If necessary, type the passkey for the Bluetooth enabled device on your BlackBerry® device. 4. If necessary, type the passkey for the Bluetooth enabled device on the Bluetooth enabled device. About connecting to a Wi-Fi network If you are in a Wi-Fi® coverage area and if your wireless service plan supports it, you might be able to access services (for example, email service) over a Wi-Fi network. For more information, contact your wireless service provider. You can connect to a Wi-Fi network without saving the connection information, or you can save the connection information in a Wi-Fi profile. Connect to a Wi-Fi network By default, new Wi-Fi® profiles appear at the bottom of your Wi-Fi profile list. If your device is associated with an email account that uses a BlackBerry® Enterprise Server, your organization might prevent you from connecting to a Wi-Fi network. 1. On the Home screen or in the application list, click Set Up Wi-Fi.

2. Perform one of the following actions: · Click Scan for Networks. Click a network. · Click Manually Add Network. Type the network name.

Click Add. 27 · If you are using a network access point enabled with Wi-Fi Protected Setup™, click Push Button Setup. 3. Complete the instructions on the screen. 4.

On the Wi-Fi Setup Complete screen, perform any of the following actions: · To change the order of Wi-Fi profiles, click Prioritize Wi-Fi Profiles. To return to the Wi-Fi Setup Complete screen, press the Escape key. · To specify registration information, click Wi-Fi Hotspot Login. To return to the Wi-Fi Setup Complete screen, press the Escape key. 5. Click Finish. About using your device with a computer You can install the BlackBerry® Desktop Software on your computer and connect your BlackBerry device to your computer to perform any of the following actions: · Charge your device. · Synchronize organizer data such as contacts, calendar entries, tasks, and memos between your device and your computer. · Synchronize certificates between your device and your computer. · Back up and restore device data.

· Transfer files between your device and your computer. · Add applications to your device. 28 · Set up and manage email message forwarding or wireless calendar synchronization if your administrator has advised you to do so. @@@@2. @@@3. Click BlackBerry Desktop Software. 4. @@@5. @@@Click Next. @@@Click Next.

@@@6. Complete the instructions on the screen. 7. @@@8. @@@@1.

2. 3. 4. 5. Connect your current device to your computer.

Open the BlackBerry® Desktop Manager. Click Switch Device Wizard. Click Start. @@@@2. 3. 4. Connect your BlackBerry® device to your computer. On your computer, open the BlackBerry® Desktop Manager. Double-click Media Manager. @@@2.

3. 4. 5. Connect your BlackBerry® device to your computer. Open the BlackBerry® Desktop Manager. Click Synchronize. Select the check box beside one or more actions. @@The media card might be sold separately from your device. 1. Lift the edge of the cover for the media card slot.

2. @@@3. @@@4. Flip the cover for the media card slot down. 32 5.

@@@To remove the media card, remove the cover for the media card slot. @@@@ To find software, games, and accessories for your device, visit www.discoverblackberry.com. · To buy accessories for your device, contact your wireless service provider or visit www.

shopblackberry.com. 34 Troubleshooting I cannot connect to a wireless network Try performing the following actions: · Verify that your SIM card is inserted in your BlackBerry® device correctly. · Verify that you have turned on the connection to the wireless network. · Verify that you have turned on the connection to the Wi-Fi® network. · Verify that you are in a Wi-Fi coverage area. · If the Wi-Fi network does not appear in the Wi-Fi setup application and you know the network name, connect to the Wi-Fi network manually. · Verify that the connection options in the Wi-Fi setup application are correct. If you have already verified these options, verify that the advanced connection options for the Wi-Fi network are correct. · If your device is associated with an email account that uses a BlackBerry® Enterprise Server your organization might prevent the Hotspot Browser from appearing, or might restrict you from using the Hotspot browser to browse web pages.

35 · If you are using the Push Button Setup method for Wi-Fi, verify that the network access point is enabled with Wi-Fi Protected Setup™, and that it has been set to send its profile. Verify that another device is not also attempting to connect at the same time, and that not more than one network access point within range is in this mode.

I cannot associate my device with an email address Try performing the following actions: · On the email setup screen, verify that you have typed all the email address information correctly. · Verify that the email address is associated with a supported email account (for example, a POP3 email account or an IMAP email account). For more information about supported email accounts, contact your wireless service provider. · If you are trying to add a Microsoft® Outlook® or IBM® Lotus Notes® work email address to your BlackBerry® device, in a browser on your computer, log in to the email setup web site using the web page address provided by your wireless service provider and add the work email address. To log in, you must have a login user name and password.

You can create a login user name and password in the setup wizard on the email setup screen. 36 I cannot send or receive messages Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network. If you are not in a wireless coverage area, your device should send the messages when you return to a wireless coverage area.

· If you created an email address or added an existing email address to your device using the email setup screen in the setup wizard, verify that you have received an activation message on your device from the BlackBerry® Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), in the setup wizard, open the email setup screen to send a service book to your device. · If you have not received a registration message from the wireless network, register your device. In the device options, click Advanced Options. Click Host key.

Click Register Now. Routing Table. Press the · If you switched devices, verify that you have switched email service to your new device. To switch email service to your new device, in the setup wizard, open the email setup screen. If you created a user name and password when you set up email on your device, type your login information.

Press the key. Click Change Device. If you did not create a user name and password when you set up email, complete the instructions on the screen. · If the menu item for sending a message does not appear, verify that you have added an email address or a PIN for your contact. 37 · Resend the message. Open the message. Press the key. Click Resend. · If you use email message filters, verify that the options for email message filters are set correctly. I cannot make or receive calls Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network.

· If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing. · If you have traveled to another country and you have not changed your smartdialing options, dial the full phone number, including the country code and area code, for your contact. · If you are not receiving calls, verify that call blocking and call forwarding are turned off. · Your SIM card might support more than one phone number, even if you only have one phone number. Verify that your phone number is set as your active phone number. 38 Legal notice ©2008 Research In Motion Limited. All rights reserved.
