@@(not incl. @@@@Appliance must be grounded for safe operation.) · Amps @ 120 Volts = 14.3 Amps · Always consult local and national electric codes. · Microwave can stand alone on countertop or be built in with optional 30" or 27" Trim Kit (ordered by individual part number) which includes Bottom Duct Assembly shipped in separate box. · Allow 21" minimum clearance for 90° door swing. · Minimum 20" deep oven cutout dimension is critical for proper installation for oven and faceplate to fit flush against cabinet front. · Consult local building code, in the event that cutout opening may be required to be enclosed with sides, ceiling and rear partition. · Full oven base of solid plywood or similar material required, capable of supporting 100 Lbs. · Can NOT be installed above any gas wall oven.

· Built-In Microwave is approved to be used in combination with any Frigidaire® Electric Single Wall Oven and/or Warmer Drawer. (Refer to model-specific Combination Installation Specification pages on web.) · When used in combination with another Frigidaire® built-in product, a minimum clearance of 2-7/8" required from bottom of Built-In Microwave cutout to top edge of companion product's faceplate, leaving a 2" visible gap between both product faceplates.

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.
