1 requirements for Canada and the United States 22 User Guide Safety and product information Product information Mechanical properties weight size (L x W x H) Power port capacity USB-compatible port 360 mA approximately 4.
