92 iPhone not included © jbl on stage micro II speaker dock for iPhone/iPod ®* Important Safety Instructions 1. Read these instructions. 2. Keep these instructions. 3.

Heed all warnings. 4. Follow all instructions. 5. Do not use this apparatus near water. 6. Clean only with a dry cloth. Please read the following precautions before use: 16. To completely disconnect this apparatus from the AC mains, disconnect the power supply cord plug from the AC receptacle. 17.

The mains plug of the power supply cord shall remain readily operable. 18. @@@@The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product. WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. 7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions. 8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat. 9.

@@A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. @@10. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer. 12. Use only with the cart, stand, tripod, bracket or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. @@14. Refer all servicing to qualified service personnel. @@15. @@@@This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be

determined by turning the equipment off and then on, the user is encouraged to try to correct the interference by one or more of the following measures: · Increase the separation between the equipment and receiver. · Connect the equipment to a different outlet so that the equipment and receiver are on different branch circuits. · Consult the dealer or an experienced radio/TV technician for help. Changes or modifications not expressly approved by JBL could void the user's authority to operate the equipment.

Battery Disposal Alkaline batteries are considered non-hazardous. Rechargeable batteries (i.e., nickel cadmium, nickel metal-hydrate, lithium and lithium-ion) are considered hazardous household materials and may pose an unnecessary health and safety risk. @@All batteries must be disposed of in an environmentally sound manner. @@@@JBL On Stage Micro II, power supply, remote and adapter. Step 2. @@Place 4 AAA batteries in the battery compartment. Step 4. @@Place the appropriate iPhone/iPod adapter onto JBL On Stage Micro II.

@@Connect the audio cable to the audio source. Step 6. Press the Power button on the back of the JBL On Stage Micro II. @@Adjust the volume using (+) to increase and (-) to decrease. Press both to mute the JBL On Stage Micro II.

@@@@@@@@@@@Note: Touching the volume "Down" (-) pad lowers the system volume. Touching both the (+) and (-) volume control pads at the same time will mute the system. Input source is low or drained batteries iPhone/iPod is paused iPhone/iPod is paused (battery-only mode) Increase the volume level on the audio source device. Replace the batteries. Press the Play button on the iPhone/iPod or remote control.

@@Press either (+) or (-) to unmute. @@DO NOT MIX CHARGED AND PARTIALLY CHARGED BATTERIES. @@These specifications are subject to change without notice. @@Press either (+) or (-) to unmute. @@Place the wall adapter in a known powered outlet. Test the outlet with a lamp or other device. Connect the JBL On Stage Micro II to a known audio source. @@Make sure that all switches for outlet/power strip are on and that all switches for the unit are on. Make sure that the iPhone/iPod is properly docked or that the auxiliary cable is properly connected. Turn up the volume.

Check the unit with a source that you know to be good. Connect the "Aux In" cable to the headphone jack of your iPhone/iPod. Note Is the LED on? If the LED is not on, power is not getting to your JBL On Stage Micro II. @@@@@@If so, check the recording or record the source again. @@It is recommended that you set the source device EQ to "Flat" or "Off." Volume level may be too high. Check the volume of the source. EQ setting may be too high. Check the EQ setting on your iPhone/iPod or source device. Check the input cable connection.

Replace the cable. Turn the JBL On Stage Micro II off and connect it to another wall outlet. Purchase a ferrite core and wrap the excess cable around it. A ferrite core can be purchased at your local electronics store. JBL On Stage Micro II emits a loud hum or buzzing noise.

Input cable is not plugged in properly. Cable may be bad. Ground logo (an unsuitable connection). Speaker system experiences radio-frequency interference or picks up a radio-station transmission. Input cable may be picking up interference.
