- Instruction manual HASBRO CARS 2 OPERATION

**For 1+ Players / AGES 6+ ADULT ASSEMBLY REQUIRED**

Mater is getting ready for a road trip, but his gear got banged up tractor tippin'! Grab the tweezers and get to work to repair all his crazy quirks. But, be careful not to touch the siding or get set backwards as Mater's driving. Well, go on ... get truckin' - Mater's ready for some fixer-upin'!

**OBJECT**  
Earn the most money by successfully "operating" on Mater.

**CONTENTS**  
Gameboard with Mater "Patient" and Tweezers • 22 Game Cards • 11 Plastic Funatomy Parts • Play Money • Storage Drawer

**THE FIRST TIME YOU PLAY**

- Insert the batteries (see Battery Information).
- Carefully remove the Funatomy game pieces from the plastic frame. If needed use an emery board or sandpaper to remove the excess plastic from the game pieces. Discard the frame after removing all of the game pieces.
- Remove the tweezers by gently pressing down and sliding them out.
- Attach the storage drawer: Turn the gameboard upside-down, and slide in the storage drawer as shown. Make sure the drawer slides in and out easily. Then turn the gameboard right-side up again. See the illustration.

**GAME SETUP**  
Separate the Doctor cards from the Specialist cards. Shuffle the Specialist cards and deal them out faceup so that each player gets an equal number. Place extra cards out of the game. Shuffle the Doctor cards and place them facedown near the board. Choose a "banker" to pay players for successful "operations." Drop each Funatomy part flat into its matching gameboard cavity.

**GAMEPLAY**  
The youngest player goes first. Play then passes to the left.

**ON YOUR TURN**

- Draw the top Doctor card and read it aloud. The card tells you which part to remove and how much you'll earn for it.

- Take the tweezers and try to remove that Funatomy part, but be careful! If you touch the metal sides of the cavity, Mater's headlight will light up and he'll make more noise than a tipped tractor!
  - SUCCESS!** If you remove the part without setting off the light and sound, take your payment from the banker. Keep the part in front of you and place the Doctor card out of play. This ends your turn.
  - SORRY!** If you set off the light and sound before completing the "operation" then your turn is over. Replace the part flat in the cavity and keep the Doctor card in front of you. Now the Specialist gets to try.

**THE SPECIALIST**  
Now all players look at their Specialist cards. The player with the Specialist card for that "operation" now tries to remove the part for twice the payment!

*Note: If the Specialist card is out of play, place the Doctor card facedown at the bottom of the deck. The player to the left of the Doctor goes next.*

- If the Specialist is successful, he or she gets the payment. Place both cards for that "operation" out of play. The player to the left of the Doctor goes next.
- If the Specialist is unsuccessful, place the Doctor card facedown at the bottom of the deck. The Specialist keeps the Specialist card. The player to the left of the Doctor goes next.

**WINNING**  
The game ends when all 11 Funatomy parts have been removed. The player with the most cash wins!

**STORING YOUR GAME**  
Store all of the Funatomy parts in the storage drawer. Anchor the tweezers by pressing down and gently sliding them under the notch. Store the other game parts under the gameboard.

**IMPORTANT: BATTERY INFORMATION**  
Please retain this information for future reference. Batteries should be replaced by an adult.

**BATTERIES REQUIRED**  
X4 - 3V AAA or R03 size NOT INCLUDED  
Alkaline batteries recommended. Phillips screws (not included) needed to insert batteries.

**TO INSERT BATTERIES**  
Loosen the screw on the battery compartment, located on the underside of the console, and remove the door. Insert 4 AAA size batteries (we recommend alkaline), making sure to align the + and - symbols with the markings in the plastic. Replace the door and tighten the screw.
