This User manual describes the operating instructions, precautions for proper operation, and simple troubleshooting of the User Box functions of bizhub C203/C253/C353.

[You're reading an excerpt. Click here to read official KONICA MINOLTA BIZHUB C353 user guide](http://yourpdfguides.com/dref/588715)
<http://yourpdfguides.com/dref/588715>

In order to allow functionality of this product fully and to use it effectively, please read this user manual as necessary. Also, by installing the softwares such as HDDTWAIN, and PageScope Box Operator, you can access the data in the user box from another computer over the network. Available functions vary depending on the software. Refer to each software manual.

In order to operate the product safely and properly, be sure to read the accompanying User manuals Copy/Print/Network Scan/Fax/Network Fax/Box Operations and Network Administrator. For detailed safety information and operation precautions, refer to the User Manual. For descriptions on trademarks and copyrights, refer to the User Manual. The illustrations used in this manual may appear slightly different from views of the actual equipment. 1 bizhub C203/C253/C353 1-3 1 1.1 About this manual This document is a user manual on the User Box functions of bizhub C203/C253/C353. The following describes the contents of this manual and representation of the product name. Introduction This manual is intended for persons with basic knowledge of computers and this machine. For details on the Windows or Macintosh operating systems, or software applications, refer to the respective manuals. Also, the software related to the User Box functions, such as HDDTWAIN and PageScope Box Operator, is provided with this machine.

For details on using these softwares, refer to the manual in the CD-ROM. 1.1.1 Contents This manual consists of the following chapters: No. 1 2 3 4 Chapter name Introduction Overview of the User Box functions Control panel/touch panel Operation flow of user boxes Description This chapter describes the manual conventions and gives an overview of the available user manuals.

This chapter describes the type, function and restrictions of available user boxes before using the user box function of this machine. This chapter describes the function of keys on the control panel and usage of the touch panel. This chapter describes the main operation of the user box function in flow charts. Refer to the flow chart for flow of each operation. It also introduces the menu tree of items that can be specified to use the user box function.

Clicking the link of the menu tree displays the page that describes the setting screen. This chapter describes the procedure to display the User Box mode screen after turning the machine on. This chapter describes items you can specify to save a document in the user box. This chapter describes items you can specify to print and send the document saved in the user box. This chapter describes how to check, copy and move the document saved in the user box. This chapter describes items of the Utility mode related to the user box function. The Utility mode allows you to register a user box and specify automatic deletion time of the document. Clicking the link described at the beginning of the chapter displays the page that describes the Utility mode. This chapter describes the overview of the utility software that allows you to configure the machine using an Web browser from a computer on a network. This chapter includes handling error messages, entering text and a glossary.

Safety advices 1.2 6 DANGER Failure to observe instructions highlighted in this manner may result in fatal or critical injuries in fact of electrical power. % Observe all dangers in order to prevent injuries. 7 WARNING Failure to observe instructions highlighted in this manner may result in serious injuries or property damage.

% Observe all warnings in order to prevent injuries and to ensure safe use of the machine. 7 CAUTION Failure to observe instructions highlighted in this manner may result in slight injuries or property damage. % Observe all cautions in order to prevent injuries and to ensure safe use of the machine. Sequence of action 1 2 The number 1 as formatted here indicates the first step of a sequence of actions. Subsequent numbers as formatted here indicate subsequent steps of a sequence of actions.

? Text formatted in this style provides additional assistance. % Text formatted in this style describes the action that will ensure the desired results are achieved. An illustration inserted here shows what operations must be performed. Tips 2 Note Text highlighted in this manner contains useful information and tips to ensure safe use of the machine. 2 Reminder Text highlighted in this manner contains information that should be reminded.

! Detail Text highlighted in this manner contains references for more detailed information. bizhub C203/C253/C353 1-5 1 Special text markings [Stop] key The names of keys on the control panel are written as shown above. MACHINE SETTING Display texts are written as shown above. Introduction 2 Note The machine illustrations shown in this manual can vary and depend on the machine configuration. 1.3 1.3.1 User manuals This machine is provided with printed manuals and PDF manuals on the user manual CD. Printed manual User manual This manual contains operating procedures and descriptions of the most frequently used functions. In addition, this manual contains notes and precautions that should be followed for safe use of the machine.

Be sure to read this manual before using the machine. 1.3.2 User manual CD manuals Copy Operations This manual contains descriptions of the Copy mode operations and machine maintenance. Refer to this manual for details on the paper and originals, copy procedures using convenient Application functions, replacing consumables, and troubleshooting operations such as clearing paper misfeeds. Print Operations This manual contains details of the printing functions that can be specified with the standard built-in printer controller. Refer to this manual for operating procedures on using the printing functions. Box Operations (this manual) This manual contains operating procedures for using the user boxes on the hard disk. Refer to this manual for details on saving data in user boxes, retrieving data from user boxes and transferring data. Network Scan/Fax/Network Fax Operations This manual contains details on the network scan, G3 fax, network fax operations, and fax driver functions.

Refer to this manual for details on using network scan function by E-Mail or FTP, G3 fax, Internet fax, IP address fax operations, and PC-FAX functions.

[MINOLTA BIZHUB C353 user guide](http://yourpdfguides.com/dref/588715)

<http://yourpdfguides.com/dref/588715>

Machine authentication % Type in the user name and password, and then touch [Login] or press the [Access] key. External server authentication % Specify the user name, password and authenticating server, and then touch [Login] or press the [Access] key. Account track % Type in the account name and password, and then touch [Login] or press the [Access] key. bizhub C203/C253/C353 2-7 2 Overview of the User Box functions ! Detail With user authentication, the only boxes that are displayed are those accessible by the user that is logged on. For details, refer to "Authentication and accessible user boxes" on page 2-9. If "Prohibit Functions When Auth. Error" in Administrator mode is set to "Mode 2" and a user enters an incorrect password the specified number of times, that user is locked out and can no longer use the machine. Contact the administrator to cancel operation restrictions.

2.2.2 Limitation on user box registration Public/personal/group user boxes There are "public" user boxes, which can be used by more than one person, "personal" user boxes, which can be used only by a single person, and group user boxes, which can be used only by authorized users in the account track settings. The followings are limitations for each box. Before document data can be saved, a user box must be created for saving the data. Up to 1,000 user boxes can be created. Up to 200 documents can be saved in a single user box. A total of 10,000 pages can be saved in all user boxes. A total of 3,000 documents can be saved in all user boxes. Bulletin board user box Up to 10 user boxes can be created for bulletin board user box. One document can be saved in a single bulletin board user box. Polling TX user box One document can be saved in a polling TX user box. 2.2.3 Limitation on document name Document data that is saved can be given a name. The names can contain a maximum of 30 characters. The names can also be changed after they are saved. The names can be specified when the data is saved; however, if the data is saved without a name specified, a preset name is applied. Preset names are created by combining the following elements. (Example of the name "CKMBT_C35307102315230") Item C Description This letter indicates the mode when the document is saved.

C: Copy S: Fax/Scan P: Print This represents the name of the device that scanned the data. The factory default is "KMBT_(product name)". This name can be changed with the "Device Name" parameter on the "Administrator/Machine Setting" in "Administrator Setting". A name of up to 10 characters can be specified. This indicates the year (last two digits), month, day, hour and minutes when the data is scanned. The last digit is a serial number if the document is part of a series of scans. This indicates the page when multi-page data is scanned. This numeral does not appear beside "File Name"; however, it is added automatically as part of the name when the file is transmitted. Consider this when creating a file name so that it meets the naming requirements of the server receiving the files, for example, when data is sent by FTP. This is the extension for the specified data format.

This text does not appear beside "File Name"; however, it is added automatically as part of the name when the file is transmitted. KMBT_C353 07102315230_0001.TIF ! Detail "S" appears for documents saved in the Fax/Scan mode screen or the User Box screen. 2-8 bizhub C203/C253/C353 Overview of the User Box functions 2 2.3 Authentication and accessible user boxes When user authentication and account track settings have been applied, the accessible user boxes and the access permissions change as shown below.

Specify the user authentication and account track settings according to the desired functions. 2.3.1 When user authentication and account track settings are not specified Create and access Public user box Description Users can access all public user boxes. User boxes created by users and the administrator are "public" user boxes.

2.3.2 When only user authentication settings are specified Public user box User 1 Personal user box for user 1 User box administrator Personal user box for user 2 User 2 Accessible Description Users can access all public user boxes and only personal user boxes that the user has created. Personal user boxes cannot be accessed by other users. A user box administrator can be specified. A user box administrator can access all public user boxes and all personal user boxes. If user authentication settings are canceled or if authentication method is changed, all personal user boxes become public user boxes. bizhub C203/C253/C353 2-9 2 2.3.3 When only account track settings are specified Account A Overview of the User Box functions Public user box Group user box for account A Account B Group user box for account B Accessible Description Users can access all public user boxes and only group user boxes for the account that the user belongs to.

If account track settings are canceled or if authentication method is changed, all group user boxes become public user boxes. 2-10 bizhub C203/C253/C353 Overview of the User Box functions 2 2.3.4 When user authentication and account track settings are specified and synchronized Account A Account B User 1 User 2 Since account name is synchronized with user names, group user boxes for accounts that the user does not belong to cannot be accessed. Public user box Account A Personal user box for user 1 User 1 Group user box for account A Account B Public user box Personal user box for user 2 User 2 Group user box for account B Accessible Description Users can access all public user boxes, only group user boxes for the account that the user belongs to, and only personal user boxes that the user has created. Personal user boxes cannot be accessed by other users. A user box administrator can be specified. A user box administrator can access all public user boxes, all personal user boxes and all group user boxes. If user authentication settings are canceled or if authentication method is changed, personal user boxes and all group user boxes become public user boxes. bizhub C203/C253/C353 2-11 2 2.

3.5 Overview of the User Box functions When user authentication and account track settings are specified but not synchronized Account A Account B User 1 User 2 Since account name is not synchronized with user names, the account name and password must be entered when logging on. A user can use different account name at each login, and therefore can access to each group user box for the account. Public user box Personal user box for user 1 User 1 Group user box for account A Public user box Group user box for account B Accessible Accessible by entering the account name and password Description Users can access all public user boxes and only personal user boxes that the user has created.

Personal user boxes cannot be accessed by other users.

A user can access to a particular group user box by entering the relevant account name and password when logging on. A user box administrator can be specified. A user box administrator can access all public user boxes, all personal user boxes and all group user boxes. If user authentication settings are canceled or if authentication method is changed, personal user boxes and all group user boxes become public user boxes. 2-12 bizhub C203/C253/C353 3

Control panel/touch panel Control panel/touch panel 3 3 3.

1 Control panel/touch panel Control panel Use the control panel for User Box mode operation. The following keys and switches are provided on the control panel. 1 2 3 4 22 21 20 19 6 18 17 16 15 7 8 5 14 13 12 11 10 9 No. 1 2 3 Part name Touch panel Main Power indicator [Power] (auxiliary power) key Description Displays various screens and messages. Specify the various settings by directly touching the panel. Lights up in green when the machine is turned on with the main power switch. Press to turn on/off machine operations, for example, for copying, printing or scanning. When turned off, the machine enters a state where it conserves energy. Press to register (store) the desired copy/scan settings as a program or to recall a registered copy/scan program. Press to display the Utility screen and the Meter Count screen.

Press to clear all settings (except programmed settings) entered in the control panel and touch panel. Press to enter Interrupt mode. While the machine is in Interrupt mode, the indicator on the [Interrupt] key lights up in green and the message "Now in Interrupt mode." appears on the touch panel. To cancel Interrupt mode, press the [Interrupt] key again. Pressing the [Stop] key during scanning temporarily stops the scan operation. Press to print a single proof copy to be checked before printing a large number of copies. 4 5 6 7 [Mode Memory] key [Utility/Counter] key [Reset] key [Interrupt] key 8 9 [Stop] key [Proof Copy] key bizhub C203/C253/C353 3-3 3 No. 10 Part name [Start] key Description Control panel/touch panel Press to start scanning. When this machine is ready to begin to scan, the indicator on the [Start] key lights up in blue.

If the indicator on the [Start] key lights up in orange, the operation cannot be started. Press to restart a stopped job. Flashes in blue while a print job is being received. Lights up in blue when data is being printed. Press to erase a value (such as the number of copies, a zoom ratio, or a size) entered using the keypad. Use to type in the number of sets to be copied. Use to type in the zoom ratio. Use to type in the various settings. Press to display the Help screen. From this screen, descriptions of the various functions and details of operations can be displayed.

Press to enter Enlarge Display mode. Press to display the screen for specifying settings for user accessibility functions. Press to enter Power Save mode. While the machine is in Power Save mode, the indicator on the [Power Save] key lights up in green and the touch panel goes off. To cancel Power Save mode, press the [Power Save] key again. In order to use this machine when user authentication or account track settings have been applied, enter the user name and password (for user authentication) or the account name and password (for account track), and then press this key. Also press this key to log off. Use to adjust the brightness of the touch panel. Press to enter User Box mode. While the machine is in User Box mode, the indicator on the [User Box] key lights up in green.

Press to enter Fax/Scan mode. While the machine is in Fax/Scan mode, the indicator on the [Fax/Scan] key lights up in green. For details on the fax operation, refer to the User manual Network Scan/Fax/Network Fax Operations. Press to enter Copy mode. (As a default, the machine is in Copy mode.) While the machine is in Copy mode, the indicator on the [Copy] key lights up in green. For details, refer to the User manual Copy Operations. 11 12 13 Data indicator [C] (clear) key Keypad 14 [Help] key 15 16 17 [Enlarge Display] key [Accessibility] key [Power Save] key 18 [Access] key 19 20 [Brightness] dial [User Box] key 21 [Fax/Scan] key 22 [Copy] key 7 CAUTION Do not apply extreme pressure to the touch panel, otherwise it may be scratched or damaged. % Never push down on the touch panel with force, and never use a hard or pointed object to make a selection in the touch panel. 3-4 bizhub C203/C253/C353 Control panel/touch panel 3 3.

2 3.2.1 Touch panel Screen layout 1 5 2 4 3 No. 1 2 Part Name Message display area Functions/settings display area Description The status of the machine and details on operations are displayed. Softkeys to select functions are displayed. This area is for specifying the settings of various functions. Touch softkeys to display the corresponding screen for specifying the settings. Icons indicating the status of jobs and the machine are displayed. These indicators show the amount of toner remaining for yellow (Y), magenta (M), cyan (C), and black (K). The softkeys, such as [Job List] showing the jobs being processed or to be processed, and [Mode Check] showing the result of the specified settings, appear in this area.

For details on the left panel, refer to "Display and operation of the left panel" on page 3-7. 3 4 5 Icon display area Toner supply indicators Left panel bizhub C203/C253/C353 3-5 3 Icons on the touch panel Control panel/touch panel The status of the machine may appear in the icon display area. The followings are the icons appear on the touch panel. Icon Description Indicates that data is being sent from the machine, regardless of the current mode. Indicates that data is being received by the machine, regardless of the current mode. Indicates that an error occurred during an image stabilization operation, a print operation or a scan operation. Touch this icon to view a screen containing a warning code. If the warning screen was closed when a warning occurred, touch this button to display the warning screen again. Appears when there is a message indicating that consumables must be replaced or the machine requires maintenance. Touch this icon to display the message, and then perform the replacement or maintenance procedure.

Appears when an error occurs with the connection to the POP server. Indicates that paper is not loaded in the paper tray. Indicates that very little paper remains in the paper tray. If the optional image controller is installed, touch this icon to display the setting screen for the image controller. Indicates that Enhanced Security mode is set to ON. Indicates that an external memory is installed. 3-6 bizhub C203/C253/C353 Control panel/touch panel 3 3.2.2 Display and operation of the left panel In the left panel of the touch panel, job status and settings can be displayed using the keys.
