**Manual abstract:**

*Caution: To prevent damage to the product, use only the power cord that is provided with the product. Wait four minutes while the product initializes. Load a printed page into the document feeder face-up. You do not need to insert the product CD to install the software. The HP Smart Install program uses a USB cable to transfer the installation files from the product to your computer. this installer supports USB connections , wired networks , and wireless networks. It installs all files you need to print, copy, and scan. The HP Smart Install program might take a few minutes to start. NOTE: If the installation program does not start automatically, the AutoPlay feature might be disabled on the computer. In Windows Explorer, browse the computer, and then double-click the HP Smart Install drive to run the installation program.*

*@@This process installs all files you need to print, copy, and scan. @@@@The information contained herein is subject to change without notice. @@@@This equipment generates, uses, and can radiate radio-frequency energy. If this equipment is not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.*

*If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, correct the interference by one or more of the following measures: · Connect equipment to an outlet on a circuit different from that to which the receiver is located. Any changes or modifications to the product that are not expressly approved by HP could void the user's authority to operate this equipment. @@ for more regulatory information , see the electronic user guide. @@.*
