@@@@@When leaving the reception area of the tuned in traffic programme station while listening to a tape or after having turned down the volume completely, the system will automatically start searching for a new TA programme. If no such station is found within approximately 30 seconds, tape operation will be stopped and a warning beep will sound. @@@@@@After approximately 100 hours of use, dust particles collected on the playback head or roller may lead to tape run problems and sound distortions. Use a head cleaning tape to remove normal dirt build-up. For tougher cases, use a cotton swab (Q-Tip) soaked with alcohol. Do not attempt to clean by inserting a hard object into the player! Insert the tape with side A or 1 showing up, the open side facing to the right. Removing a tape · Press .

The cassette will eject. Adjusting the volume for traffic announcements and the warning beep This volume was preset at the factory. Starting and stopping Fast Forward button half-way. · press the 21 PORTUGUÊS ESPAÑOL SVENSKA Fast Forward NEDERLANDS ITALIANO The display shows "TAPE" while the tape is being played. FRANÇAIS ENGLISH DEUTSCH Tape operation Appendix Specifications Amplifier Output power: 2 x 10 W RMS .
