THE MODULAR MULTI-TALENT

FUTRO S550-2
The small but powerful FUTRO S550 is your ideal client for server-based computing and virtual workplace solutions: for Windows Terminal services or as a Java-based network terminal. Low power consumption, no fans nor rotating drives make your system a reliable and quiet thin client.

ENVIRONMENTALLY FRIENDLY
Saves energy and reduces CO2 emissions
■ Only 40% of the weight of a PC and only 30% of its volume

RELAXED WORKING
Stress-free working environment
■ Flash memory and passive cooling technology

ENERGY EFFICIENCY
Saves energy and reduces CO2 emissions
■ Integrated system concept with power-saving components

SAFETY
Prevents unlicensed software installations and virus infections
■ Write-protected file system which can be written by the administrator as required

BACKPACK SOLUTION
Fewer cables and less space needed
■ The FUTRO S550 can be mounted behind the screen
