(see table previous page) Proper grounding must be ensured to reduce the risk of shock and fire. DO NOT CUT OR REMOVE THE GROUNDING PRONG. If you do not have a three-prong electric receptacle outlet in the wall, have a certified electrician install the proper receptacle. The wall receptacle MUST be properly grounded. Do not operate air conditioner if power cord is frayed or otherwise damaged.

Also avoid using it if there are cracks or abrasion damage along the length, plug connector or if the unit malfunctions or is damaged in any manner. Contact an authorized service for examination, repairs or adjustments. DO NOT USE AN ADAPTER OR AN EXTENSION CORD. Do not block airflow around the air conditioner. Also the exhaust hose should be free of any obstructions. Always unplug the air conditioner before servicing it or moving it. Do not install or use the air conditioner in any area where the atmosphere contains combustible gases or where the atmosphere is oily or sulphurous. Avoid any chemicals coming in contact with your air conditioner. Do not place any object on the top of the unit. Never operate the air conditioner without the filters in place.

Do not use the air conditioners near a bathtub, shower or wash basin. 2) 3) 4) 5) 6) 7) 8) 9) 10) 2 English Table Of Contents PAGE A Word From Haier
