**FCC STATEMENT**  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Pat. No. 6811461 and Patents Pending. 77698 P/N 6803530000 Questions? @@@@· The more you play with him, the happier he will be!

@@Hangout Mode After a few moments of non-activation, Biscuit will enter hangout mode. He will move his head a little, blink and twitch his ears.

He will whine or bark a little to get your attention! After a few minutes in hangout mode, your puppy will go to "sleep": he'll lay down and start snoring! If the room is dark or dimly lit, Biscuit will go to "sleep" much faster than if the room is bright. To "wake" him, and return to Play Mode, clap twice or wave your hand over his forehead. LIGHT SENSOR FEATURE If it is dark in the room and the lights come on suddenly while your puppy is "asleep", he'll lift his head and open his eyes and make a little mumbling noise. @@This will make the installation process much easier. @@@@Batteries should be replaced by an adult. CAUTION: 1. Always follow the instructions carefully. @@2. @@3. Remove exhausted or dead batteries from the product.

4. Remove batteries if product is not to be played with for a long time. 5. Do not short-circuit the supply terminals. 6. @@@@7. @@Always remove from the product before recharging. Recharge batteries under adult supervision. @@Then use a slightly damp cloth to remove stains. @@Do not get wet; to remove stains use only a slightly damp cloth.

Do not use detergent or stain removers. @@Avoid spilling food or beverages on the puppy. @@Do not leave puppy in direct sunlight; high temperatures will destroy the mechanism. 6 Place door back over batteries. Push down on door; hold door down with one hand and use other hand to tighten screw.

NOTE: The toy uses battery power whenever switch is in the "ON" position. To conserve batteries, move switch to "OFF" position when you're not playing with your puppy. 1 PLAYING WITH YOUR BISCUIT PUPPY Sensor Motions A. @@@@B. @@Keep petting him on that side, and his head will stay on that side.

@@When you "feed" BISCUIT his treat, he will chomp. He will open his mouth and start to "eat". @@Don't put your fingers in his mouth, and never give real food to your puppy. D. When you pet him on the back of the head, he will move his head and make happy sounds. E. When you touch Biscuit's left paw, he will lift it up and "shake." When you use the speech command "Shake" or "Give Me a Paw", BISCUIT will lift either paw randomly. F. When you pet Biscuit on his nose, he will "sniff."

" G. When you wave something in front of BISCUIT, he flinches, blinks or "sneezes" (photosensors). ABOUT YOUR PUPPY BISCUIT has 9 sensors that sense either touch, light or sound: nose (touch) microphone (sound) photo sensor in forehead (light) back of head (touch) t 2 under his ears (touch) mouth (touch) B back (touch) NOTE: If your puppy begins to function improperly, restart by moving the ON/ OFF switch to the "OFF" position for a moment, then back to "ON". 5 A sensor is a part of the toy that responds to your touch! 2 left paw (touch) PLAYING WITH YOUR PUPPY To activate, slide ON/OFF switch to the "ON" position, and your puppy will wake up and be ready to play with you! @@@@F for best results please follow these three steps: 1. Eliminate any background noise and play with BISCUIT in a quiet room. 2. @@3. @@Give me a paw Shake RESPONSE He sits. He lies down. Three different barks.

Different movements and sounds. Sits up, nods or whimpers, and moves his paws. Raises his left or right paw. Raises his left or right paw. 3 1.

Before you speak, wait until your BISCUIT puppy has stopped moving. 2. Reduce background noise. 3. Speak loudly, clearly and distinctly.

Don't shout. 4. If BISCUIT doesn't respond in the way you expect, try speaking again. 5. For best results, speak to Biscuit from a distance of 12-18". NOTE: If your speech commands repeatedly don't work with BISCUIT, try petting him to activate one of his sensors. 4 .
