Kingston DataTraveler Secure — Privacy Edition
kingston.com/flashprtsusb

PRODUCT DISCONTINUED – FOR INFORMATION ONLY
Protects 100 percent of your data with 256-bit hardware encryption.

Secure, waterproof and fast, DataTraveler® Secure — Privacy Edition (DTSP) offers unique protection to safeguard critical data even if the drive is lost or stolen. It's an enterprise-grade USB flash drive with 256-bit hardware-based, on-the-fly encryption — 100 percent of the stored data is secure, with no public areas to expose files. Its strong password rules and lock-down control protect against brute force attacks. These advanced security features make DTSP ideal for corporations and service organizations that require employees to transport large digital files consisting of confidential documents. DTSP helps companies avoid the financial and legal consequences of lost or stolen data.

With its impressive 24MB/sec. read and 20MB/sec. write speeds, DTSP performs at the top of its class, and it offers capacities up to 8 GB to give users plenty of room to store critical business data.

DTSP's waterproof rating continues to keep data safe even if you're caught in the rain or it's submerged in water. For added protection, DTSP is designed with a rugged, titanium-coated stainless steel casing.

For added peace of mind, DTSP is backed by a five-year warranty* and legendary Kingston® reliability, service and support.

Compatibility Table

Operating System	File	Hardware Protection/ Data Encryption
Windows Vista ¹	Yes	Yes
Windows XP (SP3, SP4)	Yes	Yes
Windows XP (SP3, SP2)	Yes	Yes

Features/Benefits:

- Full Privacy** — 100 percent of stored data is protected by 256-bit Advanced Encryption Standard (AES) hardware-based encryption
- Fast** — data transfer rates of up to 24MB/sec. read and up to 20MB/sec. write for 1–8GB capacities; up to 24MB/sec. read, 18MB/sec. write for 4GB
- Secure** — drive locks down after 10 intrusion attempts
- Strong password protection** — just what it's used for with minimum characters and to prevent unauthorized access
- Rugged** — titanium-coated stainless steel casing
- Easy to use** — just plug and play into a USB port
- Guaranteed** — five-year warranty²
- Customizable** — color logo program available
- Waterproof** — protects against water damage³

Specifications:

- Dimensions** — 3,000 x 0,076 x 0,417 (0,71 mm x 2,2 mm x 1,05 mm)
- Capacity** — 1GB, 2GB, 4GB, 8GB
- Operating Temperature** — 32°F to 140°F (0°C to 60°C)
- Storage Temperature** — -4°F to 167°F (-20°C to 80°C)
- Minimum System Requirements** —
 - Pentium III processor
 - USB 2.0 compliant and 1.1 compatible
 - Two free USB connectors required

Kingston part numbers:
DTSP1GB, DTSP2GB, DTSP4GB, DTSP8GB

1 Operating system identification based on software and usage. OS driver versions: 1.00.00.
2 Read/write times, weight and construction of cables are subject to change without notice.
3 Capable for hard compatible SD and Secure Fit.
4 Contact Kingston for details.
5 To use the device, an activation program is required for activation.
6 Kingston's warranty is for 5 years. Product must be used normally. Before use.
* The same name of the brand appears on capable for formatting and other functions with actual available for data storage. For more information, please contact Kingston Data Services Center at Kingston.com/ServiceCenter.
