For example, use the following procedure if the Rings to Answer is set to five, and Using control panel buttons in fax mode When entering dial numbers and characters in Fax mode, you can use the following buttons as well as the numeric buttons.

Entering dial number l, r Moves the cursor to the left or right. Setting Up Your Fax 5 English The answering machine is set to four. When the phone is answered before the fourth ring, or when the answering machine picks up on the fourth ring [Auto Answer/Space] Inserts a space or moves the cursor one character to the right. Deletes a character or moves the cursor one space to the left. Inserts a pause (-) and moves the cursor one character to the right. 2. Press l or r to select Fax Setting, and then press OK. [Speed Dial/Group Dial/Backspace] [Redial/Pause] 3. Press u or d to select Header, and then press OK. 4.

Select Fax Header, then press OK. You see the header information input screen. Entering characters l, r Moves the cursor to the left or right. [Auto Inserts a space or moves the cursor one character to the right. Deletes a character or moves the cursor one space to the left. Answer/Space] [Speed Dial/Group Dial/Backspace] 5. Use the numeric keypad with other buttons on the control panel to enter the header information (& "Using control panel buttons in fax mode" on page 5). You can enter up to 40 characters. 6. Press OK.

You return to Header. Setting up your phone number After entering header information, you can set up or change your phone number settings. 1. Press d once to select Your Phone Number from the Header menu, and then press OK. You see the phone number input screen. Creating header information Before sending or receiving faxes, you can create a fax header by adding information such as a phone number or name. Entering your header information 1. Press l or r to select F Setup and then press OK. 2. Use the numeric keypad with other buttons on the control panel to enter your phone number (& "Using control panel buttons in fax mode" on page 5).

You can enter up to 20 digits. 6 Setting Up Your Fax Note: When entering your phone number, the "\*" button does not work, and the "#" button functions as a "+" (international phone calls) button. Creating a new speed dial list 1. Press l or r to select F Setup and then press OK. 2. Press l or r to select F Setup, and then press OK. 3. Press OK to select Speed Dial Setup.

Press Home to return to the first screen. Setting up date and time If you have not yet set the date or time, or if you want to change the settings, you can change them using the Printer Setup menu. 1. Press l or r to select F Setup, and then press OK. 2. Press l or r to select Printer Setup and then press OK. 3. Press u or d to select Date/Time, and then press OK. 3. Press OK to select Speed Dial Setup.

4. Select Create, then press OK. You see the available speed dial entry numbers. 4. Use u or d to select the type of date display, and then press r. 5. Use the numeric keypad to change the date. 6. Use u or d to select a 12-hour or 24-hour display, and then press r. 7. Use the numeric keypad to change the time. 8. If you selected 12h, use u or d to select AM or PM. 9. Press OK.

You return to Date/Time. 10. Press Home to return to the first screen. Note: To select daylight savings time, set Daylight Saving Time to On. Setting up your speed dial list You can create a speed dial list of up to 60 fax numbers so you can quickly select them for faxing.

You can also add names to identify the recipients and print the speed dial list. 5. Select or type the speed dial entry number that you want to register. You can register up to 60 entries. 6. Press OK. 7. Use the numeric keypad with other buttons on the control panel to enter a phone number (& "Using control panel buttons in fax mode" on page 5). You can enter up to 64 digits. 8.

Press OK. 9. Use the numeric keypad with the other buttons on the control panel to enter a name to identify the speed dial entry (& "Using control panel buttons in fax mode" on page 5). You can enter up to 30 characters. 10. Press OK. You return to Create. 11. If you want to add another speed dial entry, press OK and repeat steps 5 through 10. 12.

Press Home to return to the first screen. Setting Up Your Fax 7 English Editing a speed dial entry on; on page 13). If you want to redial the last fax number you used, press [Redial/Pause] instead of entering a fax number. The last fax number is displayed on the LCD screen. Note: If you want to change Color Mode, press u or d to select Color or B&W.

1. Load A4-size plain paper into the sheet feeder. 2. When the telephone rings, lift the phone connected to the printer.

You see this screen. 5. Enter the other party's fax number. You can also use Speed Dial or Redial to enter fax numbers. 6. Press x Start to start the transmission. Selecting Send/Receive Settings This product is set up to send and receive faxes using the following default settings. Setting and Options Resolution Description Standard (default), Fine, Photo Sets the resolution when reading documents and for print outs. Contrast  $\pm 0$  (default), +4 to -4 Sets the contrast when reading documents and for print outs. Auto Reduction On (default), Off Indicates whether large received faxes are reduced in size to fit on A4-size paper or printed at their original size on multiple sheets.

3. Select Receive, then press OK. 4. Press x Start to receive the fax, and then put the phone back on the hook. 5. Press OK to print your faxes. Receiving faxes from fax information service (Poll to Receive) This function is used to gather information stored on another party's fax machine to your product. This is only available when you use the fax information service. 1. Load A4-size plain paper into the sheet feeder. 2. Press Home to select FAX, and then press OK. 3. Press x Menu. You see Fax Send Settings. Faxing Photos or Documents 13 English Setting and Options Last Transmission Report Description Off, On Error (default), On Send Indicates whether or when the product prints a report for outgoing faxes. Select Off to turn off report printing, select On Error to print reports only when an error occurs, or select On Send to print reports for every fax you send. Setting and Options V.34 Description On (default), Off Indicates the speed at which you transmit and receive faxes. On is 33.

6 Kbps and Off 14.4 Kbps. Rings to Answer Dial Mode Tone (default), Pulse This setting may not be displayed depending on the region. Indicates the type of phone system to which you have connected the product. 1, 2, 3, 4, 5, 6, 7, 8, 9 The default value varies by region. This setting may not be displayed or the range of values may differ depending on the region. Indicates the number of rings that must occur before the product automatically receives a fax. DRD All (default), Single, Double, Triple, Double & Triple This option may be On or Off depending on the region. Indicates the type of answer ring pattern you want to use to receive faxes. You must have set up your phone system to use different ring patterns to select an option other than All (or Off).

Dial Tone Detection On (default), Off When this is set to On, the product dials automatically when it detects a dial tone. It may not be able to detect a dial tone when a PBX (Private Branch Exchange) or a TA (Terminal Adaptor) is connected. In that case, set to Off. Printing Reports 1. Load plain paper into the sheet feeder.

2. Press Home to select Fax and then press OK. 3. Press x Menu. 4.

Press l or r to select Fax Report and then press OK. ECM On (default), Off Indicates whether you use Error Correction Mode to automatically request retransmission of fax data that is received with detected errors. 14 Faxing Photos or Documents 5. Press u or d to select one of these options: Fax Log Last Transmission Speed Dial List Group Dial List Reprint Faxes Protocol Trace 6. Press OK. 7. If you select anything other than Fax Log, go to Step 8. Press OK to print the Fax Log. Note: You can also check the Fax Log on the LCD Panel. Press d to select View, and then press l or r to flip between records.

8. Press x Start to print the report you selected. 9. Press Home to return to the first screen. Faxing Photos or Documents 15 English Solving Problems See your Basic Operation Guide or online User's Guide for help on using the printer with a computer. 2. Press r to select Restore Default Settings, and then press OK. 3. Press u or d to select one of these options: Reset Fax Send/Receive Settings Reset Fax Data Settings Reset Network Settings Reset All except Network & Fax Settings Reset All Settings 4. Press OK to restore the default settings you selected.

5. Press u to select Yes, and then press OK to restore the default settings. Error Messages Error Messages No Dial Tone Fax job incomplete. Solution Make sure the phone cable is connected correctly and the phone line works. Problems and Solutions Faxing problems If you have problems sending a fax, make sure the phone cable is connected correctly and verify that the phone line works by connecting a phone to it.

Also make sure that your recipient's fax machine is turned on and working. If you have problems receiving a fax, make sure paper is loaded correctly, the phone cable is connected correctly, and the phone line works. If you connected the product to a DSL phone line, you must install a DSL filter to the line or you will not be able to fax. Contact your DSL provider for the necessary filter. If your phone line has static or other noise problems, turn off the V.

34 setting and try faxing again (& "Selecting Send/Receive Settings" on page 13). If problems still exist, turn off the ECM (Error Correction Mode) setting and try faxing again. Note: To cancel restoring the default settings, select No and then press OK. 6. Press Home to return to the first screen. Restore default settings 1. Press l or r to select F Setup, and then press OK. 16 Solving Problems Appendix Important Safety Instructions Before using this printer, read and follow these safety instructions: Use only the power cord that comes with the printer. Use of another cord may cause fire or shock. Do not use the cord with any another equipment.

Make sure the power cord meets all relevant local safety standards. Use only the type of power source indicated on the label. Place the printer near a wall outlet where the power cord can be easily unplugged. Do not let the power cord become damaged or frayed. Make sure the total ampere rating of the devices plugged into an extension cord or a wall outlet does not exceed the ampere rating limit. Avoid locations that are subject to rapid changes in heat or humidity, shocks or vibrations, dust, or direct sunlight. Do not block or cover openings in the case or insert objects through the slots. @@ It will not operate properly if it is tilted or at an angle. @@ Do not open the scanner unit while copying, printing, or scanning. Do not touch the white flat cable inside the printer.

Do not spill liquid on the printer. @@ Doing so may cause fire. @@ Unplug the printer and refer servicing to qualified service personnel under the following conditions: if the power cord or plug is damaged; if liquid has entered the printer; if the printer has been dropped or the case damaged; if the printer does not operate normally or exhibits a distinct change in performance. When storing or transporting the printer, do not tilt it, stand it on its side, or turn it upside down; otherwise ink may leak from the cartridge.

*Be careful not to trap your fingers when closing the scanner unit.*

*Do not press too hard on the document table when placing the originals. Do not place anything except for originals in the automatic document feeder. Telephone Equipment Safety Instructions When using telephone equipment, you should always follow basic safety precautions to reduce the risk of fire, electric shock, and personal injury, including the following: Do not use the product near water. Avoid using a telephone during an electrical storm. There may be a remote risk of electric shock from lightning.*

*Do not use a telephone to report a gas leak in the vicinity of the leak. Keep this instruction manual handy for future reference. For New Zealand users: Appendix 17 English General warning The grant of a Telepermit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with the minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of Telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom's network services. 4. Press u to select Yes, and then press OK to restore all settings. Note: To cancel deleting the entry, select No and then press OK. All data stored in the memory is erased. Personal Information Stored in Memory This printer allows you to store names and telephone numbers in its memory which are saved even when the power is turned off.*

*We recommend that you use the following procedure to erase the memory if you give the printer to someone else or when you dispose of the printer. Erasing the memory 1. Press l or r to select F Setup and then press OK. 2. Press l to select Restore Default Settings and then press OK. 3. Press u or d to select Reset*

*All Settings, and then press OK. 18 Appendix Fax mode Menu List Fax menu for Fax mode and Fax Settings for Setup Mode.
