1. Switch on the radio. 2. Press the CDC button. The IDC A09 will then be set to play mode (at least one CD must be present in the changer). 3. Simultaneously press select/eject buttons 2+5 on the IDC A09 for at least 1 second and then release the buttons. The IDC A09 stops playing. The red LEDs of all select/eject buttons light up. 4.

Switch off the radio. 5. Switch on the radio again. The following appears briefly in the display: " CDC CODE " The display then changes to: " 0000 " 14 7. Once you have correctly entered the entire code, confirm your entry by pressing the ENT button.

The red LEDs of all select/eject buttons light up. Switch off the radio (do not switch it on again). The IDC A09's code is now deactivated. You may now remove the IDC A09. Decoding using a car radio that has a fixed code The master code is printed on your IDC A09 pass card.

1. Switch on the radio. 2. Press the CDC button. The IDC A09 will then be set to play mode (at least one CD must be present in the changer). DECODING (BEFORE REMOVAL) 3. Simultaneously press select/eject buttons 2+5 on the IDC A09 for at least 1 second and then release the buttons. The IDC A09 stops playing. The red LEDs of all select/eject buttons light up. 4.

Switch off the radio. 5. Switch on the radio again. @@@@The IDC A09's code is now deactivated. @@Press station button 2 three times. Press station

button 3 twice. Press station button 4 once. 7. Once you have correctly entered the complete numerical code, there are two possible ways of confirming your entry: a) on car radios that have an "OK button", confirm your entry by pressing this button, b) on car radios that do not have an "OK button", confirm your entry by pressing the search button " ".
