..... 298 298 299 300 301 303 307 *User Guide Welcome to BlackBerry! Welcome to BlackBerry! This is one of the many resources available to help you use your BlackBerry® device. You can look for answers in the Help application on the Home screen of your device, or by pressing the Menu key and clicking Help in most applications. Please read the Safety and Product Information booklet, located on the BlackBerry® User Tools CD, before using your device or any accessories for your device. For the most recent version of the booklet, visit [www.blackberry.com](http://www.blackberry.com).*

*com/go/docs. Feature availability The following items affect the availability of features on your BlackBerry® device. The features discussed are meant as examples, and are not inclusive of every feature that might or might not be available on your device. Device model Features such as an internal GPS receiver, Wi-Fi® connection capability, and the camera and video camera are dependant on your device model. To find feature specifications for your device model, visit [www.blackberry.com/go/devices](http://www.blackberry.com/go/devices). Wireless service plan A wireless service plan with phone or voice is required to use the phone application and to send and receive SMS text messages and MMS messages. A wireless service plan with data is required to use the browser service and instant messaging applications, and to send and receive email messages and PIN messages. For more information, contact your wireless service provider.*

*BlackBerry Internet Service and BlackBerry Enterprise Server Once you have a data plan, you must set up your email address or third-party instant messaging account in order to send and receive email messages, use third-party instant messaging applications, and use certain browser configurations. If you are an individual user, when you set up your email address or instant messaging account, you are associating it with the BlackBerry® Internet Service. If you are a corporate user, your administrator sets up your email account by associating it with a BlackBerry® Enterprise Server. Your administrator might set options that determine the features and settings that are available on your device. Wireless service provider Features such as MMS messages, location-based services, and some phone features are dependant on your wireless service provider's offerings.*

*For more information, contact your wireless service provider. Wireless network The wireless network that your device is connected to might affect the availability of some features. Depending on your wireless service provider and available roaming options, different wireless networks are available. Some wireless networks do not support features such as call blocking, call forwarding, or cell broadcasting. For more information, contact your wireless service provider.*

If necessary, type the passkey for the Bluetooth enabled device on your BlackBerry® device. 4. If necessary, type the passkey for the Bluetooth enabled device on the Bluetooth enabled device.

**Troubleshooting basics I cannot make or receive calls** Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network. · Verify that your wireless service plan includes phone or voice services. · If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing. · If you have traveled to another country and you have not changed your smart-dialing options, dial the full phone number, including the country code and area code, for your contact. · If you are not receiving calls, verify that call blocking and call forwarding are turned off.

· Your device or your SIM card might support more than one phone number, even if you only have one phone number. Verify that your phone number is set as your active phone number. · If you have more than one phone number associated with your device, verify that the phone number that you want to make calls from and receive calls to is set as your active phone number. Related topics Fixed dialing, 33 Call blocking, 32 Call forwarding, 30 Switch the active phone number, 37 I cannot set up an email address Try performing the following actions: · On the Home screen or in a folder, click the Setup Wizard icon. On the email setup screen, verify that you have typed all the email address information correctly.

To view the password that you typed, select the Show Password check box. · Verify that the email address is associated with a supported email account (for example, a POP3 email account or an IMAP email account). For more information about supported email accounts, contact your wireless service provider. · If you are switching from another BlackBerry® device that is associated with one or more email addresses using the BlackBerry® Internet Service, verify that you have completed the process for switching devices automatically or manually using the email setup application. For more information about switching devices, see the Learn More booklet that came with your device.

For more information about setting up an email address, visit [www.blackberry.com/go/docs](http://www.blackberry.com/go/docs) and click BlackBerry Internet Service. I am not receiving messages Try performing the following actions: 15 User Guide Welcome to BlackBerry! · Verify that your BlackBerry® device is connected to the wireless network. If you are not in a wireless coverage area, you should receive messages when you return to a wireless coverage area.

· If you created an email address or added an existing email address to your device using the email setup screen in the setup wizard, verify that you have received an activation message on your device from the BlackBerry® Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), in the setup wizard, open the email setup screen to send a service book to your device. · If you have not received a registration message from the wireless network, register your device. On the Home screen or in a folder, click the Options icon. Click Advanced Options. Click Host Routing Table. Press the Menu key. Click Register Now. · Verify that data service is turned on. · If you use email message filters, verify that the options for email message filters are set correctly.

· Verify that email message forwarding is turned on and that you have selected all the email message folders, including your inbox folder, that you want to receive email messages from. · Verify that your device is not blocking messages. For more information, contact your administrator. Related topics Turn off the connection to the wireless network, 236 About wireless coverage indicators, 239 Turn on or turn off data service or set roaming options, 236 Change an email message filter, 55 Forward messages from a specific email message folder to your device, 52 I cannot send SMS text messages Depending on your wireless service plan, this feature might not be supported. Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network.

If you are not in a wireless coverage area, your device should send the messages when you return to a wireless coverage area. · Verify that fixed dialing is turned off. Related topics Turn off the connection to the wireless network, 236 Fixed dialing, 33 I cannot save media files Your BlackBerry® device memory or media card might not have enough available memory to store media files. Try performing the following actions: · If you are trying to save a media file to your device memory, delete old data or messages from your device. · If you are trying to save a media file on your media card, delete old media files.

· In the camera options, verify that the Picture Quality field is not set to Superfine. Superfine pictures use more memory than fine or normal pictures. · If possible, increase the maximum amount of memory available for pictures. Related topics Change your ring tone, 12 Answer a second call Depending on your wireless service provider and wireless network, this feature might not be supported. 1. During a call, press the Menu key. 2. Perform one of the following actions: 20 User Guide Phone · To answer the incoming call and place the current call on hold, click Answer - Hold Current. · To answer the incoming call and end the current call, click Answer - Drop Current.

To return to the first call, press the Menu key. Click Swap or Flash. Change your ring tone On the Home screen, click the Sounds icon. Click Set Ring Tones/Alerts. Click the application or item that you want to change.

Perform one of the following actions: · To use a preloaded ring tone, in the Ring Tone field, click a ring tone. · To use a ring tone that you downloaded, in the Ring Tone field, click Select Music. Navigate to a folder that contains ring tones. Click a ring tone. 5.

Press the Menu key. 6. Click Save. 1. 2. 3. 4. Mute a call During a call, press the Mute key on the top of your device. To turn off mute, press the Mute key again. Place a call on hold If your BlackBerry® device is connected to a CDMA network, you cannot place a call on hold.

1. During a call, press the Menu key. 2. Click Hold. To resume a call, press the Menu key. Click Resume. Turn on the speakerphone 1. During a call, press the Menu key. 2. Click Activate Speakerphone.

Do not hold the BlackBerry® device near your ear while you use the speakerphone. Hearing damage can occur. For more information, see the Safety and Product Information booklet for your device. To turn off the speakerphone, press the Menu key. Click Activate Handset.

Related topics Bluetooth technology, 204 21 User Guide Phone Dial an extension 1. When typing a phone number, press the Menu key. 2. Click Add Pause. 3. Type the extension number. Switch applications during a call 1. During a call, press the Menu key. 2. Click Home Screen. Note: If you switch to a different application and you want to end the call, press the End key. Make a call when your device is locked To perform this task, you must turn on dialing from the Lock screen. 1. Press the Power key or Power/Lock key on the top left of your BlackBerry® device. 2.

Click Place Call. 3. Perform one of the following actions: · Type a phone number. · Click the contacts icon. Type part of a contact name. Click a contact or phone number. 4. Press the Send key. To end the call, press the End key. Related topics Turn on dialing from the Lock screen, 38 About using a headset You can purchase an optional headset to use with your BlackBerry® device.

If you use a headset, you can use a headset button to answer or end a call, or to turn on or turn off mute during a call. Depending on your device model, you might be able to use a headset button to make a call using a voice command. Depending on your headset, you might also be able to use a headset button to pause, resume, skip, or adjust the volume of audio or video files. For more information about using the headset, see the documentation that came with your headset. 22 User Guide Phone Emergency calls About emergency calls If you are outside of a wireless coverage area and the SOS wireless coverage indicator appears, you can only call emergency numbers.

Your BlackBerry® device is designed to allow emergency calls even when your device is locked. Depending on your device model and the wireless network that your device is connected to, your device is also designed to allow emergency calls when the SIM card is not inserted. If the connection to the wireless network is turned off when you initiate an emergency call, your device is designed to connect to the wireless network automatically. You can only make emergency calls by typing official emergency access numbers (for example, 911 or 112). Note: You should not rely on any wireless device for essential communications, including medical emergencies.

Emergency numbers may vary by location and emergency calls may be blocked or impeded by network, environmental, or interference issues. Make an emergency call Perform one of the following actions: · If your screen or BlackBerry® device is unlocked, from the Home screen, press the Send key. Type the emergency number. Press the Send key. · If your screen or device is locked, press the Power key or Power/Lock key on the top left of your device. Type the emergency number. Press the Send key. About GPS technology Depending on your wireless service provider, this feature might not be supported. You can use GPS technology on your BlackBerry® device to get your GPS location and to use location-based applications and location-based services. Location-based applications can use your GPS location to provide you with information such as driving directions.

If your device does not have an internal GPS receiver or your wireless service provider does not support location-based services and you want to use GPS technology, you can pair your BlackBerry device with a Bluetooth® enabled GPS receiver. For more information, contact your wireless service provider. If your device is connected to a CDMA network and you make an emergency call or your device is in Emergency Callback Mode, an emergency operator might be able to use GPS technology to estimate your location.

Click a new speed dial key. · To delete the contact from the speed dial list, click Delete. Conference calls About conference calls You can create two types of conference calls with your BlackBerry® device. If your organization or a conferencing service has provided you with a conference call bridge number, you can create conference call meetings in the calendar on your device or computer. Conference call meetings allow participants who have a BlackBerry device to enter the conference call meeting with a one-touch Join Now option, if this feature is supported on their device, so that they do not have to dial the conference call bridge number and access codes. If you do not have a conference call bridge number, you can create a conference call by calling other contacts and joining the calls together. 26 User Guide Phone Make a conference call If your BlackBerry® device is connected to a CDMA network, you cannot join more than two contacts to a conference call.*

*1. During a call, press the Menu key. 2. Click Add Participant. 3. Type a phone number or highlight a contact. 4. Press the Send key. 5. During the second call, press the Send key to join your first contact to the conference call.*

*6. To join another contact to the call, repeat steps 1 to 5. Related topics Place a call on hold, 21 Create a phone number link for a conference call 1. Type a phone number for the conference call bridge. 2.*

*Type X and the access code. Speak privately with a contact during a conference call You can perform this task only if you make a conference call by joining calls together, and not if you create a conference call meeting in the calendar. 1. During a conference call, press the Menu key. 2.*

*Click Split Call. 3. Click a contact. To return to the conference call, press the Menu key. Click Join. Disconnect a contact from a conference call You can perform this task only if you make a conference call by joining calls together, and not if you create a conference call meeting in the calendar. 1. During a conference call, press the Menu key. 2. Click Drop Call.*

*3. Click a contact. Leave a conference call You can perform this task only if you make a conference call by joining calls together, and not if you create a conference call meeting in the calendar. 27 User Guide Phone If you make a conference call, you can leave the conference call and the call continues without you. Depending on your wireless service provider, this feature might not be supported. 1. During a conference call, press the Menu key. 2. Click Transfer or Flash. Call logs About call logs Call logs appear in the phone application and show the status of recent calls by showing either a missed call indicator, placed call indicator or received call indicator.*

*A call log also includes the date of the call, the phone number, and the estimated duration of the call. For more information about the exact duration of a call, contact your wireless service provider. The phone list view option allows you to sort how call logs appear in the phone application. Depending on how you set your call logging options, you can also view call logs in the messages application. Depending on your theme, when you miss a call, a missed call indicator might also appear at the top of the Home screen.*

Click Edit Numbers. 7. Click a phone number. 8. Click Delete. Call blocking Depending on your wireless service provider and wireless network, this feature might not be supported. About call blocking The blocked calling feature allows you to block all incoming calls or block incoming calls only when roaming.

You can also block all outgoing calls and all outgoing international calls, or you can block outgoing international calls only when roaming. To use the blocked calling feature, your BlackBerry® device must use a SIM card, and your wireless service provider must set up your SIM card for this service and provide you with a call blocking password. Depending on your wireless service provider and wireless network, this feature might not be supported.

Block calls To perform this task, your BlackBerry® device must use a SIM card, and your wireless service provider must set up your SIM card for this service and provide you with a call blocking password. 1. 2. 3. 4.

5. 6. 7. 8. From the Home screen, press the Send key.

Press the Menu key. Click Options. Click Call Barring. Highlight a call blocking option. Press the Menu key. Click Enable. Type your call blocking password. To stop blocking calls, highlight a call blocking option. Press the Menu key. Click Disable.

32 User Guide Phone Change the call blocking password 1. 2. 3. 4. 5. 6. From the Home screen, press the Send key. Press the Menu key. Click Options. Click Call Barring.

Press the Menu key. Click Change Password. Fixed dialing Depending on your wireless service provider and wireless network, this feature might not be supported. About fixed dialing If you turn on fixed dialing, you can only make calls to contacts that appear in your fixed dialing list and to official emergency access numbers (for example, 911 or 112). If your wireless service plan includes SMS text messaging, you can also send SMS text messages to contacts that appear in your fixed dialing list.

To use fixed dialing, your wireless service provider must set up your SIM card for this service and provide you with a SIM card PIN2 code. Depending on

*your wireless service provider and wireless network, this feature might not be supported. Turn on fixed dialing To perform this task, your wireless service provider must set up your SIM card for this service and provide you with a SIM card PIN2 code. 1. 2.*

Click **Enable FDN Mode**. Type your PIN2 code. Press the **Enter** key. To turn off fixed dialing, press the **Menu** key. Click **Disable FDN Mode**. Add a contact to your fixed dialing list To perform this task, your wireless service provider must set up your SIM card for this service and provide you with a SIM card PIN2 code. 33 *User Guide Phone 1*. 2. 3.

4. 5. 6. 7. 8.

9. 10. 11. From the **Home** screen, press the **Send** key. Press the **Menu** key.

Click **Options**. Click **FDN Phone List**. Press the **Menu** key. Click **New**. Type your PIN2 code. Press the **Menu** key. Type a name and a phone number. Press the **Menu** key. Click **Save**. Change a contact in your fixed dialing list 1.

2. 3. 4. 5. 6. 7. 8. 9. 10. From the **Home** screen, press the **Send** key.

Press the **Menu** key. Click **Options**. Click **FDN Phone List**. Highlight a contact. Press the **Menu** key.

Click **Edit**. Change the contact information. Press the **Menu** key. Click **Save**. Delete a contact from your fixed dialing list 1.

2. 3. 4. 5. 6. 7. From the **Home** screen, press the **Send** key. Press the **Menu** key. Click **Options**. Click **FDN Phone List**.

Highlight a contact. Press the **Menu** key. Click **Delete**. 34 *User Guide Phone Smart dialing About smart dialing You can change smart-dialing options to specify a default country code and area code for phone numbers. If you specify a default country code and area code, when you make calls, you only need to dial a country code and area code when the codes differ from the codes that you specified in the smart-dialing options. In the smart-dialing options, you can also specify the main phone number for an organization that you call frequently. If you specify a phone number for an organization, you can call a contact at the organization quickly by dialing the contact's extension only. Likewise, when you add a contact from the organization to your contact list, you only need to type the contact's extension. Set the default country code and area code 1. 2.*

3. 4. 5. 6. 7.

8. 9. From the **Home** screen, press the **Send** key. Press the **Menu** key. Click **Options**.

Click **Smart Dialing**. Set the **Country Code** and **Area Code** fields. If necessary, set the **Local Country Code** and **International Dialing Digits** fields. In the **National Number Length** field, set the default length for phone numbers in your country. Press the **Menu** key. Click **Save**. Note: When you calculate the default length for phone numbers, include your area code and local number, but do not include your country code or the **National Direct Dialing** prefix. Set options for dialing extensions 1. 2. 3.

4. 5. 6. 7. 8. 9. From the **Home** screen, press the **Send** key. Press the **Menu** key. Click **Options**. Click **Smart Dialing**.

In the **Number** field, type the main phone number for an organization. In the **Wait For** field, set how long your BlackBerry® device waits before dialing an extension. In the **Extension Length** field, set the default length for extensions. Press the **Menu** key. Click **Save**.

35 *User Guide Phone TTY support Depending on your wireless service provider, this feature might not be supported. About TTY support When you turn on TTY support and you connect your BlackBerry® device to a TTY device that operates at 45.45 bits per second, you can make calls to and receive calls from TTY devices. Your BlackBerry device is designed to convert received calls to text that you can read on your TTY device. If your TTY device is designed for use with a 2.*

5-mm headset jack, you must use an adapter accessory to connect your TTY device to your BlackBerry device. To get an adapter accessory that Research In Motion has approved for use with your BlackBerry device, visit [www.shopblackberry.com](http://www.shopblackberry.com). Turn on TTY support 1. 2. 3. 4. 5. 6.

7. From the **Home** screen, press the **Send** key. Press the **Menu** key. Click **Options**. Click **TTY**. Change the **TTY Mode** field to **Yes**. Press the **Menu** key. Click **Save**. A TTY indicator appears in the device status section of the screen. To turn off TTY support, change the **TTY Mode** field to **No**.

Hearing aid mode Depending on your device model, this feature might not be supported. About hearing aid mode In hearing aid mode, or telecoil mode, the magnetic signal of your BlackBerry® device is modified to an appropriate level and frequency response to be picked up by hearing aids that are equipped with telecoils. 36 *User Guide Phone Turn on hearing aid mode 1. 2. 3.*

4. 5. 6. 7. From the **Home** screen, press the **Send** key.

Press the **Menu** key. Click **Options**. Click **Hearing Aid Mode**. Change the **Mode Enabled** field to **Telecoil**. Press the **Menu** key. Click **Save**. The H-T telecoil indicator appears at the top of the **Home** screen. Multiple phone numbers About multiple phone numbers When you have multiple phone numbers associated with your BlackBerry® device, you can switch the phone number that you use as your active phone number. You have multiple phone numbers associated with your device if one of the following situations applies: · · · Your device uses a SIM card and your SIM card supports more than one phone number. Your wireless service provider has set up your device to support more than one phone number.

Your wireless service provider has provided you with a phone number, and your organization has provided you with a BlackBerry® MVS Client phone number. If your SIM card supports more than one phone number, you can make calls using your active phone number only, but you receive calls to all phone numbers. If you are already on a call, you receive calls to your active phone number only, and any calls that you receive to your other phone numbers receive a busy signal or are sent to voice mail. If your wireless service provider has set up your device to support more than one phone number, you can make calls and receive calls using your active phone number only. Any calls that you receive to your other phone numbers receive a busy signal or are sent to voice mail.

If your wireless service provider has provided you with a phone number, and your organization has provided you with a BlackBerry MVS Client phone number, you can make calls using your active phone number only, but you receive calls to all phone numbers. If you are already on a call, you can receive calls to all phone numbers. If your wireless service plan supports SMS text messaging and MMS messaging, the first phone number that appears in the drop-down list at the top of the screen in the phone application is the phone number that you use to send and receive SMS text messages and MMS messages. You can change call waiting, call forwarding, and voice mail options for each phone number associated with your device. Switch the active phone number 1.

From the **Home** screen, press the **Send** key. 37 *User Guide Phone 2. Click your phone number at the top of the screen. 3. Click the phone number that you want to set as the active phone number.*

Phone options Turn on dialing from the **Lock** screen 1. 2. 3. 4. 5.

On the **Home** screen or in a folder, click the **Options** icon. Click **Password**. Set the **Allow Outgoing Calls While Locked** field to **Yes**. Press the **Menu** key. Click **Save**.

Press the Menu key. 7. Click Save. To sort phone numbers or contacts by call logs again, change the Phone List View field to Call Log. 1. 2. 3.

4. 5. Hide or display your phone number when you make calls The wireless network can override the option that you choose. 1. From the Home screen, press the Send key.

2. Press the Menu key. 3. Click Options. 4.

Click General Options. 5. Perform one of the following actions: · To request that your phone number is hidden, change the Restrict My Identity field to Always. · To request that your phone number is displayed, change the Restrict My Identity field to Never. · To request that the network decide whether to hide or display your phone number, change the Restrict My Identity field to Network Determined. 6. Press the Menu key. 38 User Guide Phone 7. Click Save. Turn off the prompt that appears before you delete items You can turn off the prompt that appears before you delete messages, call logs, contacts, calendar entries, tasks, memos, or passwords.

1. On the Home screen, click an application icon. 2. In an application, press the Menu key. 3. Click Options. 4. If necessary, click General Options. 5. Change the Confirm Delete field to No.

6. Press the Menu key. 7. Click Save. Stop ending calls when you insert your device in the holster 1.

2. 3. 4. 5. 6.

7. From the Home screen, press the Send key. Press the Menu key. Click Options. Click General Options. Change the Auto End Calls field to Never. Press the Menu key. Click Save. Answer calls automatically when you remove your device from the holster 1. 2.

3. 4. 5. 6. 7. From the Home screen, press the Send key. Press the Menu key. Click Options. Click General Options. Change the Auto Answer Calls field to Out Of Holster.

Press the Menu key. Click Save. Reset a call timer A call timer provides the estimated duration of calls. For more information about the exact duration of a call, contact your wireless service provider. 1.

From the Home screen, press the Send key. 2. Press the Menu key. 3. Click Status.

4. Click Last Call or Total Calls. 5. Click Clear Timer. 6. Press the Menu key. 39 User Guide Phone 7. Click Save. Phone shortcuts Depending on the typing input language that you are using, some shortcuts might not be available. · · · · To change your ring tone, in the phone application, press the Menu key.

Click Set Ring Tone. To send an incoming call to voice mail when your BlackBerry® device is inserted in a holster, press and hold the Volume Down key on the right side of your device. To set up speed dial for a contact, in the phone application, press and hold a key. To insert a plus sign (+) when typing a phone number, press and hold 0. Phone troubleshooting I cannot make or receive calls Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network. · Verify that your wireless service plan includes phone or voice services. · If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing. · If you have traveled to another country and you have not changed your smart-dialing options, dial the full phone number, including the country code and area code, for your contact. · If you are not receiving calls, verify that call blocking and call forwarding are turned off. · Your device or your SIM card might support more than one phone number, even if you only have one phone number.

Verify that your phone number is set as your active phone number. · If you have more than one phone number associated with your device, verify that the phone number that you want to make calls from and receive calls to is set as your active phone number. Related topics Fixed dialing, 33 Call blocking, 32 Call forwarding, 30 Switch the active phone number, 37 My phone number appears as Unknown in the phone application If your BlackBerry® device uses a SIM card, try changing the phone number on your SIM card to change how your phone number appears in the phone application. On the Home screen or in a folder, click the Options icon. Click Advanced Options.

Click SIM Card. Highlight the phone number. Press the Menu key. Click Edit SIM Phone Number. Type your phone number.

Press the Enter key. 40 User Guide Phone I cannot check my voice mail Try performing the following actions: · If you have more than one phone number associated with your BlackBerry® device and you are trying to check your voice mail using a shortcut key, your device calls the voice mail access number for your active phone number. Check the voice mail for your alternate phone number. · You need a voice mail access number to check your voice mail. To obtain a voice mail access number, contact your wireless service provider or administrator. I cannot make calls using a voice command Try performing the following actions: · Verify that your BlackBerry® device is connected to the wireless network. · If you are using a Bluetooth® enabled device, such as a handsfree car kit or wireless headset, verify that the Bluetooth enabled device supports this feature and that you have paired the Bluetooth enabled device with your BlackBerry device. · Verify that your screen is unlocked. · Verify that the language that you use to say voice commands is the same as the voice dialing language that you have set in the language options. Certain languages might not be supported.

Related topics Change the voice dialing language, 187 Bluetooth technology, 204 I cannot change the number of times that my device rings Depending on your wireless service provider, you might not be able to choose the length of time that your BlackBerry® device rings before the call is picked up by voice mail. For more information, contact your wireless service provider. Some features are not available on my device The availability of certain features on your BlackBerry® device might be affected based on various items such as your device model and wireless service plan. If your email account uses a BlackBerry® Enterprise Server, your organization might not have set up some features or might prevent you from using some features or options. If an administrator has set an option for you, a red lock indicator appears beside the option field. For more information about the features that are available on your device, contact your wireless service provider or administrator, or visit [www.blackberry.com](http://www.blackberry.com).
