Manual abstract:

@@@Do not modify or open the device. Do not expose the device to extreme temperatures (cold, heat, fire), e.g. in a parked car with direct sun exposure, to avoid the formation of condensate inside the device or overheating. Otherwise, the device or the battery could be deformed, ignite or explode. Notes: · Remove the Lucca from the power supply when you park your vehicle since the Lucca continues to use battery power and could deplete the vehicle battery. · Do not unplug the connector by pulling on the wire. The wire could be damaged. · Do not use strong detergents for cleaning the device.

@@@View the display only if you are in a safe travel situation! @@Follow the instruction of the Lucca only if circumstances and traffic regulations allow! Lucca will bring you to your destination even if you have to deviate from the planned route.

Notes: · Routes are best planned before starting your trip. If you want to enter a new route while on the road, head for the next parking or rest area. · If you did not understand the voice information or if you are not sure what to do at the next intersection, use the map or arrow display for quick orientation. Or you repeat the voice instruction by touching the bottom display bar in the map display. Notes for handling the CD/DVD The device is supplied with a CD/DVD that contains navigation software and map material.

To protect the CD/DVD against dirt and damage, observe the following notes: Store the CD/DVD in its case. Hold the CD/DVD only at the edge. Do not expose the CD/DVD and the case to direct sunlight. Use only a clean CD/DVD. If necessary, clean the CD/DVD with a soft, lint-free cloth from inside to outside.

Never clean the CD/DVD in a circular motion. Do not use any solvents, including on the printed side of the CD/DVD. 6 Safety notes \ Initial startup of the Lucca Disposal notes Do not dispose of your old unit in the household trash! Use the return and collection systems available to dispose of the old device. Do not discard any batteries in the household trash; instead, return them to the corresponding collection sites. Initial startup of the Lucca Lucca scope of delivery

The scope of delivery contains the following components: · Lucca · Suction cup holder with clamp · Battery charger · Charger cable for cigarette lighter · TMC line antenna · Operating instructions (short version) · Backup DVD Note: We recommend the use of original Blaupunkt accessories. Protective screen film Prior to the initial use, carefully remove the protective film from the display. Charging the battery The built-in battery allows for operating the Lucca battery-operated for up to 3 hours. The exact usage time is dependent upon the type of operation. The charge state indicator of the battery is located in the top display bar. The number of dark block segments on the battery symbol indicates the charge state of the battery (0 to 3 segments).

The symbols have the following meaning: The device is supplied by an external · power source. The device is supplied by its internal · battery. The charge state of the battery is sufficient. The device is supplied by its internal · battery. The charge state of the battery is low. Notes: · Use only original chargers for operating and charging the battery. · The battery is equipped with a protection that prevents overheating. For this reason, 7 Initial startup of the Lucca \ Installation in of the buttons to u scroll through the list. u Touch an entry directly to accept it. Additional buttons in lists: · Expand: Since the area of the display is limited, long entries are abbreviated.

Touch this button to display the complete entry. Keyboard If text entries are required (e.g. for the destination entry), a virtual keyboard appears on the display. You can perform all entries using your finger.

Only capital letters can be entered. This keyboard includes these keys: Delete last character Call up error-tolerant entry Entering blank spaces Call up alternate character keyboard (incl. special characters, unlaufs) Call up numeric keypad, e.g. to enter the house number Call up character keyboard Intelligent auto-completion function During the entry, the Lucca auto-completes characters as far as possible and offers only those characters on the keyboard that are logically possible.

Error-tolerant entry For city names, you can call up the error-tolerant entry if the exact spelling is not known: u Touch the symbol in the text entry. The error-tolerant entry is displayed. u Enter a city name and touch OK. A list with alternate city names is displayed. Buttons These buttons are located on many menus of the Lucca: Touch this button to return to the previous menu. Touch this button to change to the · next page in the menu. · Touch this button to obtain access to additional functions. 10 GPS info GPS info The GPS Info menu contains information about your current position and your current speed. In addition, you can view the strength of the GPS signals. GPS mode of operation GPS is based on a total of 24 satellites that are orbiting the earth and sending out signals.

The Lucca receives these signals and calculates its distance to the individual satellites from the delay times. It uses this information to derive its current geographic position and compares it with the map material. The supplied map material contains the geographic coordinates of points of interest, streets and cities that you can view on the display of the Lucca. Hence, the Lucca calculates the route to the destination you entered by using the information from the GPS satellites and the map material. The positioning requires signals from at least 3 satellites. Starting with the fourth one, it is possible to also determine height above mean sea level. The positioning is carried out with an accuracy to 3 metres. Since the positioning and position display is carried out once every second, you can view your movement on the map even without active route guidance. This menu contains this information: Latitude/Longitude: Current position in east longitude and north latitude Height: Current height above mean sea level Speed: Indicates the current speed of the vehicle Heading: Driving direction (reliable information after approx. 5 km/h) GPS Signal Quality: Signal strength of the visible GPS satellites.

The navigation requires signals from at least four satellites. Note: Heavily metal-evaporated windshields may present an obstacle to the GPS reception of the Lucca. If the GPS reception is insufficient for the navigation, you may attempt to install the Lucca at a different location in the vehicle. For this purpose, please read chapter "Route guidance", "Disturbed GPS reception". Displaying GPS info u Touch the symbol in the main menu of the Lucca.

The map is displayed. Touch the symbol. The Navigation menu is displayed.

[You're reading an excerpt. Click here to read official BLAUPUNKT TRAVELPILOT LUCCA 3.5 user guide](http://yourpdfguides.com/dref/2736564)

Touch the button. The display shows the second page of the menu.

Touch the symbol. The GPS Info menu is displayed. u u u 11 Performing basic settings Performing basic settings Before starting a route guidance, perform these basic settings: · Set the time zone of your position so that the correct arrival times are displayed during the navigation. · You should enter your home address to quickly navigate home from any location. · Activate the PIN query to lock out unauthorised persons from using the Lucca. u u Touch the symbol to switch between 24-hour display (check mark) and 12-hour display (no check mark). Touch the button to exit the menu again. Entering the home address u Touch the symbol in the main menu of the Lucca. The map is displayed. Touch the symbol.

The Navigation menu is displayed. Touch the symbol. The Settings menu is displayed. Adjusting the time zone u Touch the symbol in the main menu of the Lucca. The Settings menu is displayed. u u u Touch the symbol. The Destination Input menu is displayed. u Enter the address as described in the chapter "Entering a destination address". u Touch the OK button. The home address is saved. u u Activating the PIN query Touch the symbol. The Clock menu is displayed. The PIN query allows you to lock out unauthorised persons from using the Lucca. Hence, every time you switch on the Lucca, the PIN (Personal Identity Code) you configured for yourself is requested. The PIN can be changed at any time.

If you should forget the PIN, you can unblock the Lucca again with the PUK (Personal Unblocking Key) which you define yourself. The PUK cannot be changed. Note: During the PIN entry, you have only 3 attempts to enter the correct PIN or subsequently 3 attempts to enter the correct PUK. If you enter an incorrect PUK for the 3rd time, your device is permanently blocked and the Lucca must be returned via the Blaupunkt service. Touch the symbol. A list with available time zones is displayed. u Touch the time zone in the list that applies to your current location. Note: The selection is facilitated by the display of the capitols in the respective time zone. "GMT" stands for Greenwich Mean Time, the mean solar time at the Greenwich meridian without considering daylight savings time. Touch the symbol to activate (check u mark) or deactivate (no check mark) daylight savings time. Note: If the time is changed at your position or if you drive into a different time zone, you must adjust the corresponding settings. 12 Performing basic settings Configuring the PIN query Touch the symbol in the main menu u of the Lucca. The Settings menu is displayed. u Touch the symbol. The Anti-Theft Protection menu is displayed.

Touch the symbol. u The Anti-Theft PIN menu is displayed. u Follow the instructions and enter a self-selected PIN. u Touch the OK button. The initial configuration of the PIN is followed by a request to enter a PUK. The PUK is used to unlock the Lucca if you should forget the PIN. u Follow the instructions and enter a self-selected PUK. u Touch the OK button. To secure your PUK: u Register under <http://puk.blaupunkt.com> and follow the instructions. Locking/unlocking the Lucca Prerequisite: · You configured the PIN query. u In the Anti-Theft Protection menu, touch the symbol. Note: The symbol indicates the status (locked/unlocked). A PIN query is displayed. u Enter the PIN to lock or unlock the Lucca. Changing the PIN In the Anti-Theft Protection menu, u touch the symbol. The Anti-Theft PIN menu is displayed. u Follow the instructions and enter a new selfselected PIN. u Touch the OK button.

13 Navigation Navigation General notes about the navigation Caution: Do not operate the Lucca while driving to protect yourself and others against accidents! View the display only if you are in a safe travel situation! @@Follow the instruction of the Lucca only if circumstances and traffic regulations allow! Lucca will bring you to your destination even if you have to deviate from the planned route. Note: To be able to extensively use the navigation of the Lucca, perform the basic settings before the first navigation (ch. "Performing basic settings"). From the map, you can directly change to the navigation menu or the Map Settings menu. Touch the symbol. u The Navigation menu is displayed. u Touch the symbol. The Map Settings menu is displayed. The Slide Duration menu is displayed. To select the setting, touch an entry in the list. u Touch the symbol to show (check mark) or hide (no check mark) the path names of files. Removing the memory card u Exit the Multimedia menu. u Carefully push on the memory card in the card slot until it disengages. The memory card is ejected a little bit from the card slot and can be removed. 33 Data transfer Data transfer You can make additional road maps and media data (music files and image files) available to the Lucca via a memory card.

u u u Touch the symbol. The Navigation menu is displayed. Touch the symbol. The Settings menu is displayed. Preparing the memory card The Lucca supports SD/SDHC/MMC cards with a storage capacity of up to 4 GB. u Insert your memory card with the contacts to the front in the card slot until the card engages.

Note: Observe the marking at the slot. u Connect the Lucca with a computer using a USB cable. The computer recognises the Lucca as a card reader. The memory card is displayed as a drive.

Note: As an alternative, you can also transfer the data to the memory card using a card reader. Touch the symbol. A list of the available road maps is displayed. u Touch the desired road map in the list to select it. Using media files from the memory card In the Multimedia menu of the Lucca, you can play the following media files: · MP3, WAV, WMA and OGG for music files · JPG, BMP and GIF for image files u Copy the media files to the memory card.

[You're reading an excerpt. Click here to read official BLAUPUNKT TRAVELPILOT LUCCA 3.5 user guide](http://yourpdfguides.com/dref/2736564)
<http://yourpdfguides.com/dref/2736564>

u Start the multimedia application. (Ch. "Multimedia") The Lucca automatically finds the data on the memory card. Using road maps from memory card The road map of the country in which the Lucca was purchased is preinstalled in the memory of the Lucca. The enclosed DVD offers additional road maps depending on the device variant as well as an installation program to copy these road maps to your memory card.

To use an additional road map with the Lucca: u Copy the desired road map to your memory card using the installation program. u Insert the memory card with the contacts to the front into the card slot. Note: Observe the marking at the slot. u Switch on the Lucca. The road maps are automatically loaded from the memory card into the memory of the Lucca. Touch the symbol in the main menu u of the Lucca. The map is displayed. 34 Configuring Lucca Configuring Lucca The Lucca features two menus in which you can perform settings: · Device settings: The properties of the device are defined here. · Setting for the navigation: The properties of the navigation are defined here. · Map settings: Settings for the map view (ch.

"Working with the map", "Performing map settings"). u Touch the Brightness Day button to adjust the display brightness for day mode. u Touch the Brightness Night button to adjust the display brightness for night mode. u Touch the Switch Threshold button to increase or decrease the sensitivity of the automatic switching. Button sound Touch the symbol to activate (check u mark) or deactivate (no check mark) the sound when touching a button. Language In the Language menu, you can define the language in which the menus of the Lucca are displayed. The voice outputs also use the defined language, if available.

If the selected language is not available for the voice output, it is output in English. Touch the symbol. u A list with available languages is displayed. u Touch the language in the list that you want to use for menus and voice output. Clock In the Clock menu, you can select the time zone for your current position, adjust the daylight savings time and switch between 12-hour and 24-hour display. Only if you specified the correct time zone can the Lucca provide the correct arrival time during a route guidance. For further details, read the chapter "Performing basic settings", "Adjusting the time zone". Saving energy Touch the symbol to switch the energy-savings mode on (check mark) or off (no check mark).

If you activated the energy-savings mode, the display is switched darker after 1 minute of inactivity to consume less power. The Lucca does not change to energy-savings mode if it is supplied by an external power source or you are in navigation. 35 Device settings In the Settings menu of the Lucca, you can define settings for the following areas: · Display brightness · Button sounds (sound of the buttons) · Language · Clock · Saving energy · Theft protection The second page of the menu also contains the following settings: · Factory settings · Calibrating the touchscreen · Product information · Demo mode Touch the symbol in the main u menu. The Settings menu is displayed. u Touch the button to scroll in this menu.

If you performed changes to the settings: Touch the button to exit the menu. u Display brightness In the Display Brightness menu, you can set the display brightness for day and night mode. In addition, you can control the sensitivity of the light sensor for automatic day/night switching. Touch the symbol. u The Representation menu is displayed. / Configuring Lucca Theft protection In the Anti-Theft Protection menu, you can assign a PIN and a PUK to the Lucca to protect it against unauthorised use. The PIN can be changed at any time. Register under <http://puk.blaupunkt.de> to securely store your PUK.

For further details, read the chapter "Performing basic settings", "Activating the PIN query". Factory settings In the Factory settings menu, you can reset the navigation software to the factory settings. Note: If you reset the Lucca to the factory settings, your personal settings and stored destinations are deleted.

Touch the symbol on the second u page of the Settings menu. The Factory Settings menu is displayed. Touch the symbol to reset the settings to the factory settings. - or Touch the symbol to cancel the operation. u Calibrating the touchscreen You can recalibrate (align) the touchscreen if it responds imprecisely to touches. On the second page of the Settings u menu, touch the symbol to start the calibration. u Follow the instructions on the display to calibrate the touchscreen.

Product information u Touch the symbol on the second page of the Settings menu. Product information about the Lucca, such as the version of the map used and the navigation software, are displayed. Demo mode On the second page of the Settings u menu, touch the symbol to switch the demo mode on (check mark) or off (no check mark). If you activated the demo mode, the Lucca switches to demo mode after 5 minutes of inactivity. Settings for navigation You can perform settings of the Lucca in the navigation menu for the following areas: · Home address · Continuing the tour automatically · Selecting a dataset · POI note · Voice instructions · Units u Touch the symbol in the main menu of the Lucca.

The map is displayed. Touch the symbol. The Navigation menu is displayed. Touch the symbol. The Settings menu is displayed.

If you performed changes to the settings: Touch the button to exit the menu. u u Home address You should enter your home address to quickly navigate home from any location. For further details, read the chapter "Performing basic settings", "Entering the home address". Continuing a tour automatically For tours with several interim destinations, you can specify whether the next destination is automatically approached after reaching an interim destination or whether it will be approached only after confirmation. Touch the symbol to activate (check u mark) or deactivate (no check mark) the function. If you activate the function, the route guidance to every additional interim destination is automatically continued. If it is deactivated, a confirmation is displayed upon reaching an interim destination whether the route guidance to the next interim destination should be continued. Selecting a dataset In the Choose Dataset menu, you can call up the list of available road maps and select the desired road map. For further details, read the chapter "Data transfer". POI note If you are using your own POIs (points of interest), the Lucca can bring it to your attention in due time during a route guidance.

Note: The enclosed CD/DVD contains the PC tool with instructions to create your own POIs. Touch the symbol to activate (check u mark) or deactivate (no check mark) notes on the map and the warning beep.
