ARISTON DISHWASHER - Instructions for installation and use 13 D ISHWASHER How to load your dishes First of all.

Before placing the dishes in the racks, remove the largest scraps of food left over on your plates, you will thus avoid blocking the filter, which would reduce the efficacy of the wash. If the saucepans and frying pans are very dirty, allow them to soak before being washed. To make it easier to load your dishes, pull the racks out. What goes into the lower rack? We recommend you place the most difficult dishes to wash into the lower rack: saucepans, lids, soup dishes and plates (a load example is shown in the photo). Before washing, a few small steps can help you get a better wash and keep your dishwasher for longer.

Remove the largest scraps of food left over on your plates, soak saucepans and frying pans with tough incrustations. After loading your dishes, make sure the blades on the sprayer arm turn well It is best if you place longer utensils horizontally at the front of the upper rack. After loading the dishes, remember to check that the blades on the sprayer arms can turn freely without hitting against any dishes. What goes into the upper rack? Place delicate and lightweight dishes in the upper rack: glasses, tea cups and coffee cups, saucers but plates too - shallow salad bowls, slightly dirty frying pans and shallow pans. Position lightweight dishes in such a way as to avoid their being moved by the spray of water.

How to adjust the top rack. The upper rack can be set in high or low position to enable you to organise your dishes effortlessly. Load examples upper rack upper rack Serving dishes and large lids: place them on the sides of the rack. Saucepans, salad bowls: must always be placed upside down Very deep dishes: place them obliquely, thus allowing water to run down them and cleaning them better The lower rack has tip-up sectors (see figure B), so you can place even more saucepans and frying pans or make room for the larger ones. F 4 lower rack lower rack 2 Open the rail stop flaps and pull the rack out completely. Now place it in high or low position, then slide it along the guide rails until the front wheels also go in. Now close the rail stop flaps. Follow the sequence of actions illustrated in figure "F". @@ fig. @@ It takes just one minute to learn how First of all.

You are now free to re-set the correct wash cycle. You can cancel the wash cycle in progress, if it has only just started. 1) flashing to indicate a delayed start: to remind you that you have set a delayed start; 2) on and not flashing beneath the cycle phase symbol: meaning the cycle has started and is in the phase indicated by the symbol. If on the other hand you want to cancel the delay set and you want the cycle to start immediately, press button "F" repeatedly until the cycle starts and indicator light "G" corresponding to the cycle start phase comes on. If opening the door soon after the end of the programme, or during it, stand away from the Dishwasher, to avoid possible injury from hot steam. ARISTON DISHWASHER - Instructions for installation and use 15 D ISHWASHER Detergent and rinse aid Only use specific dishwasher detergents. Pour the detergent into the dispenser on the inside of the door, before the wash cycle starts!
The detergent Loading the detergent To open lid A, press button B.

The detergent should be poured into the two containers C and D up to the rim. Now you can close the lid: press it down until you hear it click. If you prefer to use the detergent in tablets, place one of these in container "D". Now you can close the lid: press it down until you hear it click. B C D Useful tips $\hat{\square}$ Use the right amount of detergent: if you use too much, you will not get cleaner dishes, but just more environmental pollution. $\hat{\square}$ Keep your dishwasher detergent and rinse aid in a cool, dry place and away from children. Check whether there is any detergent residue on the edges of the dispenser. It is due to this residue that the lid won't close. Get rid of it and you'll see that it closes. a The rinse aid.

This product makes dishes sparkle more as it improves their drying. The rinse aid container is situated on the inside of the appliance door; you should refill it when you see the container is empty by means of indicator $\hat{\square}$ $\hat{\square}$ $\hat{\square}$. @ @ d F C Loading the rinse aid. To open the dispenser, turn cap C anticlockwise. Take care when you pour in the rinse aid to avoid it overflowing.

@ @ Proper dosage of the rinse aid improves drying. @ @ @ @ You can choose from six different positions. it is normally set to 2. @ @ If the water in your area is hard or very hard, we still recommend you pour extra salt into the relevant dispenser to prevent the formation of white streaks on your household appliances wisely helps you make savings and is good for the environment. maximum load.

@ @ @ @ The right wash cycle. @ @ @ @ @ @ @ @ @ @ @ @ @ @ @ @ @ @ 2 installation. @ @ @ @ Make sure that it is not inclined more than 2 degrees. If the appliance is level, it will help ensure its correct operation. cold water connection. @ @ @ @ hot water connection. @ @ @ @ The connection must be made to hot water supply following the same procedures as those indicated for the cold water connection. drain hose connection. @ @ avoid restricting or bending it. @ @ @ @ @ @ First of all, check that the mains voltage and frequency values correspond to those stated on the rating plate located on the stainless steel inner door of the appliance and that the electrical system to which the dishwasher is connected is sized for the maximum current and remember that it should be free of bends or dangerous kinks.

5. @ @ @ @ 7. @ @ 8. @ @ 9. @ @ 10. @ @ @ @ If you cannot resolve the problem, then call the service centre. 11. Once taken out of use, appliances must be made inoperable: cut the power supply wire and damage the door lock. I only want an authorised specialised technician with original Ariston guaranteed spare parts 20 ARISTON DISHWASHER - Instructions for installation and use Care and maintenance D ISHWASHER Once in a while, once a month, spend a little time on the filter assembly and the sprayer arms. Cleaning and special maintenance The filter assembly If you want consistent good results from your dishwasher, you need to clean the filter assembly.

The food particles are removed from the wash water, allowing it to be recirculated during the cycle, filtered perfectly. For this reason, it is a good idea to remove the larger food particles trapped inside the cup $\hat{\square}$ $\hat{\square}$ $\hat{\square}$ and the semi-circular filter A after each wash; pull the cup handle upwards to remove them. Just rinse them under running water. The entire filter assembly should be cleaned thoroughly once a month: cup C + semi-circular filter A + cylindrical filter B. rotate filter $\hat{\square}$ $\hat{\square}$ $\hat{\square}$ anticlockwise to remove it.

For cleaning, use a non metallic brush. Reassemble the filter parts (as shown in the figure) and reinsert the whole assembly into the dishwasher. position it into its housing and press downwards. The dishwasher is not to be used without filters. Improper replacement of the filters may reduce the efficiency of the wash and even damage your dishwasher.

cleaning the sprayer arms. Food residue may become encrusted onto the sprayer arms and block the holes where water comes out. @ @ $\hat{\square}$. @ @ @ @ @ @ I B 2 A C Keep your dishwasher in shape Respecting these few rules ensures you will always have a reliable work companion by your side. after every wash.

When the wash cycle has ended, always remember to turn off the water supply tap and to leave the appliance door ajar. This way, moisture and bad odours will not be trapped inside. unplug the appliance. Before carrying out any cleaning or maintenance on the dishwasher, always remove the plug from the electricity socket. When you go away for an extended period of time, we recommend you do the following: $\hat{\square}$ run a cycle with the dishwasher empty $\hat{\square}$ turn off the water inlet tap.

$\hat{\square}$ leave the appliance door ajar This will help the seals last longer and prevent unpleasant odours from forming inside the appliance. moving the appliance.

Should the appliance have to be moved, try to keep it in a vertical position. If absolutely necessary, it can be positioned on its back. the seals. One of the factors that cause unpleasant odours to form inside the dishwasher is food that remains trapped in the seals. @ @ @ @ Use a cloth dampened with lukewarm soapy water only. @ @ Your dishwasher is not a waste disintegrator! @ @ Empty out all glasses and cups.
