2689 LMT user guide](http://www.garmin.com/?us?/?maps?/?numaps?/?lifetime?)
<http://yourpdfguides.com/dref/5743036>

? For the meaning of a product's useful life and for other important terms and conditions, go to www.garmin.com/?numapslifetime.

? 1 Go to www.garmin.com/?express.? 2 Follow the on-screen instructions.? NOTE: If you register the device, you can receive e-mail notifications when a map update is available.

? Updating Maps and Software with Garmin Express You can use Garmin Express software to download and install the latest map and software updates for your device.? Map updates provide the latest available mapping data to ensure your device continues to calculate accurate and efficient routes to your destinations.? Garmin Express is available for Windows and Mac computers.? 1 On your computer, go to www.garmin.com/?express.? 2 Press the mount onto the suction cup until it snaps into place.? 3 Press the suction cup to the windshield, and flip the lever back toward the windshield.? 4 Fit the tab on the top of the mount into the slot on the back of the device.? 5 Press the bottom of the mount into the device until it clicks.? 6 Plug the other end of the vehicle power cable into a power outlet in your vehicle.? Support and Updates Garmin Express? provides easy access to these services for Garmin devices.? Some services may not be available for your device.? ? Product registration ? Product manuals ? Software updates ? Map updates ? Vehicles, voices, and other extras 2 Select an option: ? To install on a Windows computer, select Download for Windows.? ? To install on a Mac computer, select Mac Version.

? 3 Open the downloaded file, and follow the on-screen instructions to complete the installation.? 4 Start Garmin Express.? 5 Connect your Garmin device to your computer using a USB cable.? Setting Up Garmin Express 1 Connect the device to your computer using a USB cable.? 2 Go to www.garmin.com/?express.? 3 Follow the on-screen instructions.? nMaps Guarantee? Your device may be eligible for a free map update within 90 days of first acquiring satellites while driving.? Go to www.garmin.com/?numaps for terms and conditions.? Lifetime Subscriptions Some models include subscriptions to lifetime features.? For more information, go to www.garmin.com/?lmt.? LT: This model includes a lifetime traffic subscription and a traffic receiver.? Getting Started The Garmin Express software detects your device.? 6 Enter an email address for product registration (optional).? 7 Click save device.

? 1 8 Click check for updates.? A list of available map and software updates appears.? 2 Select an option: ? Use the slider bar to adjust the volume.? ? Select to mute the device.? ? Select for additional options.? 9 Select the updates to install.? 10 Click Install Now.? About Automatic Volume On devices with hands-free calling, automatic volume allows the device to adjust the volume level based on the background noise in the vehicle (Hands-Free Phone Calls).? Automatic volume control lowers the volume of the device when background noise is low and raises the volume level when background noise increases.? Enabling Automatic Volume Your device can increase or decrease the volume automatically based on the level of background noise.

? 1 Select Volume > .? 2 If necessary, select Automatic Volume.? 3 Select Enabled.? The Garmin Express software downloads and installs the updates onto your device.? Map updates are very large, and this process may take a long time on slower Internet connections.? Entering and Exiting Sleep Mode You can use sleep mode to conserve battery power when your device is not in use.? While in sleep mode, your device uses very little power and can wake instantly for use.? TIP: You can charge your device faster by putting it in sleep mode while charging the battery.? Press the power key .? Status Bar Icons The status bar is located at the top of the main menu.

? The status bar icons display information about features on the device.? You can select some icons to change settings or view additional information.? GPS signal status Bluetooth technology status (appears when Bluetooth is enabled) Current time Battery status Connected to Smartphone Link Temperature Viewing GPS Signal Status Hold for three seconds.? Turning Off the Device 1 Hold the power key until a prompt appears on the screen.? The prompt appears after five seconds.

? If you release the power key before the prompt appears, the device enters sleep mode.? 2 Select Off.? Battery Information After the device is connected to power, it begins to charge.? in the status bar indicates the status of the internal battery.? Setting the Time 1 From the main menu, select the time.

? 2 Select an option: ? To set the time automatically using GPS information, select Automatic.? ? To set the time manually, drag the numbers up or down.? Resetting the Device You can reset your device if it stops functioning.? Hold the power key for 12 seconds.? Acquiring GPS Signals To navigate with your device, you must acquire satellites.? in the status bar indicates the satellite signal strength.? Acquiring satellites can take several minutes.? 1 Turn on the device.? 2 Wait while the device locates satellites.? 3 If necessary, go outdoors to an open area, away from tall buildings and trees.

? Using the On-Screen Buttons ? ? ? ? ? Select to return to the previous menu screen.? Hold to quickly return to the main menu.? Select or to see more choices.? Hold or to scroll faster.? Select to see a menu of options for the current screen.? Using the On-Screen Keyboard See "Language and Keyboard Settings" to change the keyboard layout (Language and Keyboard Settings).? ? Select to delete a search entry.? ? Select to delete a character.? ? Select to change the keyboard language mode.? ? Select to enter special characters, such as punctuation marks.

? Getting Started Adjusting the Screen Brightness 1 Select Settings > Display > Brightness.? 2 Use the slider bar to adjust the brightness.? Adjusting the Volume 1 Select Volume.? 2 ? Select to change character capitalization.? 2 Select Searching Near.

? 3 Select an option.? Finding a Location by Browsing the Map Before you can find places included in the map data, such as restaurants, hospitals, and fuel stations, you must enable the map layer for places along the road (Customizing the Map Layers).? 1 Select View Map.? 2 Drag and zoom the map to display the area to search.? 3 If necessary, select , and select a category icon to view only a specific category of places.

? Location markers (or a blue dot) appear on the map.? 4 Select an option: ? Select a location marker.? ? Select a point, such as a street, intersection, or address location.? If necessary, select the location description to view additional information.? Locations The detailed maps loaded in your device contain locations, such as restaurants, hotels, auto services, and detailed street information.? You can use categories to browse for nearby businesses and attractions.? You can also search for addresses, coordinates, cities, and intersections.? Finding Locations Finding a Location by Category 1 Select Where To.?.? 2 Select a category, or select Categories.

? *Your Route on the Map* **NOTICE** The speed limit feature is for information only and does not replace your responsibility to abide by all posted speed limit signs and to use safe driving judgment at all times.? Garmin will not be responsible for any traffic fines or citations you receive for failing to follow all applicable traffic laws and signs.

? The route is marked with a magenta line.? A checkered flag marks your destination.? As you travel, the device guides you to the destination with voice prompts, arrows on the map, and directions at the top of the map.? If you depart from the original route, the device recalculates the route and provides new directions.? A data field displaying the current speed limit may appear as you travel on major roadways.

? *Navigation Starting a Route* 1 Search for a location (Locations).? 2 Select a location.? 3 Select Go!.? *Previewing Multiple Routes* 1 Search for a location (Finding a Location by Category).? 2 From the search results, select a location.? 3 Select Routes.? 4 Select a route.? *Changing the Route Calculation Mode* The route calculation is based on road speeds and vehicle acceleration data for a given route.? The calculation mode affects only automobile routes.? 1 Select Settings > Navigation > Calculation Mode.

? 2 Select an option: ? Select *Faster Time* to calculate routes that are faster to drive but can be longer in distance.? ? Select *Shorter Distance* to calculate routes that are shorter in distance but can take more time to drive.? ? Select *Off Road* to calculate point-to-point routes (without roads).? ? Select *Less Fuel* to calculate routes that are more fuefficient.? *Navigating Off Road* If you are not following roadways as you navigate, you can use *Off Road* mode.? 1 Select Settings > Navigation.? 2 Select Calculation Mode > Off Road > Save.? The next route will be calculated as a straight line to the location.? Using the Map 1 Select View Map.? 2 Select anywhere on the map.

? 3 Select an option: ? To zoom in or out, select or .? ? To switch between North Up and 3-D views, select .? ? To view specific categories, select .? *Adding a Point to a Route* Before you can add a point, you must be navigating a route.? 1 From the map, select > Where To?.

? 2 Search for a location.? 3 Select a location.? 4 Select Go!.? 5 Select Add to Active Route.? *Starting a Route to a Saved Location* 1 Select Where To? > Saved.

? 2 If necessary, select a category, or select All Saved Places.? 3 Select a location.? 4 Select Go!.? *Taking a Detour* Before you can take a detour, you must be navigating a route and you must add the change route tool to the map tools menu (Customizing the Map Tools).? You can take a detour for a specified distance along your route or detour around specific roads.? This is useful if you encounter construction zones, closed roads, or poor road conditions.? 1 From the map, select > Change Route.? 2 Select an option: ? To detour your route for a specific distance, select *Detour by Distance*.? ? To detour around a specific road on the route, select *Detour by Road*.? *Navigating to Locations Within a Venue* When navigating to a venue that contains more than one point of interest, the device lists additional points of interest located within the venue.

? 1 Search for a venue, such as a mall or airport.? 2 Select the venue.? A list of categories appears below the venue.? 3 Select a category.? 4 Select a point of interest, and select Go!.? *Exploring a Venue* You can view a list of all points of interest located within each venue.? @@@@2 Select a turn.? The details for the turn appear.? @@@@2 Select > Map.? ? @@@@From the map, select > Trip Data.

? @@@@1 Select View Map.? 2 Select > Trip Data.? 3 Select a trip data field.? 4 Select an option.? @@@@From the map, select to view the next turn on the map.

? @@@@1 Select Settings > Map & Vehicle > Map Layers.? @@@2 Select > Reset Field(s).? 3 Select an option: ? @@@? @@@? Select *Reset Max*.? Speed to reset the maximum speed.? ? @@@2 Select a tab.

? 3 Select a point of interest.? @@@1 From the map, select > Up Ahead.? 2 Select a service icon.? 3 Select .? 4 Select an option: ? @@@? To change a category, select the category.? *Using Suggested Routes* Before you can use this feature, you must save at least one location and enable the travel history feature (Device and Privacy Settings).? *Using the myTrends* feature, your device predicts your destination based on your travel history, the day of the week, and the time of day.? After you have driven to a saved location several times, the location may appear in the navigation bar on the map, along with the estimated time of travel, and traffic information.? *Navigation 6* Select the navigation bar to view a suggested route to the location.? *Customizing the Map* Customizing the Map Tools You can select the shortcuts that appear in the map tools menu.

? 1 Select Settings > Map & Vehicle > Map Tools.? 2 Select the map tools to include in the menu.? 3 Select Save.? *Viewing Current Location Information* You can use the *Where Am I?* page to view information about your current location.? This feature is helpful if you need to tell emergency personnel your location.? From the map, select the vehicle.? *Finding Nearby Services* You can use the *Where Am I?* page to find nearby services, such as fuel, hospitals or police stations.? 1 From the map, select the vehicle.? 2 Select a category.? *Customizing the Map Layers* You can customize which data appear on the map, such as icons for points of interest and road conditions.

? 1 Select Settings > Map & Vehicle > Map Layers.? 2 Select the layers to include on the map, and select Save.? *Getting Directions to Your Current Location* If you need to tell another person how to get to your current location, your device can give you a list of directions.? 1 From the map, select the vehicle.? 2 Select > Directions to Me.

? 3 Select a starting location.? 4 Select Select.? *Changing the Map Data Field* 1 From the map, select a data field.? **NOTE:** You cannot customize Speed.? 2 Select a type of data to display.

? *Changing the Map Perspective* 1 Select Settings > Map & Vehicle > Driving Map View.? 2 Select an option: ? Select *Track Up* to display the map in two dimensions (2D), with your direction of travel at the top.? ? Select *North Up* to display the map in 2-D with north at the top.? ? Select *3-D* to display the map in three dimensions.? 3 Select Save.? *Avoiding Road Features* 1 Select Settings > Navigation > Avoidances.? 2 Select the road features to avoid on your routes, and select Save.? *About Custom Avoidances* Custom avoidances allow you to avoid specific areas and sections of road.? You can enable and disable custom avoidances as needed.? *Safety Cameras* **NOTICE** Garmin is not responsible for the accuracy of or the consequences of using a custom point of interest or a safety camera database.

? **NOTE:** This feature is not available for all regions or product models.? Information about safety camera locations and speed limits is available in some areas for some product models.

[You're reading an excerpt. Click here to read official GARMIN NUVI 2689 LMT user guide](http://yourpdfguides.com/dref/5743036)
<http://yourpdfguides.com/dref/5743036>

? Go to www.garmin.com/safetycameras to check availability and compatibility, or to purchase a subscription or one-time update. You can purchase a new region or extend an existing subscription at any time. You can update safety cameras for an existing safety camera subscription by going to <http://my.garmin.com>. You should update your device frequently to receive the most up-to-date safety camera information.

? For some devices and regions, basic safety camera data may be included with your device. Included data does not include updates or a subscription. Next. 5 Select the lower-right corner of the area to avoid, and select Next. The selected area is shaded on the map.

? 6 Select Done. Avoiding an Area 1 Select Settings > Navigation > Custom Avoidances. 2 If necessary, select Add Avoidance. 3 Select Add Avoid Area. 4 Select the upper-left corner of the area to avoid, and select Avoiding a Road 1 Select Settings > Navigation > Custom Avoidances. 2 Select Add Avoid Road. 3 Select the starting point of the section of road to avoid, and select Next. 4 Select the ending point of the road section, and select Next. 5 Select Done. Disabling a Custom Avoidance You can disable a custom avoidance without deleting it. 1 Select Settings > Navigation > Custom Avoidances. 2 Select an avoidance. 3 Select > Disable. Traffic NOTICE Garmin is not responsible for the accuracy or timeliness of the traffic information. Traffic information may not be available in all areas or countries.

? For information about traffic receivers and coverage areas, go to www.garmin.com/traffic. A traffic receiver is included in some packages, built into either the vehicle power cable or the device, and is an optional accessory for all models. Traffic alerts appear on the map when there are traffic incidents along your route or in your area. 7 Deleting Custom Avoidances 1 Select Settings > Navigation > Custom Avoidances. 2 Select an option: ? To delete all custom avoidances, select . ? To delete one custom avoidance, select the avoidance, and select > Delete. Traffic ? You can receive traffic information through a traffic receiver or as a subscription service through Smartphone Link (Garmin Live Services). The device must be connected to Smartphone Link with an active traffic subscription to receive traffic information through Smartphone Link.

? The device must be connected to vehicle power to receive traffic information through a traffic receiver. The powered traffic receiver and the device may need to be in data range of a station transmitting traffic data to receive traffic information. You do not need to activate the subscription included with your device or traffic receiver. If your device includes an external traffic antenna, you should always leave the external antenna plugged in for the best traffic reception. the delay.

? You can choose whether to use alternate routes automatically, or upon request. See Traffic Settings for more information (Traffic Settings). Your device may route you through a traffic delay if a better alternative route does not exist. The delay time is added into your estimated time of arrival automatically. Taking an Alternate Route If you do not have your device set to use alternate routes automatically, you can manually start an alternate route to avoid a traffic delay.

? 1 While navigating a route, select > Traffic. 2 Select Alternate Route. NOTE: If a better alternative route does not exist, this option is not available, and On Fastest Route appears instead. Select Go!. 3 Receiving Traffic Data Using a Traffic Receiver NOTICE Heated (metallized) windshields could degrade the performance of the traffic receiver. Before you can receive traffic data using a traffic receiver, you must have a traffic-compatible power cable. If your device model includes lifetime traffic, you should use the vehicle power cable packaged with your device. If your device model does not include traffic, you must purchase a Garmin traffic receiver accessory. Go to www.garmin.com/traffic for more information. Your device can receive traffic signals from a station broadcasting traffic data. NOTE: In some areas, traffic information may be received from FM radio stations using HD Radio technology. 1 Connect the traffic-compatible power cable to an external power source. 2 Connect the traffic-compatible power cable to the device. When you are within a traffic coverage area, your device displays traffic information. About Traffic Cameras Traffic cameras provide live images of traffic conditions on major roadways and intersections. You can save cameras that you want to view regularly. Saving a Traffic Camera Before you can use this feature, you must subscribe to the photoLive service, and your device must be connected to a supported phone running Smartphone Link (Smartphone Link). This feature is not available in all areas.

? 1 Select Apps > photoLive. 2 Select Touch to Add. 3 Select a road. 4 Select an intersection. 5 Select Save.

? Viewing a Traffic Camera Before you can view a traffic camera, you must save a traffic camera (Saving a Traffic Camera). 1 Select Apps > photoLive. 2 Select a camera. Viewing Upcoming Traffic You can view traffic incidents coming up along your route or along the road on which you are traveling. 1 While navigating a route, select > Traffic.

? The nearest upcoming traffic incident appears in a panel on the right side of the map. Select the traffic incident to view additional details. 2 About Traffic Subscriptions You can purchase additional subscriptions or a renewal if your subscription expires. Go to <http://www.garmin.com/traffic>. Subscription Activation You do not need to activate the subscription included with your FM traffic receiver. The subscription activates automatically after your device acquires satellite signals while receiving traffic signals from the pay service provider. Viewing Traffic on the Map The traffic map shows color-coded traffic flow and delays on nearby roads. 1 From the main menu, select Apps > Traffic.

? 2 If necessary, select > Legend to view the legend for the traffic map. Viewing Traffic Subscriptions Select Settings > Traffic > Subscriptions. Adding a Subscription You can purchase traffic subscriptions for other regions or countries. 1 From the main menu, select Traffic. 2 Select Subscriptions > . 3 Write down the FM traffic receiver unit ID. 4 Go to www.garmin.com/fmtraffic to purchase a subscription and get a 25-character code. The traffic subscription code cannot be reused.

? You must obtain a new code each time you renew your service. If you own multiple FM traffic receivers, you must obtain a new code for each receiver. 5 Select Next on the device. 6 Enter the code. Traffic Searching for Traffic Incidents 1 From the main menu, select Apps > Traffic. 2 Select > Incidents. 3 Select an item in the list. 4 If there is more than one incident, use the arrows to view additional incidents.

? **Traffic on Your Route** When a traffic delay occurs on your route, an alert appears on the map, and the device calculates an alternate route to avoid it. 8 7
 Select Done. 3 Listen for the voice prompt, and speak the name of the location.

? **trafficTrends**? When the trafficTrends feature is enabled, your device uses historic traffic data to calculate more-efficient routes. NOTE: Different routes may be calculated based on traffic trends for the day of the week or the time of day. 4 Say the line number. 5 Say Navigate. Muting Instructions You can disable the voice prompts for voice command without muting the device. 1 Select Apps > Voice Command > . 2 Select Mute Instructions > Enabled.
 Disabling trafficTrends To prevent your device from recording or sharing traffic data, you must disable trafficTrends. Select Settings > Traffic > trafficTrends. Enabling Traffic You can enable or disable traffic data.

? When traffic data is disabled, the device does not receive traffic data, but it still avoids potentially congested areas in routes using the trafficTrends feature, if enabled (trafficTrends). 1 Select Settings > Traffic. 2 Select the Traffic check box. Disabling Voice Command You can disable voice command, which prevents you from accidentally activating voice command while speaking. 1 Select Apps > Voice Command > . 2 Select Voice Command > Disabled.
 Voice Control For regions where the Voice Command feature is unavailable, the Voice Control feature is activated. Voice Control allows you to use your voice to control the device. Before you can use the Voice Control feature, you must configure it for your voice. Voice Command NOTE: Voice command is not available for all languages and regions, and may not be available on all models.

? NOTE: Voice Activated Navigation may not achieve desired performance when in a noisy environment. Voice command allows you to use your device by saying words and commands. The voice command menu provides voice prompts and a list of available commands. Configuring Voice Control The Voice Control feature must be configured for a single user's voice and does not work for other users. 1 Select Apps > Voice Control.
 2 Follow the on-screen instructions to record commands for each voice control phrase. NOTE: You do not have to read the exact phrase on the screen. You may say an alternative command with the same meaning based on your preference. To use a voice control feature, you must say the command you recorded for the feature. Setting the Wakeup Phrase The wakeup phrase is a word or phrase you can say to activate voice command.

? The default wakeup phrase is Voice Command. TIP: You can reduce the chance of accidental voice command activation by using a strong wakeup phrase. 1 Select Apps > Voice Command > > Wake Up Phrase. 2 Enter a new wakeup phrase. The device indicates the strength of the wakeup phrase as you enter the phrase. Select Done. 3 Using Voice Control 1 Say the command you recorded for the Voice Control phrase. The voice control menu appears. 2 Follow the on-screen instructions. Activating Voice Command Say your wakeup phrase.

? The voice command menu appears. Voice Control Tips ? Speak in a normal voice directed at the device. ? Reduce background noise, such as voices, or the radio, to increase the accuracy of the voice recognition. ? Speak commands as they appear on the screen. ? Listen for a tone to confirm when the device successfully receives a command. Voice Command Tips ? Speak in a normal voice directed at the device. ? Reduce background noise, such as voices, or the radio, to increase the accuracy of the voice recognition. ? Speak commands as they appear on the screen. ? Respond to voice prompts from the device as needed. ? Increase the length of your wakeup phrase to reduce the chance of accidental voice command activation.
 ? Listen for two tones to confirm when the device enters and exits voice command. Hands-Free Phone Calls About Hands-Free Calling NOTE: Bluetooth wireless technology is not available on all models, or for all languages and regions. Hands-free calling is available on some models. Using Bluetooth wireless technology, your device can connect to your mobile phone to become a hands-free device. To determine whether your mobile phone with Bluetooth technology is compatible with your device, go to www.garmin.com/?bluetooth. Your phone may not support all of the hands-free phone features your device provides. 9 Starting a Route Using Voice Command You can say the names of popular, well-known locations. 1 Say your wakeup phrase (Setting the Wakeup Phrase).
 2 Say Find Place. Voice Command Enabling Bluetooth Wireless Technology 1 Select Settings > Bluetooth. 2 Select Bluetooth. Receiving a Call When you receive a call, select Answer or Ignore. Pairing Your Phone Before you can use hands-free calling, you must pair your device with a compatible mobile phone. 1 Place your phone and your Bluetooth device within 33ft. (10m) of each other. 2 On your device, enable Bluetooth wireless technology. 3 Select Settings > Bluetooth > Search for Devices. 4 On your phone, enable Bluetooth wireless technology.
 5 On your device, select OK. A list of nearby Bluetooth devices appears. 6 Select your phone from the list, and select OK. 7 If necessary, on your phone, confirm the device is allowed to connect. 8 If necessary, enter the device Bluetooth PIN into your phone. Using the Call History Your call history is loaded from your phone to the device each time your phone and the device connect. It may take a few minutes for the call history to be available. Some phones do not support this feature. 1 Select Apps > Phone > Call History. 2 Select a category.
 A list of calls appears, with the most recent calls at the top. 3 Select a call. Using In-Call Options While on a call, you can select in-call options from the map. To transfer audio to your phone, select . TIP: You can use this feature if you want to turn off your device and remain on the call, or if you need privacy.
 To use the dial pad, select . TIP: You can use this feature to use automated systems, such as voice mail. To mute the microphone, select . To hang up, select . Tips After Pairing the Devices ? After the initial pairing, the two devices can connect automatically each time you turn them on.
 ? When your phone is connected to your device, you are ready to receive voice calls. ? When you turn on the device, it tries to connect to the last phone to which it was connected. ? You might need to set your phone to connect to the device automatically when the device is turned on. Saving a Home Phone Number TIP: After you save a home number, you can edit the home number by editing ?Home? in your list of saved locations (Editing a Saved Location). 1 Select Apps > Phone > > Set Home Number. 2 Enter your phone number. 3 Select Done. Disconnecting a Bluetooth Device You can temporarily disconnect a Bluetooth device without deleting it from the paired devices list.

? The Bluetooth device can still connect to your nvi device automatically in the future.? 1 Select Settings > Bluetooth.

? 2 Select the device you want to disconnect.? 3 Clear the device check box.? Calling Home Before you can call home, you must enter a phone number for your home location.? Select Apps > Phone > Call Home.? Deleting a Paired Phone You can delete a paired phone to prevent it from automatically connecting to your device in the future.? 1 Select Settings > Bluetooth.? 2 Select the phone, and select Unpair device.? Using the Apps Using Help Select Apps > Help to view information about using the device.? Placing a Call Dialing a Number 1 Select Apps > Phone > Dial.? 2 Enter the number.

? 3 Select Dial.? Calling a Contact in Your Phone Book Your phone book is loaded from your phone to the device each time your phone and the device connect.? It may take a few minutes for the phone book to be available.? Some phones do not support this feature.? 1 Select Apps > Phone > Phone Book.? 2 Select a contact.? 3 Select Call.? Searching Help Topics Select Apps > Help > .? Smartphone Link Smartphone Link is a phone application that allows you to synchronize location data with your phone and access live information using your phone data connection.? Your device transfers data from Smartphone Link using Bluetooth wireless technology.

? Live information is available through free and subscription-based plans from Garmin Live Services (Garmin Live Services).? Saved locations and recently found locations are synchronized with your phone each time your device connects to Smartphone Link.? Calling a Location 1 Select Apps > Phone > Browse Categories.? 2 Select a point of interest.? 3 Select Call.? 10 Downloading Smartphone Link Smartphone Link is available for some smartphones.? Go to www.garmin.com/?smartphonelink or see the application store for your phone for compatibility and availability information.? Using the Apps Download Smartphone Link from the application store on your supported phone.

? See your phone owner's manual for information on downloading and installing applications.? 6 Follow the on-screen instructions.? About ecoRoute In some areas, before you can use ecoRoute? features, you must purchase an unlock code or an ecoRoute HD accessory.? Go to www.garmin.com/?ecoroute for more information.? The ecoRoute feature calculates the fuel economy and the fuel price of navigating to a destination, and offers tools for improving fuel efficiency.? The data provided by the ecoRoute feature is an estimate only.? The data is not actually read from the vehicle, unless you are using the ecoRoute HD accessory.? To receive more-accurate fuel reports for your specific vehicle and driving habits, calibrate the fuel economy (Calibrating the Fuel Economy).

? Connecting to Smartphone Link Before you can connect to Smartphone Link, you must download and install the Smartphone Link application on your phone.? 1 Start Smartphone Link on your phone.? 2 From your device, select Settings > Bluetooth.? 3 Select the Bluetooth check box.? 4 From your phone, enable Bluetooth wireless technology, and scan for nearby Bluetooth devices.

? See your phone owner's manual for more information.? 5 From your phone, select your device from the list of nearby devices.? 6 Follow the on-screen instructions on your phone and on your device to confirm the pairing request.? appears in the status bar on your device when Smartphone Link is connected.? ecoRoute HD Accessory When connected to the ecoRoute HD accessory, your device can receive real-time vehicle information, such as error messages, RPM, and battery voltage.

? Your device includes data read from the vehicle by the ecoRoute HD accessory when calculating ecoRoute data.? The ecoRoute HD accessory is compatible only with devices that have Bluetooth wireless technology.? Go to www.garmin.com/?ecoroute.? Sending a Location from Your Phone to Your Device Smartphone Link is registered as a navigation application on your phone.? 1 From your phone, select the button to start navigating to a location (see the owner's manual for your phone).? 2 From the application menu, select Smartphone Link.? The next time you connect your device to your phone, the location is transferred to the recently found items on your device.? Setting Up the Vehicle The first time you use the ecoRoute features, you must enter vehicle information.

? 1 Select Apps > ecoRoute.? 2 Follow the on-screen instructions.? Disabling Calls While Connected to Smartphone Link While the device is connected to the phone and receiving Garmin Live Services, you can disable hands-free calling.? 1 Select Settings > Bluetooth.? 2 Select your phone.? 3 Clear the Phone calls check box.? Changing the Fuel Price 1 Select Apps > ecoRoute > At the Pump.? 2 Enter the current price of fuel, and select Next.? 3 Select Yes.? Calibrating the Fuel Economy You can calibrate the fuel economy to receive more-accurate fuel reports for your specific vehicle and driving habits.

? You should calibrate when you fill up your fuel tank.? 1 Select Apps > ecoRoute > At the Pump.? 2 Enter the current fuel price.? 3 Enter the amount of fuel the vehicle has used since the last time the fuel tank was filled.? 4 Enter the distance you have traveled since the last time the fuel tank was filled.? 5 Select Next.? The device calculates the average vehicle fuel economy.? Select Save.? 6 Garmin Live Services Before you can use Garmin Live Services, your device must be connected to a supported phone running Smartphone Link (Connecting to Smartphone Link).? Connecting to Smartphone Link provides access to Garmin Live Services.

? Garmin Live Services provides free and subscriptionbased plans to view live data on your device, such as traffic conditions and weather.? Some services, like weather, are available as separate apps on your device.? Other services, like traffic, enhance the existing navigation features on your device.? Features that require access to Garmin Live Services display the Smartphone Link symbol and appear only when the device is connected to Smartphone Link.? About ecoChallenge ecoChallenge helps you maximize the vehicle fuel economy by scoring your driving habits.? The higher your ecoChallenge scores, the more fuel you have saved.? The ecoChallenge collects data and calculates a score whenever your device is moving and in Automobile transportation mode.? Viewing ecoChallenge Scores Select Apps > ecoRoute > ecoChallenge.? About the ecoChallenge Score Acceleration: Displays your score for smooth and gradual acceleration.? You lose points for rapid acceleration.

? Braking: Displays your score for smooth and gradual braking.? You lose points for hard braking.? Subscribing to Garmin Live Services Before you can subscribe to Garmin Live Services, you must install the Smartphone Link app on your phone.? 1 Start the Smartphone Link app on your phone (Connecting to Smartphone Link).? 2 Select My Account.? A list of services and subscription prices appears.

[2689 LMT user guide](http://yourpdfguides.com/dref/5743036)

<http://yourpdfguides.com/dref/5743036>

? 3 Select a service.? 4 Select the price.? 5 Select Subscribe.? Using the Apps 11 Overall: Displays an average of the speed, acceleration, and braking score. ? Speed: Displays your score for driving your vehicle at the optimal speed for conserving fuel.? Resetting the ecoChallenge Scores 1 Select Apps > ecoRoute > ecoChallenge.? 2 Select > Reset.? Checking in with Foursquare Before you can check in with Foursquare, you must connect to a supported phone running Smartphone Link and log in to your Foursquare account.? 1 Select Apps > Foursquare > Check In.

? 2 Select a point of interest.? 3 Select > Check In.? Viewing Fuel Economy Information 1 Select Apps > ecoRoute > Fuel Economy.? 2 Select a section of the graph to zoom in.? Mileage Reports Mileage reports provide the distance, the time, the average fuel economy, and the fuel cost of navigating to a destination. ? A mileage report is created for every route that you drive.? If you stop a route on your device, a mileage report is created for the distance you traveled.? Viewing a Mileage Report You can view saved mileage reports on the device.? TIP: You can connect the device to your computer and access mileage reports in the Reports folder on the device.? 1 Select Apps > ecoRoute > Mileage Report.? 2 Select a report.? Searching Foursquare Points of Interest You can use the search bar to search for locations by entering a category, brand name, address, or city name.? 1 Select Apps > Foursquare.? 2 Select Enter Search in the search bar.? 3 Enter all or part of the search term.

? Suggested search terms appear below the search bar.? 4 Select an option: ? To search for a type of business, enter a category name (for example, "movie theaters").? ? To search for a business name, enter all or part of the name.? 5 Select an option: ? To search using a suggested search term, select the term.? ? To search using the text you entered, select .? 6 If necessary, select a location.? Resetting ecoRoute Information 1 Select Apps > ecoRoute > Vehicle Profile.? 2 Select Reset.? Driving Tips ? Drive the speed limit.? In most vehicles, you will achieve optimal fuel economy between 45mph and 60mph. ? ? Drive a consistent speed.? ? Brake and accelerate gradually and consistently.? ? Avoid stop-and-go traffic and rush hour.? ? Do not rest your foot on the brake pedal.? ? Use the cruise control.

? ? Turn your vehicle off instead of idling for temporary stops.? ? Combine small trips into one longer trip with multiple stops.? ? Turn off the air conditioner and open your windows, unless you are traveling at high speeds on the highway.? ? Tighten your gas cap.? ? Park in the shade or in the garage. ? ? Unload excess weight.? Remove unneeded items from your vehicle.? ? Avoid carrying items on your roof.? Remove rooftop carriers and removable racks when not in use.? ? Maintain the recommended tire pressure.? Check tire pressure regularly and before long trips.? ? Keep your vehicle well-tuned, and follow the vehicle manufacturer's recommended maintenance intervals.? ? Change your oil, oil filters, and air filters regularly.? ? Use the lowest recommended suitable grade of fuel.? Use biofuels when feasible, such as E85 and biodiesel.

? Viewing myGarmin Messages Before you can use this feature, your device must be connected to a supported phone running Smartphone Link (Connecting to Smartphone Link).? This feature is not available in all areas.? You can view messages from myGarmin, such as notifications for software and map updates.? 1 Select Apps > myGarmin.? If you have unread messages, the number of unread messages appears on the myGarmin icon.? 2 Select a message subject.? The full message appears.? Viewing the Weather Forecast Before you can use this feature, your device must be connected to a supported phone running Smartphone Link (Connecting to Smartphone Link).? This feature is not available in all areas.? 1 Select Apps > Weather.

? 2 Select a day.? The detailed forecast for that day appears.? Viewing Weather Near a Different City 1 Select Apps > Weather > Current Location.? 2 Select an option: ? To view weather for a favorite city, select a city in the list.? ? To add a favorite city, select Add City, and enter a city name. ? Viewing the Weather Radar Before you can use this feature, you must purchase Advanced Weather service using Smartphone Link.? You can view an animated, color-coded radar map of current weather conditions, as well as a weather icon on the map.? The weather icon changes to show weather in the vicinity, such as rain, snow, and thunderstorms.? 1 Select Apps > Weather.? 2 If necessary, select a city.

? Using the Apps Foursquare Foursquare is a location-based social networking application for mobile devices.? You can connect to your Foursquare account through Smartphone Link to check in at any location and view thousands of unique points of interest.? 12 3 Select > Weather Radar.? Viewing Weather Alerts Before you can use this feature, you must purchase Advanced Weather service using Smartphone Link.? While you are traveling with your device, weather alerts may appear on the map.? You can also view a map of weather alerts near your current location or near a selected city.? 1 Select Apps > Weather.? 2 If necessary, select a city.? 3 Select > Weather Alerts.? ? Select Delete Trip.

? ? Select Optimize Order to arrange the stops on your trip in the most-efficient order.? Viewing Previous Routes and Destinations Before you can use this feature, you must enable the travel history feature (Device and Privacy Settings).? You can view your previous routes and places you have stopped on the map.? Select Apps > Where I've Been.? Checking Road Conditions Before you can use this feature, you must purchase Advanced Weather service using Smartphone Link.? 1 Select Apps > Weather.? 2 If necessary, select a city.? 3 Select > Road Conditions.? Data Management You can store files on your device.? The device has a memory card slot for additional data storage.

? NOTE: The device is not compatible with Windows 95, 98, Me, Windows NT, and Mac OS 10.23 and earlier.? Planning a Trip You can use the trip planner to create and save a trip with multiple destinations.? 1 Select Apps > Trip Planner.? 2 Select New Trip.

? 3 Select Select Start Location.? 4 Search for a location (Finding a Location by Category).? 5 Select Select.? 6 To add additional locations, select .? 7 Select Next.

? 8 Select Save.? 9 Enter a name, and select Done.? File Types The device supports these file types.? ? Maps and GPX waypoint files from myGarmin? mapping software, including MapSource, BaseCamp?, and HomePort? (Custom Points of Interest).? ? GPI custom POI files from Garmin POI Loader (Installing POI Loader).? About Memory Cards You can purchase memory cards from an electronics supplier, or purchase pre-loaded Garmin mapping software (www.garmin.com).? In addition to map and data storage, the memory card can be used to store files such as maps, images, geocaches, routes, waypoints, and custom POIs.
