Manual abstract:

Always pass on the car sound system to third parties together with these instructions. In addition, observe the instructions of the devices used in conjunction with this car sound system. Observe the following notes about road safety: · Use your device in such a way that you can always safely control your vehicle. In case of doubt, stop at a suitable location and operate your device while the vehicle is standing. Always listen at a moderate volume to protect your hearing and to be able to hear acoustic warning signals (e. When changing the audio source), changing the volume is not audible. Do not increase the volume during this mute phase. Observe the following notes to protect yourself against injuries: · do not modify or open the device. The device contains a Class 1 laser that can cause injuries to your eyes. Do not increase the volume during mute phases, e.

Changing the volume is not audible during a mute phase. Do not increase the volume during mute phases, e. Use as directed This car sound system is intended for installation and operation in a vehicle with 12 V vehicle system voltage and must be installed in a DIN slot. observe the performance limits in the technical data. Repairs and installation, if necessary, should be performed by a specialist.

Installation instructions You may only install the car sound system yourself if you are experienced in installing car sound systems and are very familiar with the electrical system of the vehicle. For this purpose, observe the installation instructions at the end of these instructions. These instructions employ the following symbols: DANGER! Warns about high volume The CE mark confirms the compliance with EU directives. KG declares that the car sound systems Madrid 210 and San Francisco 310 comply with the basic requirements and the other relevant regulations of the directive 89/336/EEC and the car sound system Toronto 410 BT complies with the basic requirements and the other relevant regulations of the directive 1999/5/EC. The declaration of conformity can be found on the Internet under www.

@@@The car sound system is equipped with a detachable control panel (release panel) to protect your equipment against theft. in the delivery state , the control panel is in the supplied case. To start operating the radio after installation, you must first attach the control panel (see the section "Attaching the control panel" in this chapter). Always take the control panel with you when leaving the vehicle. The car sound system is worthless to a thief without this control panel. caution Damage to the control panel Never drop the control panel. Transport the control panel so that it is protected against impacts and the contacts cannot become dirty. Do not expose the control panel to direct sunlight or another heat source. Avoid direct skin contact with the control panel's electrical contacts. Do not dispose of your old unit in the household trash! Use the return and collection systems available to dispose of the old device.

The scope of delivery includes: 1 Car sound system 1 Operating/installation instructions 1 Case for the control panel 1 Support frame 1 Antenna connection adapter 1 Set of small parts Extended scope of delivery (only for 7 649 069 510/ U Push the control panel carefully into the left bracket until it clicks into place. removing the control panel u Press the button 1 to unlock the control panel. The left side of the control panel detaches from the device and is secured by the bracket against falling out. U Move the control panel slightly to the left until it disengages from the right bracket. U Carefully remove the control panel from the left bracket. Note: The car sound system automatically switches off as soon as the control panel is removed. U To switch off the device, press and hold down the On/Off button 3 for longer than 2 seconds. the car sound system switches off. Note: If you switch on the car sound system while the vehicle ignition is switched off, it automatically switches off after 1 hour to preserve the vehicle battery.

@@@@@ u Turn the volume control 4 to change the volume. @@While it is muted, the display shows "TELEPHONE". @@While it is switched low, the display shows "MUTE". @@The factory default of the reception area is "EUROPE". @@@@The demo mode shows the functions of the car sound system as scrolling text on the display.

By pressing any button, the demo mode is interrupted and you can operate the device. The demo mode can be switched on and off in the user menu (see the chapter "User settings", section "Making settings in the "VARIOUS" menu", menu item "DEMO MODE"). The Toronto 410 BT can be connected with suitable cell phones and MP3 players via Bluetooth®. This enables it to perform hands-free calling with the connected telephone (via the loudspeakers and the integrated microphone of the car sound system) and audio playback of MP3 files stored on the Bluetooth® device. Note: You can also connect an external microphone for hands-free calling (see the chapter "Installation instructions").

Many FM stations broadcast an RDS (Radio Data System) signal in addition to their programme in the reception area "EUROPE" that allows the following additional functions: · The car sound system recognises traffic announcements and news broadcasts and can automatically switch them through in other operating modes (e. Regional: At certain times, some radio stations divide their programme into regional programmes providing different content. If the REGIONAL function is activated, the car sound system changes only to those alternate frequencies on which the same regional programme is being broadcast. the functions RDS and REGIONAL are activated and deactivated in the user menu (see the chapter "User settings", section "Making settings in the "TUNER" menu", menu items "RDS" and "REGIONAL"). Note: If you adjust a different reception area than "EUROPE", RDS is automatically switched off. If you want to use radio stations with RDS features in your region, switch on RDS in the user menu. There are various ways of tuning into a station: Tuning into stations manually u Briefly press the / button 7 once or several times to incrementally change the frequency. Note: For the reception area "EUROPE": In the FM waveband, the next station of the broadcasting network is automatically tuned into if the RDS function is switched on. The radio tunes into the next receivable station. notes: · For the reception area "EUROPE": In the FM waveband, only traffic information stations are tuned into if the priority for traffic information () is switched on.

If PTY and RDS are switched off, you can also start station seek tuning by pressing the / button 7. Changing to the next station of the broadcasting network Note: This function requires that RDS is switched on and PTY is switched off (see the chapter "User settings", section "Making settings in the "TUNER" menu", menu items "RDS" and "PTY").

The following memory banks are available in the different reception areas: Region EUROPE USA THAILAND SOUTH AMERICA Memory banks FM1, FM2, FMT, MW, LW FM1, FM2, FMT, AM, AMT FM1, FM2, FMT, AM FM1, FM2, FMT, AM, AMT U Press the SRC button > repeatedly until the desired memory bank is displayed. Note: Up to 5 stations can be stored in each memory bank. The scan function is used to scan every receivable station of the current waveband. Note: You can adjust the scan time for each station (see the chapter "User settings", section "Making settings in the "VARIOUS" menu", menu item "SCAN TIME").

g. Attach the control panel. Instead of the arrow keys 7, you use the volume control 4 and the On/Off button 3 to select and confirm list entries: Function Selecting entries in lists Confirming entries Return to the higher level Browse mode / As soon as an external audio source, such as a portable CD/MiniDisc or MP3 player is connected to the front AUX-IN socket :, it can be selected with the SRC button >. You can enter an individual name for the AUX source that is shown on the display in AUX mode (see the chapter "User settings", section "Making settings in the "VARIOUS" menu", menu item "AUX EDIT").

You can play back an AUX source at the same time with one of the internal audio sources of the car sound system. Hence, you can play back the announcements of a navigation device connected to the front AUX-IN socket : via the loudspeakers of the car sound system while listening to the radio or a CD at the same time. In addition, you can adjust the volume levels of both audio sources to each other. For more details, please read the section "Making settings in the "VARIOUS" menu", menu items "AUX MIX" and "AUX MIX GAIN" in the chapter "User settings". Note: With activated fast browsing, you cannot change the volume in browse mode or mute the car sound system.

To do so, first exit the browse mode by pressing the button 1 LIST = or 2 ID3 = or starting the track playback. Thy settings of the car sound system. The factory settings are restored. You are returned to the VARIOUS menu to the "NORMSET" menu item. * Only in reception area "EUROPE" In the user menu, you can restore the original factory settings of the car sound system (see the chapter "User settings", section "Making settings in the "VARIOUS" menu", menu item "NORMSET"): For devices purchased outside the European Union, the warranty terms issued by our respective responsible domestic agency are valid.

The warranty terms can be called up from www. Information about the availability of this service in your country can be found at www. If you want to take advantage of this service, you may request a pick-up service for your car sound system via the Internet. Subject to changes Cela de la notice de montage qui se trouve à la fin de cette notice d'utilisation.
