Unpacking the Printer Remove all tape and protective materials from the printer. Attaching the Printer Parts Insert the paper support into the slots at the rear of the printer. To attach the roll paper holder, follow the instructions below. 1. With the arrows on the roll paper holder adapter pointing towards the front of the printer, insert the adapter as far as it will go into the slot at the rear of the printer. 2. Insert the roll paper holder into the slots at the back of the roll paper holder adapter.

Note: You can temporarily mount the roll paper holder on the printer by inserting it into slots at the rear of the paper support adapter. You do not need to load roll paper at this time. Plugging in the Printer Follow the steps below to plug in your printer. 1. Make sure that the printer is turned off. It is off when the P power button protrudes slightly from the surface of the control panel. 2. Check the label on the back of the printer to make sure the voltage required by the printer matches that of the electrical outlet you will be plugging it into. Also, make sure that you have the correct power cable for your power source. c Caution: It is not possible to change the printer's voltage.

If the rated voltage and your outlet voltage do not match, contact your dealer for assistance. Do not plug in the power cord. 3. @@@@ Be sure to use the ink cartridges packed with your printer the first time that you install ink cartridges. Installing the Ink Cartridges Before installing the ink cartridges, note the following: w Warning: The ink cartridges are self-contained units. Under ordinary use, ink will not leak from a cartridge. If ink does get on your hands, however, wash them thoroughly with soap and water. @@ Follow the steps below to install the ink cartridges. 1.

@@ Lift up the ink cartridge clamps, as shown here. c c Caution: Do not move the print head by hand. Doing so may damage the printer. 3. Remove only the yellow tape from the ink cartridges. Caution: You must remove the yellow tape seals from the cartridges before installing them, or the cartridges will become unusable and you will be unable to print. If you have installed an ink cartridge without removing the yellow tape seal, you must remove that cartridge and install a new one. Prepare the new cartridge by removing the yellow tape seal before installing it in the printer. Do not remove the blue portion of the tape seal from the cartridges, or the cartridges may become unusable. Do not remove the tape seals from the bottom of the cartridges, or ink will leak out. Do not touch the green IC chip on the side of the cartridge. Doing so may prevent normal operation and printing. Do not remove the green IC chip from the side of the cartridge. If you install an ink cartridge without a chip, the printer may be damaged. Do not touch this part.
