

@@2. Set the steam regulator (A) to the position. 3. Press the shot of steam button (L) on the handle repeatedly at intervals of 5 seconds. 6. Vertical steaming with shot of steam This can be used to remove creases from hanging clothes, curtains etc. It cannot be used on a synthetic setting for delicate items.

WARNING! Do not vertical steam while the item is being worn. Never spray or aim steam at people or animals! 1.

Make sure that there is water in the tank (F). 2. Set te temperature control (H) to the “•••” or „max“ position and the steam regulator (A) to the position. 3.

Hold the iron in an upright position about 15 cm away from the garment b the top of the handle (K) will flash when auto shut-off has been activated.

To switch the iron back on, move it gently from side to side. The light will stop flashing. Fabric protection soleplate cover (“protect”) The fabric protector is used for steam-ironing delicate garments at maximum temperature without damaging them. Use of the protector also does away with the need for a cloth to prevent shine on dark materials. @@@@To release the fabric protector, pull down on the clip at the rear and remove the iron.

10. Self Cleaning The self clean function helps remove lime scale that has built up around the steam valve. This should be performed once every 3 or 4 uses. 1.

@@2. Heat up the iron. @@@@@Nevertheless, the “anti-calc” cartridge cannot remove all of the scale that is produced naturally over time. 12. Anti-drip system (“drip stop”) The irons in this range are equipped with an anti-drip system. This will automatically stop the iron producing steam when the selected temperature setting is too low to prevent water from dripping out of the soleplate.

You may hear a clicking sound when this system is in operation. m ax . click m ax . The protective cover can be purchased from After-sales or the Bosch eShop.. Accessory code (After-sales) 464851 Name of accessory: Protect cover soleplate (Bosch e Shop) TDZ1510 .
