Manual abstract:

g. BIOS update) on our mainboards can be found on the Internet under: "http://www. @@@@ offenders will be liable for damages. @@Front panel Right Line / Headphone output Sense 1 return Jack sense Send Key Left line / Headphone output Sense 2 return Recovery inserted = The system starts from floppy and allows a BIOS recovery Password inserted = System- and BIOS Password are skipped when device is switched on 0 FAN monitored PSU** / CPU (FAN1) / FAN2 / FAN3 / FAN4 FAN controlled PSU** / CPU (FAN1) / FAN2 / FAN3 / FAN4 TEMP monitored CPU/ONB1/ONB2/HDD SmartCard SystemLock (USB / serial) Fujitsu Siemens Computers Keyboard Power Button Support List of special onboard features Silent Fan/Silent Fan LT/System Guard/Silent Drives Recovery BIOS/Desk Update/ Multi Boot/Safe Standby Logo Boot/Intel On Screen Branding/HDD Password ** not supported by standard Power Supplies Special Features Silent Fan System Guard Silent Drives Safe Standby Recovery BIOS Desk Update Multi Boot HDD Password Independent temperature related processor and fan supervision and control View and adjust Silent Fan Noise reduction for optical and hard disk drives Prevents data loss in S3 (Save-to-RAM) Restores a disrupted BIOS Simple driver update with DU CD Comfortable boot from any boot device Access protection for ATA5/ATAPI5 disk drives Information about boards Be sure to observe the following for boards with ESD: · You must always discharge static build up (e. The equipment and tools you use must be free of static charges. Remove the power plug from the mains supply before inserting or removing boards containing ESDs. Always hold boards by their edges. Special features Your mainboard is available in different configuration levels. Depending on the configuration, your mainboard is equipped with or supports special features. This manual describes the most important properties of this mainboard. The location of the ports and connectors of your mainboard is specified at the beginning of the manual. The components and connectors marked are not necessarily present on the mainboard. The location of the external ports of your mainboard is specified at the beginning of the manual. PS/2 keyboard port, purple Parallel port/Printer, burgundy LAN port (RJ-45) Audio input (Line in), light blue Audio output (Line out), light green Serial port, turquoise PS/2 mouse port, green Microphone port, pink USB - Universal Serial Bus, black @@Details are contained in your system's operating manual. Intel Core Duo with 800 or 1066 MHz front side bus in the LGA775 design (FMB06-65W) Intel Pentium 4 with 533/800/1066 MHz front side bus in the LGA775 design (Mainstream FMB 05A) Intel Celeron D with 533 MHz Front Side Bus in the LGA775 design A current list of the processors supported by this mainboard is available on the Internet at: "www.

Even minor soiling such as sweat from the skin can impair the processor's operation or destroy the processor. @@@@@@@@@@@@@@@@@@@Details are contained in the operating manual of your system. @@@@At least one memory module must be installed. Memory modules with different memory capacities can be combined. You may use only unbuffered 1.

8 V memory modules without ECC. @@@@@@@ to simplify equipping , the slots are colour coded. @@@@@@@Monofunctional expansions cards PCI/PCI Express expansion cards require a maximum of one interrupt, which is called the PCI interrupt INT A. Expansion cards that do not require an interrupt can be installed in any desired slot. Multifunctional expansion cards or expansion cards with integrated PCI-PCI bridge These expansion cards require up to four PCI interrupts: INT A, INT B, INT C, INT D. How many and which of these interrupts are used is specified in the documentation provided with the card. The assignment of the PCI interrupts to the IRQ Lines is shown in the following table: On board controller PCI INT LINE USB 1. First use PCI/PCI Express slots that have a single PCI IRQ Line (no IRQ sharing). If you must use another PCI/PCI Express slot with IRQ sharing, check whether the expansion card properly supports IRQ sharing with the other devices on this PCI IRQ Line. The drivers of all cards and components on this PCI IRQ Line must also support IRQ sharing.

Fujitsu Siemens Computers makes new BIOS versions available to ensure compatibility with new operating systems, new software or new hardware. In addition, new BIOS functions can also be integrated. @@Download the update file from our website to your PC. @@@@If you are using an external screen controller, you will find details of supported screen resolutions in the documentation supplied with the controller.
