Enjoy music anytime, anywhere-wirelessly.

S-52

Bullet points

Easy to get started

With S-52, reaching out to your favorite music content is now as easy as turning on your favorite radio station.

Enjoy different types of music throughout your home.

- Listen to your music files stored in your PC or Mac wirelessly
- Listen to your internet radio wirelessly
- Listen to FM/AM radio

- Listen to DAB (S-GDAB)
- Listen to your portable player

Just plug and play your iPod®. Enjoy the full control of your iPod® with the friendly remote control unit.

• Listen to your CDs (S-52)
Feel the powerful bass you've never experienced from a system in this class. Your MP3 and WMA music files that you recorded on to CDs and CDRWs will also amaze you.

Smart Operation

- The built-in iPod® dock on top
- Friendly high-contrast graphic LCD
- Multi-task jog wheel on top
- Auto-lock set & adjust via internet
- Alarm 1 and Alarm 2 functions
eg. You want to wake up with music from your iPod® at 8am (Alarm 1) and you don't want to miss your favorite radio show at 11:30am (Alarm 2)
- Simple remote featuring direct source key section, playback key section, and browsing section

Smart Sound

• Powerful and dynamic sound reproduction
Even with its compact size, its dynamic sound is evident from the bottom to the top. Denon's experienced electronics engineering and laser technology make every thing all it is ever. Simply be impressed by the power with quality.

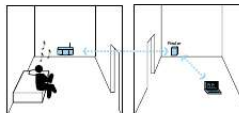

• High-quality sound reproduction from Denon
The same serious engineering with passion and know-how is put in the electronics to reproduce the best quality in class.

• High-quality sound tuned speakers
The S-52's built-in speakers were targeted to have internationally accepted sound reproduction excellent for music. Its mono-out allows the use of separate subwoofer of one's choice if ever required.

Smart Network

• network connectivity
The Wi-Fi certified S-52 allows you to reach more content of your choice from internet radio to music files in your PC or Mac without being wired. Just browse and play.

- Music content function
(AAC, MP3, WMA, WMA, FLAC (Free Lossless Audio Codec))
- Plays internet radio
