Manual abstract:

Back: Returns to the previous screen on the display. *Photo:* Opens the Photo menu. *@@Scan:* Opens the Scan To menu where you can select a destination for your scan. *Cancel:* Stops the current operation. *Help:* Opens the Help menu on the display where you can select a topic to learn more about it. From the Home screen, touching Help lists the topics for which help is available. Depending on the topic you select, the topic will appear on the display or on your computer screen. *@@@@Snapfish* may not be available depending on your country/region. *Ink:* Shows estimated ink levels by cartridge. *@@Wireless:* Opens the wireless menu where you can change the wireless settings.

Apps: Apps Manager provides a quick and easy way to access and print information from the Web, such as maps, coupons, coloring pages, and puzzles. *ePrint:* Opens the ePrint menu where you can turn the service on or off, display the printer email address, and print an information page. 9 10 11 12 13 14 8
Get to know the HP Photosmart Apps Manager The Apps Manager can be used to add new Apps or to remove Apps. Manage Apps Add new Apps. a. Touch Apps on the home screen. b. Press the directional keys to scroll to the More menu option. Press OK. Check desired Apps. Press OK. Follow prompts. Apps Manager 9 Chapter 2 10 Get to know the HP Photosmart 3 How do I? This section contains links to commonly performed tasks, such as printing photos, scanning, and making copies. Apps Manager Replace the cartridges Load media Scan to a computer Copy text or mixed documents Clear paper jam How do I? 11 Chapter 3 12 How do I? 4 Paper basics Do one of the following: Load 10 x 15 cm (4 x 6 inch) paper a. Pull out paper tray. Pull out photo tray and slide paper-width guide outwards. Load media b. Load paper. Insert stack of photo paper into photo tray with short edge forward and print side down. Paper basics 13 Chapter 4 Slide stack of paper forward until it stops.

NOTE: If the photo paper you are using has perforated tabs, load photo paper so that tabs are closest to you. Slide paper-width guide inward until it stops at edge of paper. c. Close the paper tray. 14 Paper basics Load A4 or 8.5 x 11 inch paper a. Pull out paper tray. If open, close photo tray. In main tray, slide paper-width guide outwards. Remove any other media previously loaded.

b. Load paper. Insert stack of paper into main input tray with short edge forward and print side down. Load media 15 Chapter 4 Slide stack of paper forward until it stops. Slide paper-width guide inward until it stops at edge of paper.

c. Close paper tray. Close paper tray and pull tray extender towards you, as far as it will go. Flip paper catch at end of tray extender. *NOTE:* When you use legal-size paper, leave the paper catch closed.

16 Paper basics Load envelopes a. Pull out paper tray. If open, close photo tray. Slide paper-width guide outwards. Remove all paper from the main input tray. b. Load envelopes. Insert one or more envelopes into far-right side of main input tray, with envelope flaps on left and facing up. Load media 17 Chapter 4 Slide stack of envelopes forward until it stops. Slide paper-width guide inward against stack of envelopes until it stops.

c. Close paper tray. 18 Paper basics 5 Print Print photos from a memory card Print from anywhere Related topics Load media Print from anywhere Tips for print success Print photos from a memory card To print photos from a memory card 1. Load photo paper into the paper tray. 2. Make sure the paper tray extender is open. 3. Insert a memory card into the memory card slot. 4. 5. 6. 7. 8. 9. 10.

From the Home screen, touch Photo to display the Photo menu. On the Photo menu, touch View & Print to display photos. Touch a photo that you want to print. Touch the up or down arrow to specify the number of photos to print. Touch Edit to select options to edit the selected photos.

You can rotate, crop a photo, or turn Photo Fix on and off. Touch Preview to preview the selected photo. If you wish to adjust layout, paper type, red eye removal, or date stamp, touch Settings, and then touch your selection. You can also save any new settings as defaults. Touch Print to begin printing. Print 19 Chapter 5 Related topics Load media Tips for print success Print from anywhere The HP ePrint feature on your product provides convenience printing that allows you to print from anywhere. Once enabled, ePrint assigns an email address to your product. To print, simply send an email containing your document to that address. You can print images, Word, PowerPoint, and PDF documents. It's easy! *NOTE:* Documents printed with ePrint may appear different from the original.

Style, formatting, and text flow may differ from the original document. For documents that need to be printed with a higher quality (such as legal documents), we recommend that you print from the software application on your computer, where you will have more control over what your printout looks like. To print a document from anywhere 1. Find your ePrint email address. a. Touch the Web Service icon on the Home screen. b. Touch Display Email Address. *TIP:* To print the email address or registration url, touch Print Info Sheet on the Web Services Settings menu. 2.

Compose and send email. a. Create a new email and type the product email address in the To box. b. Type text in the body of the email and attach the documents or images that you want to print.

c. Send the email. The product prints 25 Chapter 6 Make a color copy a. Load paper. Load full-size paper in main input tray.

b. Load original. Lift lid on product. *TIP:* To make copies of thick originals, such as books, you can remove the lid. Load original print side down on right front corner of glass. Close lid. 26 Copy and scan c. d. Select Copy. Touch Copy on Home screen.

The Copy menu appears. Touch up arrow to increase number of copies. Touch Settings. The Copy Settings menu appears. To change default copy settings, specify desired paper size, paper type, quality and other settings. Start copy. Touch Color Copy. Related topics Load media · Tips for copy and scan success · Tips for copy and scan success Use the following tips to copy and scan successfully: · Learn how to scan when your printer is on a wireless network and not nearby your Click here to go online for more information. computer. Keep the glass and the back of the lid clean.

The scanner interprets anything it detects on the glass as part of the image. Load your original, print side down, on the right front corner of the glass. To copy or scan a book or other thick originals, remove the lid. To make a large copy of a small original, scan the original into the computer, resize the image in the scanning software, and then print a copy of the enlarged image. To avoid incorrect or missing scanned text, make sure the brightness is set appropriately in the software.

If the scanned image is incorrectly cropped, turn off the autocropping feature in the software and crop the scanned image manually. Tips for copy and scan success 27 Chapter 6 28 Copy and scan 7 Work with cartridges Check the estimated ink levels Clean printhead automatically Clean ink smear Replace the cartridges Align printer Order ink supplies Cartridge warranty information Tips for working with cartridges Check the estimated ink levels From the Home screen, touch the right directional key, and then touch the Ink icon to display the estimated ink levels. NOTE: If you have installed a refilled or remanufactured cartridge, or a cartridge that has been used in another printer, the ink level indicator might be inaccurate or unavailable. NOTE: Ink level warnings and indicators provide estimates for planning purposes only. When you receive a low-ink warning message, consider having a replacement cartridge available to avoid possible printing delays.

You do not have to replace the cartridges until the print quality is unacceptable. NOTE: Ink from the cartridges is used in the printing process in a number of different ways, including in the initialization process, which prepares the product and cartridges for printing, and in printhead servicing, which keeps print nozzles clear and ink flowing smoothly. In addition, some residual ink is left in the cartridge after it is used. For more information, see www.hp.com/go/inkusage. Related topics Order ink supplies Tips for working with cartridges Clean printhead automatically If print quality is unacceptable, and the problem is not low ink levels or non-HP ink, try cleaning the printhead from the printer display. Full-size paper needs to be loaded and an information page will be printed out at the end. To clean printhead from the printer display 1. From the Home screen, touch the right directional key.

Touch the Setup icon, and then touch Tools. 2. On the Tools menu, touch the down arrow to scroll through the options, and then touch Clean Printhead. Work with cartridges 29 Chapter 7 Related topics Order ink supplies Tips for working with cartridges Clean ink smear If printouts shows smears of ink, try cleaning ink smear from the printer display. This process takes several minutes to complete. Full-size plain paper needs to be loaded and will be moved back and forth during the cleaning. Mechanical noises are normal at this time. To clean ink smear from the printer display 1. From the Home screen, touch the right directional key. Touch the Setup icon, and then touch Tools.

2. On the Tools menu, touch the down arrow to scroll through the options, and then touch Clean Ink Smear. Related topics Order ink supplies Tips for working with cartridges Replace the cartridges To replace the cartridges 1. Check that power is on. 2.

Remove cartridge. a. Open the cartridge access door. 30 Work with cartridges b. Wait for print carriage to move to the ink label part of the product. Press tab on cartridge, then remove it from slot. 3. Insert new cartridge. a. Remove cartridge from packaging. b. Twist orange cap to snap it off. A forceful twist may be required to remove cap. Replace the cartridges 31 Chapter 7 c. Match color icons, then slide cartridge into slot until it clicks into place.

d. Close the cartridge access door. Related topics Order ink supplies Tips for working with cartridges Align printer After you insert new cartridges, align the printer for best print quality. You can align printer either from the printer display or from the printer software. To align printer from the printer display 1. From the Home screen, touch the right directional key. Touch the Setup icon, and then touch Tools. 2. On the Tools menu, touch the down arrow to scroll through the options, and then touch Align Printer. 3.

Follow the instruction on the screen. 32 Work with cartridges To align printer from the printer software Do one of the following according to the operating system you are using. 1. On Windows: a. From the Start menu on your computer, click All Programs, click HP.

b. Click the HP Photosmart 6510 series folder, click HP Photosmart 6510 series. c. Double-click Printer Preferences, and then double-click Maintenance Tasks. d.

Click the Device Services tab, and then click the Align Ink Cartridges button. On Mac: Open HP Utility, click Align, and then click Align again. 2. Related topics Order ink supplies Tips for working with cartridges Order ink supplies To find the correct model number for replacement cartridges, open the printer cartridge access door and check the label. HP Ink Cartridge Product No. xxxxxx Model No. xxxxx xxx Cartridge information and links to online shopping also appear on ink alert messages. In addition, you can find cartridge information and order online by visiting www.hp.com/buy/supplies.

NOTE: Ordering cartridges online is not supported in all countries/regions. If it is not supported in your country/region, contact a local HP reseller for information about purchasing cartridges. Cartridge warranty information The HP cartridge warranty is applicable when ther or laptop with either wireless networking support, or a network interface card (NIC). The computer must be connected to the wireless network that you intend to install the HP Photosmart on. 36 Connectivity Broadband Internet access (recommended) such as cable or DSL. If you connect the HP Photosmart on a wireless network that has Internet access, HP recommends that you use a wireless router (access point or base station) that uses Dynamic Host Configuration Protocol (DHCP). Network name (SSID). WEP key or WPA Passphrase (if needed). To connect the product with the Wireless Setup Wizard 1. Write down your network name (SSID) and WEP key or WPA passphrase.

2. Start Wireless Setup Wizard. a. @@b. Touch Wireless Setup Wizard.

3. Connect to wireless network. Select your network from the list of detected networks. 4. Follow prompts.

5. Install software. Related topics Tips for setting up and using a networked printer Change from a USB connection to a wireless network If you first setup your printer and installed the software with a USB cable, directly connecting the printer to your computer, you can easily change to a wireless network connection. You will need a wireless 802.11b/g/n network that includes a wireless router or access point. NOTE: 802.11n will only support 2.4Ghz. To change from a USB connection to a wireless network Do one of the following according to your operating system. 1.

On Windows: a. From the Start menu on your computer, click All Programs, and then click HP. b. Click HP Photosmart 6510 series, click Printer Setup & Software Selection, and then click Convert a USB connected printer to wireless. c. Follow the instructions on the screen. On Mac: a. From the Home screen on the printer display, touch the right directional key.

b. Touch the Wireless icon, and then touch Wireless Setup Wizard.

c. Follow the instructions on the screen to connect the printer. d. Use HP Setup Assistant in Applications/Hewlett-Packard/Device Utilities to change the software connection to this printer to wireless. 2.

Change from a USB connection to a wireless network 37 Chapter 8 Connect a new printer To connect a new printer from the printer software If you haven't finished connecting the printer to your computer, you need to connect it from the printer software. If you want to connect another new printer of the same model to your computer, you don't need to install the printer software once again. Do one of following according to your operating system: 1. On Windows: a.

From the Start menu on your computer, click All Programs, and then click HP.

b. Click HP Photosmart 6510 series, click Printer Connections and Software, and then click Connect a new printer c. Follow the instructions on the screen.

On Mac: a. From the Home screen on the printer display, touch the right directional key. b. Touch the Wireless icon, and then touch Wireless Setup Wizard. c. Follow the instructions on the screen to connect the printer. d.

Use HP Setup Assistant in Applications/Hewlett-Packard/Device Utilities to change the software connection to this printer to wireless. 2. Change network settings If you want to change the wireless settings that you previously configured to a network, you need to run the Wireless Setup Wizard from the printer display. To run Wireless Setup Wizard to change network settings 1. From the Home screen on the printer display, touch the right directional key, and then touch the Wireless icon. 2. On the wireless menu, touch Wireless Setup Wizard. 3. Follow the instructions on the screen to change the network settings. Tips for setting up and using a networked printer Use the following tips to set up and use a networked printer: · When setting up the wireless networked printer, make sure your wireless router is powered on.

The printer searches for wireless routers, then lists the detected network names on the display. To verify the wireless connection, touch the Wireless button on the control panel. If it shows Wireless Off, touch Turn On. If your computer is connected to a Virtual Private Network (VPN), you need to disconnect from the VPN before you can access any other device on your network, including the printer. Intel and Pentium are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries. Adobe® is a trademark of Adobe Systems Incorporated. Cartridge chip information The HP cartridges used with this product contain a memory chip that assists in the operation of the product.

In addition, this memory chip collects a limited set of information about the usage of the product, which might include the following: the date when the cartridge was first installed, the date when the cartridge was last used, the number of pages printed using the cartridge, the page coverage, the printing modes used, any printing errors that might have occurred, and the product model. This information helps HP design future products to meet our customers' printing needs. The data collected from the cartridge memory chip does not contain information that can be used to identify a customer or user of the cartridge or their product. HP collects a sampling of the memory chips from cartridges returned to HP's free return and recycling program (HP Planet Partners: www.hp.com/hpinfo/globalcitizenship/environment/recycle/). The memory chips from this sampling are read and studied in order to improve future HP products. HP partners who assist in recycling this cartridge might have access to this data, as well. Any third party possessing the cartridge might have access to the anonymous information on the memory chip. If you prefer to not allow access to this information, you can render the chip inoperable.

However, after you render the memory chip inoperable, the cartridge cannot be used in an HP product. 1. Touch the Setup icon on the Home screen. The Setup menu appears. 2. 3. 4. Touch Preferences. Touch Cartridge Chip Info. Touch OK. Design for recycling has been incorporated into this product.

Dissimilar materials have been designed to separate easily. High priority parts have been designed to access quickly for efficient disassembly and repair. For more information, visit HP's Commitment to the Environment Web site at: www.hp.com/hpinfo/globalcitizenship/environment/index.html

NOTE: This feature is on by default. To set the Energy Save mode time or turn off the Energy Save mode 1. Touch the Setup icon on the Home screen. 2. 3. 4. Touch Preferences. Touch the down arrow to scroll through the options, and then touch Energy Save Mode. Touch After 15 minutes, or After 5 minutes, or Off. Set Auto Power-off When the Auto Power-off feature is on, your printer will be automatically turned off after two hours' inactivity. This helps save energy. However, print jobs coming from network will be lost when the printer is turned off. NOTE: This feature is on by default, but when the printer is connected successfully to the network, it will be automatically disabled. You need to turn it on manually.

Once you have turned it on manually, it will keep on and will not be automatically disabled by any event. To turn Auto Power-off on or off 1. Touch the Setup icon on the Home screen. 2. 3. 4. Touch Preferences. Touch the down arrow to scroll through the options, and then touch Auto Power-off. Touch On or Off.

Regulatory notices The HP Photosmart meets product requirements from regulatory agencies in your country/region.

@@The Regulatory Model Number for your product is SNPRB-1101-01. @@@@This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: . . .

· Reorient the receiving antenna. Increase the separation between the equipment and the receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. @@This device complies with Part 15 of the FCC Rules. @@@@For EU non-harmonized telecommunications products (If applicable, a 4-digit notified body number is inserted between CE and !). Please refer to the regulatory label provided on the product. The telecommunications functionality of this product may be used in the following EU and EFTA countries: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, and United Kingdom.

The telephone connector (not available for all products) is intended for connection to analogue telephone networks. Products with wireless LAN devices Some countries may have specific obligations or special requirements about the operation of Wireless LAN networks such as indoor use only or restrictions of the channels available. Please make sure that the country settings of the wireless network are correct. France For 2.4-GHz Wireless LAN operation of this product, certain restrictions apply: This product may be used indoors for the entire 2400-MHz to 2483.5-MHz frequency band (channels 1 to 13). For Regulatory notices 55 Chapter 10 outdoor use, only the 2400-MHz to 2454-MHz frequency band (channels 1 to 7) may be used. For the latest requirements, see www.arcep.fr.
