You may not place the Licensed Product(s) on the Internet without a prior written agreement with DMTI Spatial. @@@@This license is effective until terminated. @@@@You may not modify, copy, scan, or use any other method to reproduce, duplicate, republish, transmit, or distribute in any way any portion of traffic incident data. You agree to indemnify, defend, and hold harmless the Traffic Service Provider (and its affiliates) and Garmin Ltd. (and its subsidiaries) against any and all claims, damages, costs, or other expenses that arise directly or iel, your navigation system guides you to your destination with voice prompts, arrows on the map, and directions at the top of the map.

The upper-left corner indicates the distance to your next maneuver. If you depart from the original route, your navigation system recalculates the route and provides new directions. You can add a stop (Via Point) to your route. The navigation sys fuel economy by scoring your driving habits. The higher your ecoChallenge scores, the more fuel you save. To view detailed ecoChallenge scores, touch the icon. The leaf color on the driving challenge icon changes depending on your performance in the challenge. Speed--gain points for driving at your vehicle optimal speed for conserving fuel (4560 mph for most vehicles). Fuel Economy--ecoRoute HD compares your current fuel economy with the highest fuel economy recorded for your vehicle. Gain points for driving at the optimal fuel economy for your vehicle.

Use this feature when you refuel to maintain an accurate fuel economy. 3 Enter how much fuel your vehicle has used since the last fill up. You can view the 20 most-recent mileage reports. To reset all report data, touch Reset. You can restart your current ecoChallenge. While viewing the current ecoChallenge details, touch Reset > Yes. The graph along the bottom shows your average fuel economy for a period of driving time. A mileage report tracks the distance, the time, the average fuel economy, and the fuel cost of navigating to a destination. A mileage report is created for every route that you drive. If you stop a route on the device, a mileage report is created for the distance you traveled.

Mileage reports are created automatically when you stop or complete routes. When your ecoRoute HD is connected, it can select diagnostic trouble codes (DTC) related to your vehicle's emissions system, if the on-board diagnostic system detects a fault. Touch Tools > ecoRoute > Diagnostics > Reset to clear error codes noted by the system. Not all vehicles will allow you to reset error codes. Clearing error codes without repairing the source of the erro may result in a return of the check engine light.

View real-time information about your vehicle, such as RPM and battery voltage. The gauges that are displayed may vary by vehicle. Use the speech recognition feature to speak to your navigation system to find destinations, select options, and perform other functions. 2 Wait for the green speak icon to appear in the upper-right corner of the screen. @@@@For example, from the Tools menu, you can speak Routes or Page Down.

2 Listen for the voice prompt before speaking your next command. 1 Speak any shortcut command from the Shortcut Commands list. You can use shortcut commands from any screen. 2 Listen for the voice prompt before speaking your next command. @@@@3 Listen for the voice prompt, and speak the name of the place. Speak the line number of the place you want. 4 Speak the line number of the place you want. @@@@When a traffic message is received, you can see the event on the map and change your route to avoid the traffic incident. The FM TMC subscription activates automatically after your navigation system acquires satellite signals while receiving traffic signals from the service provider. You can add other FM TMC subscriptions at any time.

If a non-severe traffic delay occurs on your route, the traffic icon shows how much time the delay has added to your route. This time is already included in your estimated arrival time. To manually avoid traffic on your route: 1 On the Map page, touch the traffic icon. 2 Touch Traffic On Route. 3 Touch the arrows to view other traffic delays on your route, if necessary. When you are receiving traffic information, a traffic icon appears in the upper-left corner of the Map page. The traffic icon changes color to indicate the severity of traffic conditions on your route or on the road you are currently traveling. To return to the normal map from the traffic map, touch the traffic icon, and touch Show Normal Map. When calculating your route, the navigation system examines the current traffic and automatically optimizes the route for the shortest time. If a severe traffic delay occurs on your route while you are navigating, the navigation system automatically recalculates the route.

You might still be routed through traffic if no better alternative routes exist. 3 Touch an item in the list to view the delay on a map and details about the delay. If there is more than one delay, touch the arrows to view the additional delays. You can customize the settings of your GPS navigation system. @@Voice Prompts--turn voice prompts on or off.

@@@@ Faster Time--calculates routes that are faster to drive but can be longer in distance. Shorter Distance--calculates routes that are shorter in distance but can take more time to drive. Less Fuel--calculates routes that could use less fuel than other routes. Prompted--prompts you to select a route calculation mode before navigating (multiple route preview, see page 19). @@More detail may cause the map to redraw slower.

Map View--select a map perspective. @@Touch the icon you want to use, and touch OK. Trip Log--show or hide the log of your travels.

To clear your trip log, touch Tools > My Data > Clear Trip Log. @@@@When Automatic is not selected, you can adjust the time in 15-minute increments. You can also change the keyboard language mode from any keyboard by touching the Mode button. Safe Mode--turn safe mode on or off. When your vehicle is moving, safe mode disables all functions that require significant operator attention and could become a distraction while driving. This appendix provides additional information about your navigation system, such as how to update the software and map data. You can purchase updated map data from Garmin or ask your Kenwood dealer or Kenwood service center for details.

You can manually load custom points of interest (POI) databases, available from various companies on the Internet. Some custom POI databases contain alert information for points such as safety cameras and school zones. The navigation system can notify you when you approach one of these points. You are responsible for ensuring that your use of safety camera information is lawful in your area. To view a list of the custom POIs loaded in your navigation system, touch Where To? To delete all custom POIs from your navigation system, touch Tools > My Data > Delete Custom POI(s). Garmin is not responsible for the consequences of using the safety camera database or other custom POI databases, or for the accuracy of the safety camera or other custom POI database. After downloading your POI database, use the Garmin POI Loader to install the POIs onto a USB mass storage device. Use the USB mass storage device to load the POIs. Trip logs are recorded while you navigate a route. Trip log data is saved as a .

Saving trip logs is not available on the DNX9280BT. Each time you load custom POIs to the navigation system, any other custom POIs already saved in the system will be overwritten.
