To minimize the risk of damage to your nüvi, avoid dropping your unit and operating it in high-shock and highvibration environments. Cleaning the Unit The nüvi is constructed of highquality materials and does not require user maintenance other than cleaning. Clean the outer casing of the unit (not the touchscreen) using a cloth dampened with a mild detergent solution, and then wipe it dry. Avoid chemical cleaners and solvents that can damage plastic components. Cleaning the Touchscreen Clean the touchscreen with a soft, clean, lint-free cloth.

Use water, isopropyl alcohol, or eyeglass cleaner, if needed. Apply the liquid to the cloth, and then gently wipe the touchscreen. Protecting Your nüvi · Do not store the nüvi where prolonged exposure to extreme temperatures can occur, because it can cause permanent damage. · Do not expose the nüvi to water.

Contact with water can cause this unit to malfunction. · Although a PDA stylus can be used to operate the touchscreen, never attempt this while operating a vehicle. My nüvi does not charge in my vehicle. @@Remain stationary for several minutes. Clean the suction cup and windshield with rubbing alcohol. Dry with a clean, dry cloth. Mount the suction cup as described on page 2. Check the fuse in the vehicle power cable (see page 48). @@Your nüvi can only charge between 32°F and 113°F (between 0°C and 45°C). If the nüvi is placed in direct sunlight or in a hot environment, it cannot charge. To maximize the time between charges, turn down the backlight.

Touch Tools > Settings > Display > Brightness. Hold your finger on the lower-right corner of the nüvi screen while it is turning on. Keep your finger pressed until the message appears. Touch Yes to clear all user data. 57 My battery does not stay charged for very long.

How do I clear all of my user data? nüvi 1100/1200/1300/1400 Series Owner's Manual Appendix Problem/Question My battery gauge does not seem accurate. The touchscreen is not responding to my touches. How do I know my nüvi is in USB mass storage mode? My computer never senses that the nüvi is connected. Solution/Answer Allow the unit to fully discharge, and fully charge it (without interrupting the charge cycle). Calibrate the touchscreen as described on pages 4445. When your nüvi is in USB mass storage mode, a picture of a nüvi connected to a computer is shown. Also, you should see two new removable disk drives listed in My Computer. 1. Unplug the USB cable from your computer. 2.

Turn off the nüvi. 3. Plug the USB cable into a USB port on your computer and into your nüvi. The nüvi automatically turns on and goes into USB mass storage mode. Ensure your nüvi is connected to a USB port and not a USB hub. 58 nüvi 1100/1200/1300/1400 Series Owner's Manual Appendix Problem/Question I cannot see any new removable drives in my list of drives. Solution/Answer If you have several network drives mapped on your computer, Windows can have trouble assigning drive letters to your nüvi drives. See your operating system Help file to learn how to map or assign drive letters. Save the hotel in your Favorites. See page 12 for more information on Favorites.

You can then search near the hotel for restaurants. 1. Touch Where To? > Near. 2. Select A Favorite Destination.

3. Select a destination. 4. Touch Points of Interest > Food and Drink. 5.

Select a category. Your nüvi searches for locations near the hotel. 6. Select a restaurant. Ensure you have a nüvi with Bluetooth. See page iv. Touch Tools > Settings > Bluetooth. Verify that the Bluetooth field is set to Enabled. Ensure your phone is turned on and is less than 33 feet (about 10 meters) away from your nüvi. See [www.garmin.com/bluetooth](http://www.garmin.com/bluetooth) for more help.
