... 27 BT Drive Free 311 This Bluetooth hands-free system was developed specifically for users who want to use their cell phone while driving. The BT Drive Free 311 is equipped with an LCD display for the display of phone numbers or names of callers. The device supports voice output (text to speech) in 5 different languages as well as phone book synchronisation with cell phones. @@With the advanced CVC technology for echo cancelling and noise suppression, the BT Drive Free 311 offers excellent hands-free quality and ensures convenient and safe phone calls while driving. 16 Bluetooth technology Bluetooth™ is a registered trademark of Bluetooth SIG, Inc. Bluetooth is a wireless communication technology with short range. It enables wireless connections between all compatible portable and stationary communication devices.

The technology is based on a radio connection that ensures a fast and reliable transmission of voice and data information. Bluetooth refers to a worldwide standard for operating in the internationally recognised ISM frequency band (Industrial Scientific & Medical). Within the ISM band (2.4 GHz to 2.485 GHz), the Bluetooth transmission operates 1600 times per second between 79 different frequencies with a data transmission range of approx.

10 metres. Safety and general information Carefully read the operating instructions and follow the instructions. To avoid any damages and malfunctions, do not drop the device from an elevated height. Protect the device against humidity, water and other liquids. If the device should have been exposed to water, humidity or other liquids, do not use it since it may lead to damages of the device and to injuries from electrical shock or explosion.

Do not expose the device to extreme heat sources, such as direct sunlight. This could cause explosions as well as reduce the performance and/or service life of the battery. Do not make any changes or repairs to the device and do not attempt to disassemble it. (Particularly not on the battery since the risk of explosion exists.) It will immediately void the warranty. Do not place any heavy objects on the device. Use only the supplied charger. Repairs and service work may be performed only by a qualified service centre or the manufacturer. In case of extended non-use or thunderstorms, disconnect the device from the power supply. 17 ENGLISH Disposal notes Use the return and collection systems available to dispose of the old device.

Do not discard any batteries in the household trash; instead, return them to the corresponding collection sites. Scope of delivery The scope of delivery includes: BT Drive Free 311 Lithium-ion battery 12-volt DC vehicle charger adapter USB charger cable Operating instructions Mounting clip for the sun visor Installation at the sun visor Sun visor flipped up towards the vehicle roof. Sun visor flipped down towards the windshield. 18 Overview 1 2 6 7 8 3 5 10 Loudspeaker LCD display Increase volume (+) MF button (multifunction button) Decrease volume ( ) Mounting clip for the sun visor Charging socket (5-pin mini USB) MODE button Battery compartment Microphone Display symbols Volume display Incoming call Active call Device is switched on Device is in registration mode Connection with a cell phone Audio streaming connection for music playback Battery status 19 ENGLISH 4 9 Inserting the battery 2 3 1 4 5 Battery information The device is equipped with a lithium-ion battery. The battery is compatible with the Nokia battery BL-5B. The full performance of a new battery is not achieved until after two or three complete charging-discharging cycles. The battery can be charged and discharged several hundred times, but it loses its capacity over time. Disconnect the BT Drive Free 311 from the power supply as soon as the battery is fully charged, since overcharging would reduce the service life of the battery. A charged battery loses its capacity if it is not used. @@@@ Charge the battery completely before its first use.

@@@@@ Connect the vehicle charging adapter with the cigarette lighter. @@The complete charging of the battery takes approx. 3 hours. @@@@@@ You will hear an announcement in the selected language. @@@@@@ Hold the BT Drive Free 311 within range of a Bluetooth-ready cell phone; the distance should not exceed a metre.

The BT Drive Free 311 must be switched off. Hold the MF button pressed for at least 5 seconds until the display shows "Pairing" and a voice announcement is heard. The device is in registration mode. Activate the Bluetooth function of the cell phone and start the search for Bluetooth devices. (For further details, please read the operating instructions of your cell phone.)

After the search process, the display of the cell phone shows a list of devices. 22 Select "BT DF 311". If necessary, enter the PIN code "0000" and follow the instructions on the display of the cell phone. After successful pairing, the display of the BT Drive Free 311 shows "Paired" and you hear a voice announcement. (Note: The PIN code is preprogrammed and cannot be changed) After pairing, the cell phone automatically connects with the BT Drive Free 311. For some cell phones, you have to manually confirm the connection. @@Next, the BT Drive Free 311 changes to standby mode. Note: If the pairing

*cannot be completed within 2 minutes, the pairing mode is switched off and the display shows "Pairing fail". The BT Drive Free 311 then changes to standby mode without Bluetooth connection. Switch off the device and repeat the pairing.*

*Copying the phone book You can copy a single phone book entry or the phone book to the BT Drive Free 311. (Note: Not all cell phones support the transfer of the phone book.) Copying a phone book entry In standby mode, briefly press the MODE button. The display shows "Waiting", and you hear a voice announcement. Open the phone book of the cell phone. Select a contact for copying. Send the selected contact via Bluetooth to the device name "BT DF 311". The cell phone establishes a connection to the BT Drive Free 311 and copies the contact. Copying a phone book Connect the BT Drive Free 311 with the cell phone before copying the phone book. In standby mode, press and hold the MODE button for 4 seconds. The display shows "Download Start", and you hear a voice announcement.*

The transfer of the phone book starts. The number of transferred contacts is continuously shown on the display. After the transfer of the phone book is complete, the display shows "Completed" and you hear a voice announcement. No BT Drive Free 311 You can restore the original factory settings of the BT Drive Free 311.

In doing so, all paired cell phones, the phone book and the call list are deleted and English is set for voice announcements. In standby mode without Bluetooth connection, hold the buttons "+" and "" pressed at the same time for 5 seconds until the display shows "Erasing". The process starts and is completed once the display shows "Erased" and you hear a voice announcement. The BT Drive Free 311 automatically switches off. Fault removal If a connection between the BT Drive Free 311 and a cell phone cannot be established, observe the following: Ensure that the battery is charged.

Ensure that the Bluetooth function of the cell phone is activated. You find more detailed information in the operating instructions of the cell phone. Check whether the BT Drive Free 311 is connected with the cell phone. Ensure that the distance between the BT Drive Free 311 and a connected cell phone is less than 10 metres and no obstacles (such as walls or electronic devices) are located between the devices. Obstacles can interfere with the transmission or reduce the range. If these steps do not lead to a solution of the problem, remove the battery for several minutes. If need be, contact the Service Centre of your dealer. @@@@ For devices purchased outside the European Union, the warranty terms issued by our respective responsible domestic agency are valid. The warranty terms can be called up from [www.blaupunkt.com](http://www.blaupunkt.com).
