DN-HD2500

DENON comes from that same philosophy and passion leading the way and creating the path for DJ evaluation. That path has led to the DN-HD2500. A hard-drive based, professional media player and controller offering a total all-in-one "never center" that address and actually anticipates ever changing needs. Flexible and packed with features, the DN-HD2500 is built for any event where professional-quality and flawless performance is expected.

Advanced Features

*Internal 40GB Hard Disc Drive

The built-in 40GB HDD is large enough to store thousands of the most requested songs, allowing the DN-HD2500 to be used as a primary "plug and play" full-featured compact system or as a backup system for DJ's currently using laptops (C.P.S. System).

*External USB Drive Support

Supports multiple external USB mass storage class devices direct or via USB 2.0 hub (Sold separately). Connect and iPod Jump Drive and large USB Hard Drive for easy access to small or extensive MP3/WAV libraries. Up to 4 storage devices can be connected at once. Simple plug-in devices to obtain powerful on-board features such as, Instant Start, Seamless Looping Scratching and File Searching, just to name a few.

*DN-D4500 / DN-D4500 Drive Support

The most popular dual CD/MP3 players, the DN-D4000 and DN-D4500, are supported natively by the DN-HD2500 and can be easily upgraded. The DN-HD2500 acts as a controller and media center with CD media, internal HDD and external devices all available at your fingertips.

*4 Superb Built-in Effects

You can activate the Effect Function by selecting one of the 4 effects: Flanger, Filter (High-Mid-Low), Echo and worlds first Echo-Loop. Setting the mood on the dance floor and remixing live has been so easy.

*3 Platter Effects

Brake, Reverse and DUMP effects can be used for MP3 or CD audio discs.
