Manual abstract:

Do not insert objects through the slots. Take care not to spill liquid on the product. Use only the type of power source indicated on the product's label. Use only the power cord that comes with the product. Use of another cord may result in fire or electric shock. Printer and options each have power systems. There is a risk of electric shock unless all the power cables are unplugged during the maintenance. Except as specifically explained in your documentation, do not attempt to service the product yourself. Warning: Warnings must be followed carefully to avoid bodily injury. Caution: Cautions must be observed to avoid damage to your equipment.

Remove the paper basket and paper supports if they are installed. When you purchase Auto Take-up Reel Unit and SpectroProofer Mounter together, install SpectroProofer Mounter first. This equipment complies with Part 15 of the FCC Rules. If this equipment does cause interference to radio and television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures. If this equipment has more than one interface connector, do not leave cables connected to unused interfaces.

@@.
