**Manual abstract:**

⚠ **CAUTION** • Adjust the volume so that you can hear sounds outside the car. Driving with the volume too high may cause an accident. • Wipe off the dirt on the panel with a dry silicon or soft cloth. Failure to observe this precaution may result in damage to the monitor or unit. Handling discs Condensation When the car is air-conditioned, moisture may collect on the laser lens. This may cause disc read errors. @ @ • Do not stick tape etc. on the disc, or use a disc with tape stuck on it. • Do not use any accessories for the disc. • Do not use any solvents to clean discs.

Use a dry silicon or soft cloth. • Clean from the center of the disc and move outward. @ @ @ @ @ • Characters that conform to ISO 8859-1 can be displayed.

• To display characters in the following language, additional setting is required. Chinese: □ Refer to “Chinese” of <Initial Settings> R (page 30).

• The illustrations of the display and the panel appearing in this manual are examples used to explain more clearly how the controls are used. Therefore, what appears on the display in the illustrations may differ from what appears on the display on the actual equipment, and some of the illustrations on the display may be inapplicable. If the unit fails to operate properly, press the Reset button. The unit returns to factory settings when the Reset button is pressed. Reset
