**Manual abstract:**

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: · Reorient or relocate the receiving antenna. · Increase the separation between the equipment and receiver. · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. · Consult the dealer or an experienced radio/TV technician for help. **FCC WARNING** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. @@@@CASIO, INC. 570 MT. @@@@Unit 6, 1000 North Circular Road, London NW2 7JD, U.K. Important! Please keep your manual and all information handy for future reference.

IBM is a registered trademark of International Business Machines Corporation. Macintosh is a registered trademark of Apple Computer, Inc. **BEFORE USING THE CALCULATOR FOR THE FIRST TIME ONLY...**

This calculator does not contain any main batteries when you purchase it. Be sure to perform the following procedure to load batteries, reset the calculator, and adjust the contrast before trying to use the calculator for the first time. 1. Making sure that you do not accidentally press the o key, attach the case to the calculator and then turn the calculator over. Remove the back cover from the unit by pulling with your finger at the point marked . 2. Load the two batteries that come with calculator. · Make sure that the positive (+) and negative (-) ends of the batteries are facing correctly. 3. Remove the insulating sheet at the location marked "BACK UP" by pulling in the direction indicated by the arrow. 4. Replace the back cover and turn the calculator front side up, which should automatically turn on power and perform the memory reset operation. i 5. Press m. If the Main Menu shown to the right is not on the display, press the P button on the back of the calculator to perform memory reset.

P button 6. Use the cursor keys (f, or simply press c, d, e) to select the CONT icon and press w i to display the contrast adjustment screen. 7. Press d to make the figure on the screen lighter or e to make them darker. m to return to the main menu. 8. After getting the contrast the way you want it, press ii Handling Precautions · Your calculator is made up of precision components. Never try to take it apart. · Avoid dropping your calculator and subjecting it to strong impact. · Do not store the calculator or leave it in areas exposed to high temperatures or humidity, or large amounts of dust.

When exposed to low temperatures, the calculator may require more time to display results and may even fail to operate. Correct operation will resume once the calculator is brought back to normal temperature. · The display will go blank and keys will not operate during calculations. When you are operating the keyboard, be sure to watch the display to make sure that all your key operations are being performed correctly. · Replace both the main power supply and the memory back up batteries once every 2 years regardless of how much the calculator is used during that period.

Never leave dead batteries in the battery compartment. They can leak and damage the unit. · Keep batteries out of the reach of small children. If swallowed, consult with a physician immediately. · Avoid using volatile liquids such as thinner or benzine to clean the unit.

Wipe it with a soft, dry cloth, or with a cloth that has been dipped in a solution of water and a neutral detergent and wrung out. · In no event will the manufacturer and its suppliers be liable to you or any other person for any damages, expenses, lost profits, lost savings or any other damages arising out of loss of data and/or formulas arising out of malfunction, repairs, or battery replacement. The user should prepare physical records of data to protect against such data loss. · Never dispose of batteries, the liquid crystal panel, or other components by burning them. · When the "Low battery!" message appears on the display, replace the main power supply batteries as soon as possible. · Be sure that the power switch is set to OFF when replacing batteries. · If the calculator is exposed to a strong electrostatic charge, its memory contents may be damaged or the keys may stop working. In such a case, perform the All Reset operation to clear the memory and restore normal key operation. · Note that strong vibration or impact during program execution can cause execution to stop or can damage the calculator's memory contents. · Using the calculator near a television or radio can cause interference with TV or radio reception.

· Before assuming malfunction of the unit, be sure to carefully reread this manual and ensure that the problem is not due to insufficient battery power, programming or operational errors. iii Be sure to keep physical records of all important data! The large memory capacity of the unit makes it possible to store large amounts of data. You should note, however, that low battery power or incorrect replacement of the batteries that power the unit can cause the data stored in memory to be corrupted or even lost entirely. Stored data can also be affected by strong electrostatic charge or strong impact. In no event shall CASIO Computer Co., Ltd. be liable to anyone for special, collateral, incidental, or consequential damages in connection with or arising out of the purchase or use of these materials. Moreover, CASIO Computer Co., Ltd. shall not be liable for any claim of any kind whatsoever against the use of these materials by any other party.
