FEATURE CHART

1

Here are the features of your new refrigerator.

Take a moment to know all the features and convenience it was designed to provide. Numbers match those in the illustration on page 1.

- § **Ice Tray**
Fill tray $\frac{3}{4}$ full to allow expansion of water during freezing. Place tray in freezer chest. To release cubes, twist lid slightly.
- § **Removable Shelf**
Shelves can be removed by pulling forward. The shelf can be placed at your desirable position.
- § **Crisper**
May be used for fruit and vegetable storage. Both the crisper and its cover shelf are removable for easy cleaning.
- § **Egg Pocket**
Egg supporter in this pocket can be turned upside down. May be used for small size goods.
- § **No Frost**
No frost in freezing-room.
- § **Convertible Function**
This refrigerator is designed to convert the function. Refrigerator can be converted to refrigerator of "function off".

CAUTION:

1. Be sure to check with your voltage, before inserting the power supply cord into the socket.
2. Contact the earthing conductor to this unit with an attachment earthing screw.
3. Don't make it spill to this unit.
4. Don't work with flammable spray, such as painting, near this unit.
5. Don't put ignitable materials, such as either, benzine, L.P. Gas, alcohol, etc., into this unit.
6. Be careful of the leakage of any gas equipment near this unit.
7. Be sure not to hold to the door of this unit by children.
8. Be sure not to reinsert the power supply cord within 5 minutes after release it from socket. If not, a trouble may be occurred to compressor.

Manual abstract:

Take a moment to know all the features and convenience it was designed to provide. Numbers match those in the illustration on page 1. § Ice Tray Fill tray 3/4 full to allow expansion of water during freezing. Place tray in freezer chest. To release cubes, twist lid slightly. § Removable Shelf Shelves can be removed by pulling forward. The shelf can be placed at your desirable position. § Crisper May be used for fruit and vegetable storage. Both the crisper and its cover shelf are removable for easy cleaning. Simply slide forward to remove.

May be used for small size goods. § No Frost No frost in freezing-room. 2. Contact the earthing conductor to this unit with an attachment earthing screw. 3.

Don't make it spill to this unit. 4. Don't work with flammable spray, such as painting, near this unit. 5. Don't put ignitable materials, such as either, benzene, L

P. Gas, alcohol, etc., into this unit. 6. Be careful of the leakage of any gas equipment near this unit. 7. Be sure not to hold to the door of this unit by children. 8. Be sure not to reinsert the power supply cord within 5 minutes after release it from socket. If not, a trouble may be occurred to compressor.

() 7 1 2 ! F SHELF @ FREEZER TEMPERATURE CONTROLLER # ICE TRAY \$ ICE BOX % CHILLED TRAY ^ REFRIGERATOR TEMPERATURE CONTROLLER & LAMP * R SHELF (CRISPER COVER) CRISPER 1 FRONT GRILL 2 ADJUSTABLE FOOT 3 F POCKET 4 EGG POCKET 5 EGG SUPPORTER 6 R POCKET (SM) 7 R POCKET 1 2 HOW TO INSTALL Location Install refrigerator in a convenient location away from extreme heat and cold. Allow sufficient clearance between the refrigerator and side wall so the door will open for a fully usable interior. Refrigerator is not designed for recessed installation. METHODS OF SAFE INSTALLATION 1. SAFE INSTALLATION PLACE FOR YOUR REFRIGERATOR ¥ Place the refrigerator on hard and level floor. ¥ Place your refrigerator where there is no heat source nearby. High surrounding temperature will lower cooling efficiency and increases your electricity bill. ¥ Place the refrigerator in an area with low moisture. Splashing water or a high moisture area may cause a short circuit and make rusting easier. Leveling Level refrigerator so it rests solidly on the floor, without rocking.

There are two leveling glides, one at each front corner. Turn to the left to raise a corner, to the right to lower it. Use shims under rear corners, if necessary. § If you want, the refrigerator door to close when not held open, adjust glides so that the front of the refrigerator is raised. However, front corners must be level with each other, and rear corners with each other.

§ If you want the refrigerator door to remain motionless when open, adjust the leveling glides so that all four corners are level with each other. NO NO NOTE : Make sure all packing material is removed. @@@@Cleaners: The cleaners noted below are available. @@Exterior: Wipe with damp, sudary cloth, rinse and dry. For stubborn stains and for periodic waxing, use silicone wax.

@@@Magnetic Door Seals: Wash with warm sudsy water. @3 ¥ Avoid places that are exposed to smoke. @@@@¥ Level the refrigerator by using the adjustable foot. ¥ Install the parts to their own place. 3. @¥ Take food out of the refrigerator compartments. @CLEANING YOUR REFRIGERATOR HOW TO OPERATE 1. TEMPERATURE CONTROL Temperature is controlled automatically. @@@@PREPERATIONS FOR USING YOUR REFRIGERATOR 1. Please clean up each compartment of your refrigerator again.

2. Please place the accessories in place. 3. And then connect the power plug to power source. 4. Run 2 or 3 hours till the Temp. @@@@control dial of the freezing food compartment has ranging from "economic" to "MAX". Please set the position "MED" for normal use. The refrigerator temp. control dial has ranging from "MIN" to "MAX" and "off" position.

You can use this compartment as a refrigerator or off the function when you don't need such a large volumem as a refrigerator-in case of having too small food to stuff. 7 8 Water USE OF EACH COMPARTMENT CONTROL Each function is decided by setting the control knobs located in each compartment, and each function has the ranges represented as a word on the control dial. If the temperature of each compartment is MIN or if you want to MAX down the temperature of compartment, turn the control knob right to next. F: FREEZER R: REFRIGERATOR FUNCTION ! MED. Freezing WHAT TO DO.

.. When out of operating for a long time § Remove the power supply cord. § Dry your refrigerator, opening the door for 2-3 days. When you get ready to move.

§ Securely fasten removable interior parts (or move and package them separately). § Do not lay your refrigerator horizontally, or compressor may be damaged. When you need service: Before you calling for service check a few things noted below for yourself first. If refrigerator is not operating: § Is the power supply cord unplugged? § Is home fuse blown or circuit breaker off? If refrigerator is warmer than usual: § Has the door been open frequently or for a long period? § Is refrigerator overcrowded preventing good air circulation? § Is the hot thing stored without cooling? @@@@§ Are foreign objects behind the refrigerator? § Are dishes on refrigerator shelves vibrating? @MED.
