

# Your PDF Guides

You can read the recommendations in the user guide, the technical guide or the installation guide for ICOM IC-V80E. You'll find the answers to all your questions on the ICOM IC-V80E in the user manual (information, specifications, safety advice, size, accessories, etc.). Detailed instructions for use are in the User's Guide.

**ICOM** VHF FM TRANSCEIVERS  
**IC-V80** (U.S.A. Version) **IC-V80E** (Europe Version)

**Rugged and Basic 2M with Powerful Audio!**

Icom radios are built tough, and the IC-V80E – Icom's most economical 2M – is no exception. This military rugged rig offers water resistance and superior protection against dust and dirt (IP54). Compact, rugged and with plenty of power, the IC-V80E is ideal for basic, on-the-go ham operations.

**750mW loud audio**  
The IC-V80E uses the BTL (bridge-tied load) amplifier that doubles the audio output. The 36mm large speaker delivers 750mW of loud and intelligible audio\*. Great for noisy environments.  
\* Typical audio using with internal speaker.

**Powerful 5.5W of output power**  
The IC-V80E offers a just-right mix of power and size. 5.5 watts of high power will work to get your message through. Get up to 19 hours\* of operating time with the Li-Ion battery pack (BP-26S) or 13 hours with the Ni-MH (BP-264). All that power comes in an easy to hold and use size – not too big, not too small.  
\* Typical operation, 5:00 audio cycle with power save on.

**IP54 and MIL-STD-810 rugged construction**  
The dust protection and water-resistance equivalent to IP54 provides reliable operation for practical outdoor operation. The IC-V80E tested to and passed 11 categories of MIL-STD-810 environmental tests.

**A total of 207 memory channels**  
The IC-V80E has a total of 207 memory channels, including 200 regular channels, 6 scan edges and 1 call channel. The channel name is programmable with 5 characters for easy recognition.

**Built-in CTCSS/DTCS**  
The CTCSS and DTCS tone codes provide quiet stand-by and allow you to use tone-access repeaters. The pocket beep alerts you when a matching tone frequency is received. The tone scan detects the subaudible tone that is used for repeater access.

**Internal VOX function**  
The IC-V80E has internal VOX (Voice Operated Transmit) function for convenient hands-free operation with a compatible optional headset and plug adapter cable. Also, the VOX gain and VOX delay time are adjustable.

**Other features**

- WX channel and weather alert function (USA version only)
- Program, memory, skip, priority and tone scans
- Power save function
- BNC type antenna connector
- Automatic repeater function (USA version only)
- VHF/UHF tone for European repeater access (IC-V80E only)
- TOT (time out timer) setting
- Repeater lockout and busy channel lockout
- PC programmable with optional CS-V80
- Talk receiver to transceiver cloning (Optional)
- Direct keypad frequency entry
- DTMF autodial memories
- Auto power off
- LCD backlight
- Wide/narrow channel spacing

**MIL-STD-810** **IP54**
