Static images may cause image retention damage that could look like stains or watermarks on the monitor's screen. Monitors in use for 24 hours per day that result in image retention damage are not covered under the HP warranty.

To avoid image retention damage, always turn off the monitor when it is not in use or use the power management setting, if supported on your system, to turn off the display when the system is idle. Locating the Rating Label The rating label on the monitor provides the product number and serial number. You may need these numbers when contacting HP about the monitor model. The rating label is located on the bottom of the monitor. Figure 2-10 Locating the Rating Label HP Watermark and Image Retention Policy 11 Installing a Cable Lock You can secure the monitor to a fixed object with an optional cable lock available from HP. Figure 2-11 Installing a Cable Lock 12 Chapter 2 Setting Up the Monitor 3 Using My Display Software The CD provided with the monitor includes My Display software. Use My Display software to choose preferences for optimum viewing. You can select settings for gaming, movies, photo editing or just working on documents and spreadsheets. @@ Installing the Software To install the software: 1. Insert the CD in your computer CD drive. Using the Software To open the My Display software: 1. Click the HP My Display icon on the taskbar. Or Click the Windows Start button TM on the taskbar. @@ Installing the Software 13 4 Finding More Information Reference Guides Refer to the HP LCD Monitors Reference Guide included on the CD with your monitor for additional information on: □ □ □ □ □ □ Optimizing monitor performance Safety and maintenance and/or the vertical sync signal. @@@@ 5 watts of power.

There is a brief warm up period before the monitor will return to its normal operating mode. Refer to the computer manual for instructions on setting energy saver features (sometimes called power management features). NOTE: The above power saver feature only works when connected to computers that have energy saver features. By selecting the settings in the monitor's Energy Saver utility, you can also program the monitor to enter into the reduced power state at a predetermined time. When the monitor's Energy Saver utility causes the monitor to enter the reduced power state, the power light blinks amber.
