TRIPLEX filter with washable prefilter, fine filter and activated carbon cartridge

### Product specification sheet

#### Application

The TRIPLEX water filter combines three different filter cartridges in one housing. Washable prefilter, the polypropylene cartridge holds back undissolved matter. Activated Carbon cartridge filters out fine particles, eliminates odorous and flavours caused by chlorine or other organic substances, removes pesticides, insecticides, chlorinate solvents.

The filters ensure a continuous supply of filtered water. The fine filter prevents the ingress of particulates, for example rust particles, strands of hemp and grains of sand.

The filters can be applied to rain water treatment within the range of their specifications.

#### Special Features

- Large filter surface
- Filter insert fully replaceable
- Very simple operation
- Reliable and proven

#### Range of Application

Medium Water

#### Technical Data

|                       |   |
|-----------------------|---|
| Installation position | Horizontal with filter bowl downwards   |
| Operating pressure    | Maximum 6.0 bar   |
| Operating temperature | Maximum 45 °C   |
| Connection size       | 3/4" female,<br>3/4" male with 3/4"-3/4" male adapter<br>1" male with 3/4"-1" adapter |

#### Construction

The filters comprise:

- Simplex housing for 100µm sieve, followed by duplex housing for 25µm sieve and activated carbon cartridge
- Clear filter bowl
- Preliminary filter 100µm (irreversible)
- Fine filter 25 µm
- Activated Carbon insert
- 3/4" female thread
- 3/4"-1" male adapter
- 3/4"-3/4" male adapter
- Teflon-sealing tape
- Ring wrench for filter bowl

#### Materials

- Head and ring nut: reinforced polypropylene
- Polyester prefilter net
- Polypropylene fine filter
- Granular activated carbon
- Clear synthetic material filter bowl
- ETP O-Rings
