**Manual abstract:**

@@After you complete the setup wizard, take some time to explore the features on your device. This guide provides tips and instructions to help you learn the basics quickly. 3 4 Set up your device Insert the SIM card and battery Your SIM card is a small rectangular plastic card that stores important information about your wireless service. Your SIM card might already be inserted in your BlackBerry® device. Press the release button for the battery cover. Slide off the battery cover. If the battery is inserted, remove the battery. If your SIM card is already inserted, proceed to step 11. Slide the SIM card holder door toward its hinges to unlock it. Open the SIM card holder door.

Remove the SIM card from any packaging. Place the SIM card into the holder so that the metal contacts on the SIM card face down and the cutoff corner of the SIM card points toward the top of your device. 9. Close the SIM card holder door so that it holds the SIM card flat. 10.

Slide the SIM card holder door away from its hinges to lock it. 11. @@1. 2. 3.

4. 5. 6. 7. 8. 5 12. Slide the battery cover back onto the device so that it clicks into place. If the battery is charged, the device turns on. If the device does not turn on, charge the battery. Figure 1.

Remove the battery cover Figure 2. Insert the SIM card 6 Figure 3. Insert the battery Charge the battery 1. Connect the small end of the travel charger cable to the USB port on the side of your BlackBerry® device. 2. If necessary, perform one of the following actions: · Insert the plug blade attachment into the power adapter. · Fold down the plug blades on the power adaptor. 3. Plug the power adapter into a power outlet. 4.

Charge the battery to full power. 7 Figure 4. Connect the travel charger cable to your device Figure 5. Insert the plug blade attachment or fold down the plug blades (if necessary) If you have installed the BlackBerry® Desktop Software, you can use the USB cable that came with your device to connect your device to your computer for charging. For more information, see the "About using your device with a computer" topic.

Battery power level indicators full battery power low battery power battery charging 8 Complete the setup wizard The setup wizard is designed to help you learn about typing, change options to personalize your BlackBerry® device, and set up one or more email addresses. 1. 2. 3. 4.

5. 6. In the setup wizard dialog box, roll the trackball to highlight Run Setup Wizard. Click (press) the trackball. Read the setup wizard introduction. Roll the trackball to highlight Next. Click the trackball. Complete the instructions on the screen. Note: If the setup wizard dialog box does not appear automatically, on the Home screen, press the key. Click Setup Wizard.

Figure 6. Setup wizard screen 9 About email setup options If you have not already set up an email address, you can use one of following options to set up email. Depending on your wireless service provider, the available options might vary. · BlackBerry Internet Service option: Use this email setup option to create a new email address for your device or to associate your device with one or more (up to ten) existing email addresses. This option is most common for individual users. You can set up email using this option by selecting the I want to create or add an email address option in the setup wizard on your device ·

BlackBerry Enterprise Server option: Use this email setup option to associate your device with a Microsoft® Outlook® work email account, IBM® Lotus Notes® work email account, or Novell® GroupWise® work email account and to take advantage of advanced capabilities for wireless data synchronization. If your administrator has provided you with an activation password, you can set up email using this option by selecting the I want to use a work email account with a BlackBerry Enterprise Server option in the setup wizard on your device. If you do not have an activation password, contact your administrator. ·

BlackBerry Desktop Redirector option: Use this email setup option to associate your device with a Microsoft Outlook (Workgroup Installation) email account. You can set up email using this option by installing the BlackBerry® Desktop Software and selecting the BlackBerry Desktop Redirector option.

If you use this email setup option, you must keep your computer turned on to receive email messages. 10 Add or create an email address using the setup wizard 1. In the setup wizard, on the email setup screen, select the I want to create or add an email address option. Click Next. 2.

Click Next. 3. 4. 5. 6.

If necessary, click Update Now. If necessary, click Create New Account. To accept the terms of the license agreement, select the Yes option. Click I Agree. If necessary, type a login user name and password of your choice. Click Next. Record your user name and password in a safe place. 7. shopblackberry.com. 34 Troubleshooting I cannot connect to a wireless network Try performing the following actions: · Verify that your SIM card is inserted in your BlackBerry® device correctly. · Verify that you have turned on the connection to the wireless network. · Verify that you have turned on the connection to the Wi-Fi® network. · Verify that you are in a Wi-Fi coverage area. · If the Wi-Fi network does not appear in the Wi-Fi setup application and you know the network name, connect to the Wi-Fi network manually. · Verify that the connection options in the Wi-Fi setup application are correct. If you have already verified these options, verify that the advanced connection options for the Wi-Fi network are correct. I cannot associate my device with an email address Try performing the following actions: · On the email setup screen, verify that you have typed all the email address information correctly.

35 · Verify that the email address is associated with a supported email account (for example, a POP3 email account or an IMAP email account). For more information about supported email accounts, contact your wireless service provider. · If you are trying to add a Microsoft® Outlook® or IBM® Lotus Notes® work email address to your BlackBerry® device, in a browser on your computer, log in to the email setup web site using the web page address provided by your wireless service provider and add the work email address. To log in, you must have a login user name and password. You can create a login user name and password in the setup wizard on the email setup screen.

I cannot send or receive messages Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network.

[You're reading an excerpt. Click here to read official BLACKBERRY CURVE 8320 user guide](http://yourpdfguides.com/dref/2282737)  
<http://yourpdfguides.com/dref/2282737>

If you are not in a wireless coverage area, your device should send the messages when you return to a wireless coverage area. · If you created an email address or added an existing email address to your device using the email setup screen in the setup wizard, verify that you have received an activation message on your device from the BlackBerry® Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), in the setup wizard, open the email setup screen to send a service book to your device. 36 · If you have not received a registration message from the wireless network, register your device.

In the device options, click Advanced Options. Click Host key. Click Register Now. Routing Table. Press the · If you switched devices, verify that you have switched email service to your new device. To switch email service to your new device, in the setup wizard, open the email setup screen. If you created a user name and password when you set up email on your device, type your login information. Press the key. Click Change Device. If you did not create a user name and password when you set up email, complete the instructions on the screen.

· If the menu item for sending a message does not appear, verify that you have added an email address or a PIN for your contact. · Resend the message. Open the message. Press the key. Click Resend. · If you use email message filters, verify that the options for email message filters are set correctly. I cannot make or receive calls Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network. · If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing. 37 · If you have traveled to another country and you have not changed your smartdialing options, dial the full phone number, including the country code and area code, for your contact.

· If you are not receiving calls, verify that call blocking and call forwarding are turned off.

· If your SIM card supports more than one phone number, but you have only one phone number, verify that the phone number is set as your active phone number. 38 Legal notice ©2008 Research In Motion Limited.
