**Kingston DataTraveler 400**  
kingston.com/flash

**PRODUCT DISCONTINUED – FOR INFORMATION ONLY**  
Stay in sync between multiple PCs.

Kingston's DataTraveler® 400 (D 400) USB Flash drive gives you the freedom to work on multiple PCs while keeping your data in sync and secure. In capacities up to 32GB, DT 400 is preloaded with MigOSync software and features a camera design for ease of use. Its MigOSync software lets you synchronize your files, email and Internet browser settings on your D 400. When you return to your main PC, MigOSync synchronizes your files from your drive to your PC to keep you current.

For added flexibility, Universal Mail Format™ lets you access your email on applications other than the ones you use at home or at the office. If a guest PC doesn't support your main email application, MigOSync will let you access your email using other applications like Windows® Mail, Outlook, Outlook Express or Lotus Notes.

DT 400 is a great tool for today's road warriors; use it at your field office, home office or client's computer — anywhere you have access to a PC with the applications you use. Create and maintain different workspace profiles, such as home, work, notebook, client, project, and then password protect them with SecureTraveler™ software. SecureTraveler allows you to create and access a password-protected secure area called a "Privacy Zone" on your DT 400.

**Create a more efficient organization**

DT 400 is great for organizations with employees on the go. By allowing employees to use a single USB Flash drive between their office and home computers, DT 400 also allows organizations to make better use of generic applications-only notebook pools for use by field employees and other mobile professionals. The employee can use MigOSync to create a personalized, working environment. Those with administrative rights can protect corporate data by creating a partition on the drive for additional security with SecureTraveler™.

Multifunctional and easy to use, DataTraveler 400 is backed by legendary Kingston® reliability plus a five-year warranty and 24/7 tech support.

**Features:**

- **SafeGuarded** — includes SecureTraveler™ security software for Windows
