Manual abstract:

NOTE: Such a plug cannot be used for any other appliance and should therefore be properly disposed of and not left where children might find it and plug it into a supply socket - with the obvious consequent danger. We recommend the use of good quality plugs and wall sockets that can be switched off when the machine is not in use. @@@@Do not forget to tighten the mains lead clamp on the plug. @@@@After replacement of a fuse in the plug, the fuse cover must be refitted. If the fuse cover is lost, the plug must not be used until a replacement cover is obtained. @@Always state this colour when ordering a replacement fuse cover. Only 13amp replacement fuses which are asta approved to B. Warning - this appliance must be earthed .
