Protect sensitive data with FIPS 140-2 Level 2 validation and 100-percent privacy.

Protect your organization's portable data with Kingston's ultra-secure DataTraveler® 4000 USB Flash drive. It's FIPS 140-2 Level 2 validated and features 256-bit AES hardware-based encryption in CBC mode. Complex password protection enforces device lockdown after a specified number of invalid attempts. DataTraveler 4000 is rugged and waterproof, with a titanium-coated, stainless steel casing for added protection. It's easy to set up and use, with no admin rights or application installation required.

Assembled in the U.S., DataTraveler 4000 is backed by a five-year warranty, free technical support and legendary Kingston® reliability.
