..... 322 322 322 323 328 *User Guide Quick Help Quick Help Getting started: Your smartphone Find out about apps and indicators, and what the keys do on your BlackBerry® smartphone. Your BlackBerry smartphone at a glance New in this release This release includes a number of exciting new features and services, as well as some enhancements to existing features. BlackBerry ID A BlackBerry® ID gives you convenient access to multiple BlackBerry products and services. After you create a BlackBerry ID, you can use a single email address and password to log in to any BlackBerry product that supports BlackBerry ID.*

With BlackBerry ID, you can manage apps that you downloaded from the BlackBerry App World™ storefront and keep apps you downloaded when you switch smartphones. For more information, see About the BlackBerry ID, 7. Voice enabled search Looking for something? You can now use your voice to search for help, contacts, documents, pictures, videos, and more on your BlackBerry smartphone and on the Internet. For more information, see Search for an item using voice enabled search, 271. Home screen customization 6 User Guide Quick Help Customize the home screen even more by hiding panels you don't use regularly, and hiding icons in specific panels or all panels.

For more information, see Show or hide a home screen panel, 16 and Show, hide, or find an application icon, 17. NFC technology NFC technology allows you to quickly exchange information between your smartphone and smart accessories, smart payment terminals, smart access points, and smart tags. When you tap the NFC smart tag reader of your smartphone against a smart tag, you can see information such as web addresses, coupons, graphics, media files, and event details. For more information, see NFC technology, 257. Touch-free call answering You don't need to use your hands to answer calls when you're using a Bluetooth® enabled headset or a regular headset! Now you can set your smartphone to answer calls automatically after 5 seconds.

For more information, see Change how you answer calls with a headset, 65. Bluetooth enhancements You can now send multiple pictures at once using Bluetooth technology. For details, see Send a file, 109. Conveniently send and receive a contact card (also called a vCard®) using Bluetooth technology, and save the received contact card into your smartphone's contact list. For more information, see Send and receive a contact card using Bluetooth technology, 250. Picture enhancements When you rotate JPEG and PNG pictures, the pictures are saved automatically in the rotated view. Sort pictures from either newest to oldest, or oldest to newest. This lets you see a slide show in the order that pictures were taken. You can now view pictures in a slide show using transitions such as sliding, zooming, and panning. For more information, see Change your slide show options, 151.

About the BlackBerry ID A BlackBerry® ID gives you convenient access to multiple BlackBerry products and services. After you create a BlackBerry ID, you can use a single email address and password to log in to any BlackBerry product that supports BlackBerry ID. With BlackBerry ID, you can manage apps that you downloaded from the BlackBerry App World™ storefront and keep apps you downloaded when you switch smartphones. When you set up your BlackBerry smartphone, you might be required to create a BlackBerry ID. You can also create a BlackBerry ID from within an app that uses BlackBerry ID, or by visiting www.blackberry.com/blackberryid. Some services and apps that support BlackBerry® ID require you to re-enter your login information after a certain amount of time has passed if you are not actively using the app. You might also be required to re-enter your BlackBerry ID login information if you change any of your BlackBerry ID information, if you delete all the data on your smartphone, or if you update your BlackBerry® Device Software on your smartphone. Related information Create a BlackBerry ID, 223 Change your BlackBerry ID information, 223 7 User Guide Quick Help Visit the Setup application The Setup application helps you learn about navigation and typing, change options to personalize your BlackBerry® smartphone, and set up network connections, such as Bluetooth® connections.

The features discussed are meant as examples, and are not inclusive of every feature that might or might not be available on your smartphone. Smartphone model Features such as GPS, the camera and video camera, and network connection options are dependent on your smartphone model. To find feature specifications for your smartphone model, visit www.blackberry.com/go/devices.

You must purchase or change your wireless service plan through your wireless service provider. A wireless service plan with phone or voice is required for you to use the Phone application and to send and receive text messages. A wireless service plan with data is required for you to use the browser service and instant messaging applications, and to send and receive email messages and PIN messages. A wireless service plan might affect which apps you can download and how you can download them. Wireless service plan 18 User Guide Quick Help For more information about your plan, contact your wireless service provider. BlackBerry Internet Service and BlackBerry Enterprise Server Once you have a data plan, you must set up your email address or third-party instant messaging account in order to send and receive email messages, use third-party instant messaging applications, and use some browser options. If you are an individual user, when you set up your email address or instant messaging account, you are associating it with the BlackBerry® Internet Service. If you are a corporate user, your administrator sets up your email account by associating it with a BlackBerry® Enterprise Server.

Your administrator might set options that determine the features and settings that are available on your smartphone and if you can add or update an app. To view the IT policies that have been set by your administrator, on the Home screen or in a folder, click the Options icon. Click Security > Security Status Information > View IT Policy. Wireless service provider Features such as text messaging, location-based services, and some phone features are dependent on your wireless service provider's offerings. You might have the option to download apps from a webpage or an application.

Here are the top 10 things they want to know how to do on their smartphones. Set up an email address 1. On the Home screen, click the Setup icon. 2. In the Setup section, click the Email Accounts icon. 3. Follow the screens to set up your email address.

When your email address is set up correctly, you receive a confirmation message. To view and manage your email messages, on the Home screen, click the Messages icon. Note: In some cases, you might see the following options. If so, select one of the options. · Internet Mail Account: Use this option to associate your BlackBerry® smartphone with one or more existing email accounts (for example, Windows Live™ Hotmail®) or to create a new email address for your smartphone. · Enterprise Account: If your administrator gave you an enterprise activation password, use this option to associate your smartphone with your work email account using the BlackBerry® Enterprise Server. If you are trying to set up a Internet email account (for example, Windows Live™ Hotmail® or Google Mail™) or a new email address for your smartphone, and do not see this option, contact your administrator or wireless service provider. Related information Synchronize email over the wireless network, 83 Change options for your personal email account, 90 About downloading apps with the BlackBerry App World With the BlackBerry App World™ storefront, you can search for and download games, themes, social networking apps, personal productivity apps, and much more. Using an existing PayPal® account, you can buy and download apps to your smartphone over the wireless network. If you don't already have the BlackBerry App World on your smartphone, you can download it at www.

blackberryappworld.com. For more information about managing apps using BlackBerry App World, click the BlackBerry App World icon. Press the key > Help. 20 User Guide Quick Help Depending on your wireless service provider and region, you might have the option to add or update apps using the BlackBerry App World™ storefront.

You might also be able to download apps from a webpage (try visiting mobile.blackberry.com from your BlackBerry smartphone), or through your wireless service provider. Data charges might apply when you add or use an app over the wireless network. For more information, contact your wireless service provider.

Transfer a file from your computer to your smartphone using your smartphone as a USB memory drive You must use the BlackBerry® Desktop Software to manage and preserve the information or the encryption that is associated with your media files when you transfer files between your BlackBerry smartphone and your computer. 1. Connect your smartphone to your computer using a USB cable. 2. Do one of the following: · If you want to transfer most types of files, in the dialog box that appears on your smartphone, select the USB option. · If you want to transfer media files that are protected with DRM, in the dialog box that appears on your smartphone, select the media transfer option. 3. If necessary, type a password. Your smartphone appears as a drive on your computer. 4.

Drag a file from a location on your computer to a folder on your smartphone. To view the transferred file on your smartphone, disconnect your smartphone from your computer and find the file. Related information Transfer your media files from your computer to your smartphone using the BlackBerry Desktop Software, 135 About using your smartphone as a tethered modem Depending on your wireless service plan or administrator, you might be able to share the Internet connection on your BlackBerry® smartphone. For example, if you are travelling, you can use your smartphone's Internet connection to access the Internet on a laptop or tablet. To use your smartphone as a tethered modem with a laptop, you must connect your smartphone with your laptop using a USB cable and open the BlackBerry® Desktop Software. To use your smartphone as a tethered modem with a BlackBerry® PlayBook™ tablet, you must pair your smartphone with your tablet using Bluetooth® technology. While using your smartphone as a modem, you might not be able to use your smartphone's Phone application, Messaging applications, or applications that use the Internet. To receive a phone call, your smartphone might turn off the tethered Internet connection. For more information about tethering, see the Help on your BlackBerry PlayBook tablet or in the BlackBerry Desktop Software. Copy contacts from your SIM card to your contact list Depending on your wireless service provider and wireless network, this feature might not be supported.

key > SIM Phone Book. 1. In the contact list, press the 21 User Guide Quick Help 2. Press the key > Copy All To Contacts. Note: If you try to copy a SIM card contact with a phone number that matches the phone number of a contact that already appears in your contact list, your BlackBerry® smartphone does not copy the SIM card contact.

Send a text message The number of recipients that you can send a text message to depends on your wireless service provider. 1. On the Home screen, click the Text Messages icon. 2. Press the key > Compose Text Message.

3. In the To field, do one of the following: · Type a contact name. key > Choose Contact. Click a contact. · Press the · Type a phone number that can receive text messages (including the country code and area code).

Assign an application to a convenience key Your BlackBerry® smartphone has a convenience key on the side of the smartphone. Depending on your theme, you might not be able to change the application that is assigned to a convenience key. 1.

On the Home screen or in a folder, click the Options icon. 2. Click Device > Convenience Key. 3. Change the Convenience Key Opens field.

4. Press the key > Save. Set up speed dial for a contact 1. 2. 3. 4. 5. key. From the Home screen, press the key > View > Speed Dial List. In the Speed Dial Numbers list, click an unassigned key.

Click a contact. If necessary, click a phone number for the contact. To make a call using speed dial, from the Phone application, the home screen, a message, or a message list, press and hold the key that you assigned to the contact. Add or delete a contact alert You can create contact alerts that allow you to customize ring tones and alerts for calls and messages from specific contacts or groups of contacts. When you receive a call or message from the contact, your BlackBerry® smartphone uses the assigned ring tone or alert, even if you select the Silent profile or Vibrate Only profile. If you do not want to be notified with the assigned ring tone or alert, you can select the All Alerts Off profile. 1. On the home screen, click the Sound and Alert Profiles icon. 2. Click Change Sounds and Alerts > Sounds for Contacts > Add Contact Alert.

3. In the Name field, type the name of the contact alert. 4. In the Contacts field, type the name of the contact. 5.

Click a contact. 6. Change the ring tone and alert information for calls and messages. 7. Press the key > Save.

33 User Guide Quick Help To delete a contact alert, highlight the contact alert that you want to delete. Press the key > Delete. Add a contact picture for caller ID 1. On the Home screen, click the Contacts icon. 2. Highlight a contact. 3. Press the key > Edit. 4. Press the key > Add Picture.

5. Find, highlight, and click a picture. 6. If necessary, move the crop box to the portion of the picture that you want to use. 7. Press the key > Crop & Save. 8. Press the key > Save. Related information My contact pictures keep changing, 190 Troubleshooting: Top 10 Save time and maximize your efficiency with these quick tips. I can't make or receive calls Try the following actions: Verify that your BlackBerry® smartphone is connected to the wireless network.

Verify that your wireless service plan includes phone or voice services. If you can't make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing. If you have traveled to another country and you haven't changed your smart dialing options, dial the full phone number, including the country code and area code, for your contact. If you're not receiving calls, verify that call blocking and call forwarding are turned off. Your smartphone or your SIM card might support more than one phone number, even if you only have one phone number.

Verify that your phone number is set as your active phone number. If you have more than one phone number associated with your smartphone, verify that the phone number that you want to make calls from and receive calls to is set as your active phone number. If you're using your BlackBerry® MVS Client phone number, verify that support for the BlackBerry MVS Client is turned on. If you're using your BlackBerry MVS Client phone number, verify that your smartphone is registered with the BlackBerry® Mobile Voice System. From the Home screen, press the key.

Press the key. Click Options. Click BlackBerry MVS Client. Press the key. Click Register Now. If the Register Now menu item doesn't appear, or if the registration fails, contact your administrator. If the registration doesn't complete, wait for a short period of time and then try again. 34 User Guide Quick Help - If you have set call forwarding for the phone number provided by your wireless service provider, calls to your BlackBerry MVS Client phone number are also forwarded. To receive calls to your BlackBerry MVS Client phone number, verify that call forwarding is turned off. Related information Fixed dialing and smart dialing, 59 Call waiting, call forwarding, and call blocking, 57 Switch the active phone number, 64 I'm not receiving messages Try the following actions: Verify that your BlackBerry® smartphone is connected to the wireless network.

If you're not in a wireless coverage area, you should receive messages when you return to a wireless coverage area. Reset your smartphone. Connect to the network and try again. If you created an email address or added an existing email address to your smartphone using the email setup screen in the Setup application, verify that you have received an activation message on your smartphone from the BlackBerry® Internet Service. If you haven't received an activation message (the message might take a short period of time to arrive), in the Setup application, open the email setup screen to send a service book to your smartphone. If you haven't received a registration message from the wireless network, register your smartphone. On the Home screen or in a folder, click the Options icon. Click Device > Advanced System Settings > Host Routing Table. Press the key > Register Now. Verify that data service is turned on. If you use email filters, verify that the options for email filters are set correctly. Verify that email forwarding is turned on and that you have selected all the email folders, including your inbox folder, that you want to receive email from. Verify that your smartphone is not blocking messages. For more information, contact your administrator. Related information Change, prioritize, or delete an email filter, 82 Forward messages from a specific email folder to your smartphone, 88 I can't send messages Try the following actions: Verify that your BlackBerry® smartphone is connected to the wireless network.

If the menu item for sending a message doesn't appear, verify that you have added an email address, a PIN, or a phone number for your contact. If you created an email address or added an existing email address to your smartphone using the email setup screen in the Setup application, verify that you have received an activation message on your smartphone from the BlackBerry® Internet Service. If you haven't received an activation message (the message might take a short period of time to arrive), in the Setup application, open the email setup screen to send a service book to your smartphone. 35 User Guide Quick Help If you haven't received a registration message from the wireless network, register your smartphone.

On the Home screen or in a folder, click the Options icon.

Click Device > Advanced System Settings > Host Routing Table. Press the key > Register Now. Generate an encryption key. Verify that data service is turned on. Resend the message. Related information Generate an encryption key, 283 Wireless coverage indicators, 237 Change or delete a contact, 184 Turn on or turn off a network connection, 234 Turn on or turn off data service or set roaming options, 235 Options for email filters, 81 Resend a message, 75 Resend a message, 75 I forget my smartphone password If you forget your BlackBerry® smartphone password, it can't be recovered. If your smartphone uses a BlackBerry® Enterprise Server, your administrator might be able to reset your password without deleting your smartphone data. Otherwise, the only way you can reset your password without knowing your current password is to delete all your smartphone data. You can do this by exceeding the number of allowed password attempts. If your email account uses a BlackBerry Enterprise Server, depending on the options that your administrator sets, when you delete your smartphone data, you might also delete the data on your media card.

For more information, contact your administrator. Research In Motion recommends that you regularly create and save a backup file on your computer, especially before you update any software. Maintaining a current backup file on your computer might allow you to recover smartphone data if your smartphone is lost, stolen, or corrupted by an unforeseen issue. My smartphone isn't ringing or vibrating when I receive a call or message Try the following actions: · · On the Home screen, click the Sound and Alert Profiles icon. Verify that your profile isn't set to All Alerts Off or Silent. If you have created contact alerts, on the Home screen, click the Sound and Alert Profiles icon. Click Change Sounds and Alerts > Sounds for Contacts. Click a contact alert. Click Phone or Messages. Verify that the Volume field isn't set to Silent and that the Vibration field isn't set to Off.

The screen turns off When you don't use your BlackBerry® smartphone for a period of time, the screen turns off to conserve battery power. You can change the length of time that the backlight stays on when you aren't touching your smartphone. 36 User Guide Quick Help To turn on the screen, click the trackpad or press a key. Related information Set options for backlighting, 211 Email messages aren't reconciling over the wireless network Try the following actions: ·

Verify that your BlackBerry® smartphone is connected to the wireless network. · Verify that wireless email reconciliation is turned on. · Reconcile email messages manually. Organizer data isn't synchronizing over the wireless network Try the following actions: · Verify that your BlackBerry® smartphone is connected to the wireless network. · Verify that wireless data synchronization is turned on in the Contacts application, Calendar application, Tasks application, and MemoPad. · If you use the BlackBerry® Internet Service, you must synchronize calendar data using the BlackBerry® Desktop Software. For more information, see the Help in the BlackBerry Desktop Software.

I can't pair with a Bluetooth enabled device Try the following actions: · · · Verify that your BlackBerry® smartphone is compatible with the Bluetooth® enabled device. For more information, see the documentation that came with the Bluetooth enabled device. If you don't know the passkey for your Bluetooth enabled device, see the documentation that came with the Bluetooth enabled device. If your smartphone doesn't detect the Bluetooth enabled device that you want to pair with, try making your smartphone discoverable for a short period of time. Many car kits need to discover your smartphone rather than your smartphone discovering the car kit. On the home screen, click the connections area at the top of the screen, or click the Manage Connections icon. Click Networks and Connections > Bluetooth Connections. Click Add New Device. Click Listen. Bluetooth enabled devices can detect your smartphone for 2 minutes.

Turn off encryption for Bluetooth connections between your smartphone and the Bluetooth enabled device. On the home screen, click the connections area at the top of the screen, or click the Manage Connections icon. Click Networks and Connections > Bluetooth Connections. Highlight a Bluetooth enabled device. Press the > Devices Properties. Clear the Encryption checkbox. Press the key > Save. · Related information Make your smartphone discoverable, 251 37 User Guide Quick Help The media player screen closes If you pause or stop a media file for a certain period of time, the media player screen closes to optimize the performance of your BlackBerry® smartphone.
