17 Index 19 Portal Integration Kit Installation Guide for BEA WebLogic 3 Contents 4 Portal Integration Kit Installation Guide for BEA WebLogic Welcome to the BusinessObjects Enterprise XI R2 Portal Integration Kit chapter 1 Welcome to the BusinessObjects Enterprise XI R2 Portal Integration Kit About this guide About this guide This guide provides information on installing and configuring the BusinessObjects Enterprise XI Release 2 (XI R2) Portal Integration Kit. Who should read this guide This guide is intended for administrators who are responsible for installing the BusinessObjects Enterprise XI R2 Portal Integration Kit. Familiarity with your Portal Server is beneficial, as is a working knowledge of Crystal Reports and BusinessObjects Enterprise. For more information about the BusinessObjects Enterprise XI R2 Portal Integration Kit, consult the BusinessObjects Enterprise XI R2 Portal Integration Kit User's Guide and the BusinessObjects Enterprise XI R2 Portal Integration Kit Administrator's Guide. Business Objects information resources For more information and assistance, see Appendix A: Business Objects Information Resources. This appendix describes the Business Objects documentation, customer support, training, and consulting services, with links to online resources. 6 Portal Integration Kit Installation Guide for BEA WebLogic Installing the BusinessObjects Portlet on a BEA WebLogic Server chapter 2 Installing the BusinessObjects Portlet on a BEA WebLogic Server Installation overview Installation overview Installing the BusinessObjects Enterprise XI R2 Portal Integration Kit includes the following activities: · · "Building the BusinessObjects Portlet" on page 10 "Creating a desktop to contain the BusinessObjects Portlet" on page 13 The portlets enable you to integrate the report-viewing and distribution features of BusinessObjects Enterprise. For more information about the BusinessObjects Enterprise architecture, see the "BusinessObjects Enterprise Architecture" chapter in the BusinessObjects Enterprise Administrator's Guide. Note: You must install the BusinessObjects Enterprise XI R2 Portal Integration Kit on the same machine as your Portal Server, and you must be logged on with sufficient privileges to perform this operation. System requirements For a list of system requirements, consult the Platforms.

txt file included with your product distribution. For additional important information that may pertain to your deployment, it is also strongly recommended that you consult the Release Notes included with your product distribution. In general, the following components must be installed and configured correctly before you install the BusinessObjects Enterprise XI R2 Portal Integration Kit: · · · BEA WebLogic Portal Server 8.1 SP3 BEA WebLogic Workshop 8.1 SP3 Microsoft Windows Server 2000 or 2003 (any edition). @@Configure web.xml. @@Close all open applications.
