....10 (3) English Advantages of this Model 1.

This model is easy to operate. The electronic control panel has a timer, thermostat, three speed cooling speeds, three fan speeds and one speed dehumidification function (dry). 2. This portable air conditioner does not require water to be added. 3.

The unit has a unique design which evaporates the water. Therefore no condensation tank is necessary, thus avoiding you to have to wake up in the middle of the night to empty the bucket and turn on the unit. 4. @5. @6. The filter screen is designed for easily accessibility of the filter. 7. @@Connect exhaust hose to the back of the unit. Extend hose to desired length and connect with window kit. @@@2.

@@@3. @@Plastic panel - 1 piece 2. Nozzle Fitting - 1 piece 3. Screws - 4 pieces 1 2 3 (6) English Operation 1. 2. 3. 4. 5. 6. 7.

8. @@This is for the oils and the coolants to settle and level off. @@Use an 115v 15 amp outlet for the air conditioner. @@Use a dedicated line for this air conditioner. @@ex.

baseboard heaters, stoves, etc. Operate on a flat surface only. @@Keep unit at least 1 foot away from the wall. @@NOTE: Do not use unit without filter.

@@The temperature read out on the LED will be the room temperature.

@@@The temperature can be raised or lowered in the cool or dry mode. @@@@Note that the unit has to be plugged in to an electrical outlet for the timer to operate. To auto shut-off the unit press the time/set key while the unit is running and then press the + or - key to adjust the off time. The auto shut-off switch operates in all 3 modes: Cool, Dry & Fan. NOTE: The temperature can be set between 60°F to 89°F. (7) English Product Specification Voltage and Frequency Input Power Cooling Capacity Moisture Removal (pints/hr) Coolant Timer Operating Temperature Range Unit Dimensions (WxDxH) (inches) Net Weight lbs. approximate Power Cord Exhaust Hose 115V / 60Hz 900 W 9000 BTU 3.8 R22 / 0.99 lbs 12 Hours 64.4°F - 100°F 18 9/16 x 14 1/16 x 34 3/16 79.

4 lbs. 84" 4 Feet Care and Cleaning Guide · Always unplug your air conditioner before cleaning. · Air filter needs to be cleaned at least once a week for your unit to operate at optimum efficiency. The filter can be slid out from the back by pulling on the tab. The filter may be washed or vacuumed. Remove the excess water from the filter by gently shaking the filter. This will remove dust and particles trapped in the filter. After cleaning, reinstall the filter. DO NOT use your air conditioner without the air filter in place. · To clean the cabinet DO NOT use harsh chemicals, abrasives, ammonia, chlorine, bleach, concentrated detergents, solvents or metal scouring pads.

Some of these chemicals may dissolve, damage and/or discolor your air conditioner. · Always use a soft cloth dampened with water or mild soap and water solution to wipe the front of the cabinet. Wipe dry with a soft cloth. Storage · To store your air conditioner when not being used for a long period of time, drain condensed water using the drain pipe. Remove exhaust hose, clean filters, cover with plastic bag and store away.

(8) English Trouble-Shooting If air conditioner does not operate: · Check if unit is plugged in. The plug may have come loose. @@@@ · Check if the unit is in "Off" mode. · The tank full warning light is on. Call for service.

@@Use an exhaust fan to remove excess heat. · Check exhaust hose for proper installation. · Redirect the airflow. Remove any obstacles. @@ · Air filter may be blocked or may need cleaning. · Unit BTU may be too low for the required cooling area. · On extreme hot & humid days air conditioners may take a little longer to cool. · Drain the water drain pipe by removing the plug. · Unit may be in fan or dry mode. Put air conditioner in cool mode.

(9) English Limited Warranty This warranty covers all defects in workmanship or materials for: 1. The mechanical and electrical parts (including labor costs) contained in this Haier product, for a period of 12 months, from the date of purchase, (commercial or rental application, the .
